State of the Urban Youth, 2010/2011, 2010 This report is based on data from UN HABITAT's Global Urban Indicator Database as well as surveys of and focus group discussions with selected representative groups of young people in five major cities located in four developing regions Rio de Janeiro Brazil Mumbai India Kingston Jamaica Nairobi Kenya and Lagos Nigeria

ix **State of the World's Cities 2008/9** Un-Habitat, 2012-05-04 Cities are perhaps one of humanity's most complex creations never finished never definitive They are like a journey that never ends Their evolution is determined by their ascent into greatness or their descent into decline They are the past the present and the future Cities contain both order and chaos In them reside beauty and ugliness virtue and vice They can bring out the best or the worst in humankind They are the physical manifestation of history and culture and incubators of innovation industry technology entrepreneurship and creativity Cities are the materialization of humanity's noblest ideas ambitions and aspirations but when not planned or governed properly can be the repository of society's ills Cities drive national economies by creating wealth enhancing social development and providing employment but they can also be the breeding grounds for poverty exclusion and environmental degradation The 21st Century is the Century of the City Half of humanity now lives in cities and within the next two decades 60 per cent of the world's people will reside in urban areas How can city planners and policymakers harmonize the various interests diversity and inherent contradictions within cities What ingredients are needed to create harmony between the physical social environmental and cultural aspects of a city and the human beings that inhabit it This report adopts the concept of Harmonious Cities as a theoretical framework in order to understand today's urban world and also as an operational tool to confront the most important challenges facing urban areas and their development processes It recognizes that tolerance diversity social justice and good governance all of which are inter related are as important to sustainable urban development as physical planning It addresses national concerns by searching for solutions at the city level For that purpose it focuses on three key areas spatial or regional harmony which examines the main drivers of urban growth in the developing world and explores the spatial nuances of economic and social policies social harmony which presents and analyzes new data on urban inequalities worldwide and describes the types of shelter deprivations experienced by slum

dwellers in developing world regions and environmental harmony which examines the role of cities in the climate change debate and the impact of global warming on the most vulnerable cities The report also assesses the various intangible assets within cities that contribute to harmony such as cultural heritage sense of place and memory and the complex set of social and symbolic relationships that give cities meaning It argues that these intangible assets represent the soul of the city and are as important for harmonious urban development as tangible assets Harmony within cities argues the report is both a journey and a destination Published with UN HABITAT Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations for 1986: Legal Services Corporation United States. Congress. House. Committee on Appropriations. Subcommittee on the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies, 1985

Urban development debates in the new millennium [Introduction by Prasenjit Maiti], 2004 This Collection Of Essays By Academics And Practitioners From Around The World Underscores Issues And Concerns Of Sustainable Urban Development And Best Practices In Terms Of Theory As Well As Praxes Contributors Have Made An Attempt To Critically Reconcile The Hypothetical With The Applied In Order To Arrive At Innovative Solutions For Urban Good Governance In The Context Of The Steady Proliferation Of Habitats And Conurbations All Over The World Their Papers More Often Than Not Transcend Regional Specifics To Address The Common Agenda Of Urban Development Debates As Informed By Assorted Modernization Perspectives In The 21St Century This Volume Brings Together Social Scientists Development Consultants And Nonprofit Professionals So That Multipositional Theories And Multicultural Praxes Might Be Reflected In Their Papers Based On Empirical Research And Field Level Insights It Is Expected That This Volume Will Provoke Fresh Debates And New Ideas That Will Facilitate Theory Building As Well As Formulation Of Paradigms For Good Practices And Sustainable Urban Applications The Book Would Be Found Highly Useful By Town Planners Municipal Administrators Ngos Working In The Field Of Urban Development And Common Readers Interested In Urban Problems And Policies It Will Be Equally Valuable For Policy Makers As Well As Students Researchers And Teachers Of Urban Economics Urban Sociology Urban Geography And Public Administration

