*The Laws and Other Legalities of Ireland, 1689-1850* Seán Patrick Donlan, 2016-03-03 While Irish historical writing has long been in thrall to the perceived sectarian character of the legal system this collection is the first to concentrate attention on the actual relationship that existed between the Irish population and the state under which they lived from the War of the Two Kings 1689 1691 to the Great Famine 1845 1849 Particular attention is paid to an understanding of the legal character of the state and the reach of the rule of law with contributors addressing such themes as how law was made and put into effect how ordinary people experienced the law and social regulations how Catholics related to the legal institutions of the Protestant confessional state and how popular notions of legitimacy were developed These themes contribute to a wider understanding of the nature of the state in the long eighteenth century and will therefore help to situate the study of Irish society into the mainstream of English and European social history

**Bridging Boundaries in British Migration History** Marie Ruiz, 2020-09-28

This memorial book honours the legacy of Eric Richards's work in an interplay of academic essays and personal accounts of Eric Richards. Following the Eric Richards methodology it combines micro and macro perspectives of British migration history and covers topics such as Scottish and Irish diasporas, religious labour and wartime migrations. Eric Richards was an international leading historian of British migration history and a pioneer at exploring small and large scale migrations. His last public intervention given in Amiens, France, in September 2018, opens the book. It is preceded by a tribute from David Fitzpatrick and Ngairé Naffine's eulogy. This book brings together renowned scholars of British migration history. The book combines local and global migrations as well as economic and social aspects of nineteenth and twentieth century British migration history.

**The Irish Bridget** Margaret Lynch-Brennan, 2014-06-05 Bridget was the Irish immigrant servant girl who worked in American homes from the second half of the nineteenth century into the early years of the twentieth. She is widely known as a pop culture cliché: the young girl who wreaked havoc in middle class American homes. Now, in the first book-length treatment of the topic, Margaret Lynch-Brennan tells the real story of such Irish domestic servants, providing a richly detailed portrait of their lives and experiences. Drawing on personal correspondence and other primary sources, Lynch-Brennan gives voice to these young Irish women and celebrates their untold contribution to the ethnic history of the United States. In addition, recognizing the interest of scholars in contemporary domestic service, she devotes one chapter to comparing Bridget's experience to that of other ethnic women over time in domestic service in America.

**The Cambridge History of Ireland: Volume 4, 1880 to the Present** Thomas Bartlett, 2018-02-28 This final volume in the Cambridge History of Ireland covers the period from the 1880s to the present. Based on the most recent and innovative scholarship and research, the many contributions from experts in their field offer detailed and fresh perspectives on key areas of Irish social, economic, religious, political, demographic, institutional and cultural history. By situating the Irish story or stories as for much of these decades, two Irelands are in play in a variety of contexts: Irish and Anglo-Irish, but also European, Atlantic and latterly global. The result is an insightful interpretation on the emergence and development of Ireland during these often turbulent decades. Copiously illustrated with special features on images of the Troubles and on Irish art and sculpture in the twentieth century, this volume will undoubtedly be hailed as a landmark publication by the most recent generation of historians of Ireland.

Bankhurst, 2013-11-25 Bankhurst examines how news regarding the violent struggle to control the borderlands of British North America between 1740 and 1760 resonated among communities in Ireland with familial links to the colonies. Delaney, 2025-10-02 A provocative and original reinterpretation of modern Irish history There is a widespread misconception that Ireland became modern much later than its neighbours in the 1960s and 1970s This is grounded in several enduring stereotypes and caricatures of Ireland as a timeless and unchanging land of saints and scholars of its society and culture in the long nineteenth century as puritanical regressive or archaic of Gaelic language and culture as backward or inward looking in contrast to a modern English counterpart and of the island as natural and rural in the face of the urban and technological progress of modernity Drawing on an extensive range of sources from poetry and novels to contemporary historical documents acclaimed historian Enda Delaney here offers a reinterpretation of Ireland's encounter with modernity that corrects these stereotypes By situating the island's history between 1780 and 1916 within its broader European global and colonial contexts he demonstrates that Ireland's pathway to modernity was not inevitable belated or uni directional over a complex and centuries long process it was made modern and in its own distinctive way This was related to but distinct from Ireland's complicated colonial relationship with Britain and played out in the broader contexts of globalisation and the rise of capitalism And at the heart of this history are the Irish people themselves both those who lived on the island and the millions of those who left during this period and made their lives in Britain America Australia and beyond who made sense of modernity in a variety of conflicting ways and in so doing sought to shape their own destinies and adapt the old ways of doing things in the face of relentless waves of progress Changes in values consciousness and beliefs interacted with broader social political and cultural revolutions to create a distinctive experience of becoming modern The result is a bold and wide ranging new history of modern Ireland that restores agency to those who lived and made its history raising important and timely questions about modernity globalisation modern history and post colonialism      **Ireland in the Age of Revolution,**

