Rusia La Reconstrucción De Una Potencia:

Rusia, la reconstrucción de una potencia Julio Godio,1996 **La reconstrucción de la política internacional española** Joaquim Albareda Salvadó,Nuria Sallés Vilaseca,2021-10-28 Este libro pretende aportar una visión de conjunto de la política exterior española durante el reinado de Felipe V entre 1713 y 1746 periodo en el que se consolidaron la dinastía borbónica en España y el sistema de equilibrio europeo forjado en la paz de Utrecht Aborda este asunto crucial que no había sido tratado de forma sistemática mediante una visión global y multidimensional que pone de relieve los vínculos existentes entre política interior y exterior a la vez que analiza el rol de la monarquía de España en el contexto europeo Expone las líneas maestras de esta política exterior de los gobiernos de Felipe V analiza tanto los objetivos que perseguía territoriales políticos y económicos como la reacción que suscitó en Europa y finalmente efectúa un balance de sus características y de sus logros *Bibliographie Mensuelle* United Nations Library (Geneva, Switzerland),1997-07 **Política y geopolítica para rebeldes, irreverentes y escépticos** Augusto Zamora,2022-02-21 Nueva edición de un libro que en poco más de una década se ha convertido en un referente en el ámbito del análisis geopolítico con nuevos materiales sobre lo acontecido en torno a Irán Turquía Siria Libia Estados Unidos Rusia o China Recibimos más información que nunca y sin embargo también estamos condicionados que nunca pues la constitución de un oligopolio mediático hace que dicha información tenga un claro sesgo que sirve a los intereses de sus dueños Y este hecho se ve reflejado con particular crudeza en el ámbito de la política y la geopolítica donde la visión global de un mundo dividido entre buenos neoliberales y malos todos los días es continuamente martilleada por televisiones radios y cabeceras periodísticas De ahí que para entender bien nuestro mundo y tratar de cambiarlo ahora que aún estamos a tiempo sea necesario casi partir de cero Tal es el objeto de este libro Dirigido a un público joven de 18 a 90 años en sus páginas se desgranarán los conceptos las teorías y los protagonistas que han dado y dan forma al contexto sociopolítico que nos rodea De las proyecciones cartográficas a la Guerra Fría de los Estados fallidos a los Estados canallas de Estados Unidos a Afganistán de la Guerra Fría a los bancos ofrece un panorama que sin duda sorprenderá al lector pues no acaba de cuadrar con la versión oficial Un texto ameno e interesante que sin perder el rigor se dirige a todos los escépticos sumisos e inadaptados que no comulgan con lo que dicta el establishment ni con las supuestas verdades sobre las que se cimenta la triste realidad Y no sólo a los que ya son conscientes de ello sino a los que aún no lo saben [La reconstrucción de Europa](#) Noël Pierre Lenoir,1944 **Orientación y organización, población y descentralización, programa de reconstrucción nacional** Manuel Jesús Gamarra,1926 **Historia de la construcción europea desde 1945** Antonio Moreno Juste,Vanessa Núñez Peñas,2017-09-14 Historia de la construcción europea desde 1945 es un estudio de uno de los procesos integradores más importantes de la Historia de la humanidad que hunde sus raíces tanto en los horrores de la Segunda Guerra Mundial como en los estrechos intereses nacionales de la postguerra europea Un proceso que desde un punto de vista histórico es ya una realidad política social económica y en no menor medida cultural pero también un escenario

complejo que parece haber entrado en crisis o al menos es fuertemente cuestionado. Se lograron los objetivos iniciales de resolver algunos conflictos del pasado que llevaron a dos guerras creando una serie de instituciones y procesos de cesión de soberanía que han transformado radicalmente la faz del Viejo Continente. Pero en las últimas décadas se ha ido trocando esa narrativa de postguerra por la de un pragmatismo de unos debilitados Estados europeos que intentan adaptarse a un mundo diferente del que vio nacer a la primitiva Comunidad del Carbón y el Acero, origen de la actual Unión Europea. En este contexto han aparecido nuevos enfoques en torno al espacio público europeo y los procesos de europeización, la historia transnacional y el papel de la diplomacia, la prensa, los grupos de interés o también los estudios globales en relación con el mundo extraeuropeo, cuestiones que son abordadas en esta Historia de las construcciones europeas desde 1945. La edición cuenta con mapas y gráficos para hacer más comprensible su lectura.

Chechenia, rompamos el silencio, 2008. Chechenia. Rompamos el silencio pretende poner sobre la mesa la situación que ha vivido y que actualmente padece el pueblo checheno. Y así de alguna manera pretende agitar a la opinión pública para que reaccione. No podemos sentirnos ajenos a la tragedia de Chechenia que estamos convencidos que es nuestra propia tragedia. Más allá de los derechos propios de un pueblo que ha sido tradicionalmente marginado y pisoteado, más allá de un derecho de autodeterminación apenas reconocido en la legalidad internacional, más allá incluso de los derechos políticos elementales de representación y libertad de acción negados por un mal disimulado estado de ocupación, los chechenos son las víctimas expiatorias de una situación que hemos creado entre todos y que contribuye a eternizar la justicia del más poderoso, la legitimidad de la fuerza. Es triste y al mismo tiempo necesaria la lectura del libro que tenemos entre manos. Triste por las realidades que en él se explican y necesaria porque sin el conocimiento de lo que en él se dice resulta imposible ninguna acción de cambio.
