alongside the democratisation of the English countryside By doing so he reveals that the economic decline of the great landed estates was balanced by their continued social and political influence in the countryside up to the Great War With its focus on Suffolk a county at the forefront of agricultural improvement and thus hardest hit by the agricultural depression the patterns revealed by England's Rural Realm demonstrates the durability of the great estate system across the English countryside

V. Simmonds, 2013-03-01 The First World War appears as a fault line in Britain's twentieth century history Between August 1914 and November 1918 the titanic struggle against Imperial Germany and her allies consumed more people more money and more resources than any other conflict that Britain had hitherto experienced For the first time it opened up a Home Front that stretched into all parts of the British polity society and culture touching the lives of every citizen regardless of age gender and class vegetables were even grown in the gardens of Buckingham Palace Britain and World War One throws attention on these civilians who fought the war on the Home Front Harnessing recent scholarship and drawing on original documents oral testimony and historical texts this book casts a fresh look over different aspects of British society during the four long years of war It revisits the early war enthusiasm and the making of Kitchener's new armies the emotive debates over conscription the relationships between politics government and popular opinion women working in wartime industries the popular experience of war and the question of social change This book also explores areas of wartime Britain overlooked by recent histories including the impact of the war on rural society the mobilization of industry and the importance of technology responses to air raids and food and housing shortages and the challenges to traditional social and sexual mores and wartime culture Britain and World War One is essential reading for all students and interested lay readers of the First World War **The Potential of England's Rural Economy** Great Britain. Parliament. House of Commons. Environment,

Food and Rural Affairs Committee, 2008 This is the 11th report from the Environment Food and Rural Affairs Committee HCP 544 I session 2007-08 ISBN 9780215524201 and focuses on the potential of England's rural economy A report from the Rural Advocate to the Prime Minister in June 2008 <http://www.ruralcommunities.gov.uk/files/CRC74.pdf> estimated the untapped potential from rural business as between 236 billion and 347 billion per annum The Department for Environment Food and Rural Affairs DEFRA has not commented on these figures but the Committee believes that if the figures are accurate tackling the factors that inhibit growth of businesses in rural areas could make a substantial difference to the performance of England's economy as a whole The Committee states that DEFRA should produce its own estimate and that the Department's present approach to the rural economy will not deliver the tailored solutions that rural business needs DEFRA's new Departmental Strategic Objective DSO does not convince the Committee that this will identify the factors inhibiting economic growth The DSO is split into two intermediate outcomes i that the needs of rural people are met through mainstream policy ii by

supporting economic growth in rural areas with the lowest levels of performance Both these outcomes are directed towards the objective of developing Strong Rural Communities For the Committee DEFRA should focus on achieving economic growth across rural areas as a whole and not exclusively concentrate on areas of the lowest performance and that the indicators obtained from the DSOs are incomplete because they do not include transport communications planning and further education Also there is no distinction between different types and sizes of rural community The Committee further states that DEFRA needs to consult with the Commission for Rural Communities on whether the indicators represent the best way of identifying problems The delivery of the DSO s will also depend heavily on other Departments Regional Development Agencies and local authorities and DEFRA needs to produce a delivery plan setting out what assistance it needs from these bodies