**1760-1805, Part II** Harry T Dickinson, 2021-02-25 The latter half of the eighteenth century saw Irish opposition movements being greatly influenced by the American and French revolutions This two part six volume edition illustrates the depth and reach of this influence by publishing pamphlets dealing with the major political issues of these decades      **Melancholy**

**Accidents** Carolyn Conley, 1999-01-01 While most scholarly attention on violence in post famine Ireland has focused on political crimes this book examines non political violence which made up the vast majority of incidents in that period Ireland's overall crime rate was below that of England and Wales but the proportion of violent offenses to non violent ones was significantly higher in Ireland In *Melancholy Accidents* Carolyn Conley decries the commonly held belief that recreational and domestic violence was generally the result of understandable emotions Conley demonstrates that the meaning of violence in post famine Ireland was complex personal and often deeply traditional and idiosyncratic This unique book will be valuable to a wide variety of scholars including those who study women's history European history and social problems

**Print and Popular Culture in Ireland, 1750-1850** Niall O Ciosáin, 2016-07-27 This highly acclaimed book is being published for the first time in paperback The author studies the cheap printed literature which was read in eighteenth and nineteenth century Ireland and the cultures of its audience It takes an interdisciplinary approach to a little known topic pursuing comparisons with other regions such as Brittany and Scotland By addressing questions such as the language shift and the unique social configuration of Ireland in this period it adds a new dimension to the growing body of studies of popular culture in Europe

**British Population History** Michael Anderson, 1996-07-13 This book brings together in one volume the four studies on British population history already published in the series New Studies in Economic and Social History and adds to them a new essay on British population in the twentieth century Between them the authors survey the trends and debates in British population history from 1348 to 1991 Research over the past twenty five years has transformed our understanding of how population has grown and declined of why the numbers of births deaths marriages and migrants have risen and fallen and thrown much new light on the economic and social impact of these changes The studies in this book supply introductions to these problems for readers who are not themselves demographers but who as students teachers or non specialist historians and social scientists want to know more about what happened and what are the main topics of current debate Full bibliographies for further study are included

**An Imperial State at War** Lawrence Stone, 2013-10-18 The study of eighteenth century history has been transformed by the writings of John Brewer and most recently with *The Sinews of Power* he challenged the central concepts of British history Brewer argues that the power of the British state increased dramatically when it was forced to pay the costs of war in defence of her growing empire In *An Imperial State at War* edited by Lawrence Stone himself no stranger to controversy the leading historians of the eighteenth century put the Brewer thesis under the spotlight Like *The Sinews of Power* itself this is a major advance in the study of Britain's first empire

**Labour, Love, and Prayer** Andrea Ebel Brożyna, Queen's University of Belfast. Institute of Irish Studies, 1999 An interesting new look at the Irish problem *Labour Love and Prayer* makes a valuable contribution to the histories of women Ireland and religion

**Hungering for America** Hasia R. DINER, 2009-06-30 Millions of immigrants were drawn to American shores not by the mythic streets paved with gold but rather by its tables heaped with food How they experienced the realities of America's abundant food its meat and white bread its butter and cheese fruits and vegetables coffee and beer reflected their earlier deprivations and shaped their ethnic practices in the new land *Hungering for America* tells the stories of three distinctive groups and their unique culinary dramas Italian immigrants transformed the food of their upper classes and of sacred days into a generic Italian food that inspired community pride and cohesion Irish immigrants in contrast loath to mimic the foodways of the Protestant British elite diminished food as a marker of ethnicity And East European Jews who venerated food as the vital center around which family and religious practice gathered found that dietary restrictions jarred with America's boundless choices These tales of immigrants in their old worlds and in the new demonstrate the role of

hunger in driving migration and the significance of food in cementing ethnic identity and community Hasia Diner confirms the well worn adage Tell me what you eat and I will tell you what you are      **Mapping the Margins** Michael Gauvreau, Nancy Christie, 2004 A re evaluation of the history and historiography of the Canadian family