Technological Innovations in Media and Communications Dibyanshu Kumar, 2022-01-16 Technological Innovations in Media and Communications Media are the storage and transmission channels or tools used to store and deliver information or data It is often referred to as synonymous with mass media or news media but may refer to a single medium used to communicate any data for any purpose The word medium comes from the Latin word medius The beginning of human communication through designed channels i e not

vocalization or gestures dates back to ancient cave paintings drawn maps and writing The Persian Empire centered around present day Iran and Afghanistan played an important role in the field of communication It devised what might be described as the first real mail or postal system which is said to have been developed by the Persian emperor Cyrus the Great c 550 BC after his conquest of Media The role of the system as an intelligence gathering apparatus is well documented and the service was called *angariae* a term that in time turned to indicate a tax system The mass media are diversified media technologies that are intended to reach a large audience by mass communication The technologies through which this communication takes place to vary Broadcast media such as radio recorded music film and television transmit their information electronically Print media use physical objects such as a newspaper books pamphlets or comics to distribute their information Outdoor media is a form of mass media that comprises billboards signs or placards placed inside and outside of commercial buildings sports stadiums shops and buses Other outdoor media include flying billboards blimps and skywriting The present book deals with all the important dimensions of this subject It is a valuable reference source for all those concerned with this subject Contents Uses and Gratifications of Mass Communication Diffusion of Innovations in Mass Media Media Audience Research and its Social Imaginaries Communication Theory Uses and Gratifications Redefining Development Journalism Democracy Development Peace and Communication International Experience Government Communication and Media Weblog and Emergent Democracy Media and Community Development

Challenges of Urbanization in the 21st Century Kalpana Markandey,B. Srinagesh,Ashok Kumar Lonavath,2013-01-01 This series on Challenges of Urbanization in the 21st Century is a five volume compendium that contains the articles presented at the 11th Asian Urbanization Conference held at Hyderabad India in collaboration with the US based Asian Urban Research Association The Fourth Volume on Urbanization and Urban Growth discusses topics as diverse as Land Use and Land Cover Demographics Spatiality in Urbanization Urban Impact on Economy and Sustainable Urbanization gentrification media and development role of Indian Judiciary in Urban Development

The Needy and the Neglected in Developing Societies. Zacchaeus Ogunnika,Joyce Moody Edwards,2016-09-22 This book utilizes sociological imagination to analyze and describe the issue of the neglected majority in human society It focuses on how the poor and underclass including women and the disable are perceived and treated by the society and the response of the dominant class to the condition of those neglected It attempts to see through some approaches through which the affected and the neglected especially women can help ameliorate their own neglect by the authority The book saw disability as not a liability but a challenge which can be overcome by the affected The major interesting idea in the book is the authors belief that the neglect should not believe in the utopic idea that the social system as it is constituted will come to their rescue The authors instead assert that the success of the neglected class remains with the neglected themselves By a concerted effort disability will become ability and women by cooperating in women development organizations will overcome the limitation placed on them by the society

Digital Development in East Africa Warigia M. Bowman, 2023-09-22 This book uses comparative case study methodology and extensive field work to examine and compare outcomes of four East African nations Kenya Tanzania Uganda and Rwanda that implemented formal Information and Communications Technology policies in the 1990s Based on extensive fieldwork the book assesses the emergence of a new policy and technological arena from the turn of the millennium to the present In addition to tracing the implementation and reception of these policies Bowman considers to what extent the politics of infrastructure in four connected but distinct African nations have resulted in global participation and equitable distribution and access of infrastructure to all citizens as well as the impact a recent history of war or peace have on the technological outcomes in these communities The book provides us with invaluable new data on how policy and politics function in emerging democracies and illuminates long overlooked opportunities and conditions necessary for the distribution of new and potentially beneficial technologies in other developing countries

Low-Carbon Economy and Sustainable Development: Driving Force, Synergistic Mechanism, and Implementation Path Zhen Liu, Wang Pei, Jing Lan, Jingchao Zhang, 2024-11-25 In recent years with global economic development and population growth environmental issues have become increasingly prominent Climate change and energy crisis have become global problems that restrict human development and so need to be solved urgently As a comprehensive economic development model the low carbon economy can greatly reduce energy and resource consumption mitigate and adapt to climate change promote economic development and thus achieve the goal of sustainable development Therefore exploring efficient paths toward sustainable development through carbon reduction is an urgent and challenging research topic currently This Research Topic aims to conduct scientific research and exchange from the perspectives of clarifying the drivers behind carbon reduction investigating the synergistic mechanism between the low carbon economy and sustainable development and then exploring the pathways to low carbon development Through comprehensive research and comparative analysis of the relationship between low carbon economy and sustainable development we will verify the feasibility of innovations and updates of carbon reduction applications for sustainable development provide scientific strategies in terms of low carbon economy for sustainable development design technical routes and propose corresponding policy recommendations

Surviving the Century Herbert Girardet, 2012-05-23 Environmental and human catastrophe looms ever larger for planet Earth From the need to build sustainable cities to house growing billions to transforming the international trade system to tackling runaway climate change positive powerful action is ne
