## **Russia And The Post Soviet Scene A Geographical Perspective:**

**Russia and the Post-Soviet Scene** James H. Bate, 1996 This successor to Bate's highly acclaimed *The Soviet Scene* presents a survey of the contemporary human geography of the former Soviet Union A central theme in the book's organization and content is historical continuity and change Bate argues that an appreciation of the former Soviet Union's past is imperative to an understanding of the present *Russia's Policy Challenges* Stephen K. Wegren, 2016-07-08 Designed for use in courses on contemporary Russia this volume explores Russia's policy dilemmas in three realms international security socio political and socio economic In each of these categories Russia faces daunting problems none of which is likely to be resolved quickly or easily Yet over the longer term the extent to which policymakers are successful in dealing with these challenges will go far in determining Russia's future place in the world how Russians will live and what kind of country Russia becomes Each expertly authored chapter outlines the nature of one major issue traces its evolution and policy developments under the Yeltsin and Putin presidencies and evaluates the effectiveness and prospects of efforts to come to grips with the challenge Continuity And Change In Rural Russia A Geographical Perspective Gregory Ioffe, Tatyana Nefedova, 2018-02-23 Contrary to the viewpoint of many Western scholars the authors of this penetrating analysis argue that private farming is not a viable option in Russia's future Instead a convergence of Soviet style subsidiary farming with traditional and reorganized collective farms is the most plausible path of evolution in most rural areas Grigory Ioffe and Tatyana Nefedova arrive at this conclusion by a careful examination of ongoing reform efforts in Russian agriculture against the backdrop of European and Russian agrarian history and rural spatial development since the late nineteenth century The comparisons at the national level are then filled in with consideration of a number of Russian provinces oblasti and regions raiony Their research reveals the substantial negative impact of rural depopulation on the Russian agrarian economy Seventy original maps richly complement and support the narrative *Post-Soviet Geography and Economics*, 2000 A History Of Russia Volume 2 Walter G. Moss, 2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world **Handbook of Comparative and Development Public Administration** Ali Farazmand, 2019-02-21 With contributions from nearly 80 international experts this comprehensive resource covers diverse issues aspects and features of public administration and policy around the world It focuses on bureaucracy and bureaucratic politics in developing and industrialized countries and emphasizing administrative performance and policy implementation as well as political system maintenance and regime enhancement The book covers the history of public administration and bureaucracy in Persia Greece Rome and Byzantium and among the

Aztecs Incas and Mayas public administration in small island states Eastern Europe and ethics and other contemporary issues in public administration

**A History of Russia Volume 1** Walter G. Moss, 2003-07-01 This new edition retains the features of the first edition that made it a popular choice in universities and colleges throughout the US Canada and around the world Moss's accessible history includes full treatment of everyday life the role of women rural life law religion literature and art In addition it provides many other features that have proven successful including a well organized and clearly written text references to varying historical perspectives numerous illustrations and maps fully updated bibliographies accompanying each chapter as well as a general bibliography a glossary and chronological and genealogical lists

**Cities of the World** Stanley D. Brunn, Maureen Hays-Mitchell, Donald J. Zeigler, 2012 Remarkably more than half of the world's population now lives in cities and the numbers grow daily as people abandon rural areas This fully updated and revised fifth edition of the classic text offers readers a comprehensive set of tools for understanding the urban landscape and by extension the world's politics cultures and economies Providing a sweeping overview of world urban geography a group of noted experts explores the eleven major global regions Each author presents the region's urban history economy culture and society as well as urban spatial models and problems and prospects Environmental human security globalization and cyberspace topics are fully developed as well Vignettes of seventy eight key cities give the reader a vivid understanding of daily life and the spirit of place An introductory chapter presents an overview of key terms and concepts and a concluding chapter projects the world's urban future Liberally illustrated with a new selection of photographs maps and diagrams the text also includes a rich array of textboxes to highlight key topics ranging from gender and the city to Islamic fashion and global warming Bibliographic sources websites and an appendix of UN data provide additional resources for helping students understand more about the urban world Clearly written and timely Cities of the World will be invaluable for those teaching introductory or advanced classes on global cities regional geography and urban studies Contributions by Amal K Ali Lisa Benton Short Alana Boland Tim Brothers Stanley D Brunn Kam Wing Chan Ipsita Chatterjee Megan Dixon Robyn Dowling Ashok K Dutt Irma Escamilla Rina Ghose Brian J Godfrey Mark Graham Angela Gray Subulwa Jessica K Graybill Maureen Hays Mitchell Corey Johnson Nathaniel M Lewis Linda McCarthy Pauline McGuirk Garth A Myers Arnisson Andre Ortega Francis Owusu George M Pomeroy Joseph L Scarpaci Dona J Stewart James A Tyner and Donald J Zeigler

**Siberia** Victor L Mote, 2018-02-07 Known to most as a realm of exile and labor camps Siberia is also one of the world's wealthiest resource bases This harsh vast land constitutes nearly three quarters of Russia's territory yet after four centuries of Slavic migration and procreation it is home to a mere 32 million people In this comprehensive book Victor Mote illuminates the dichotomy between Siberia's rich treasurehouse of resources and its peripheral relationship to the rest of the world With this paradox in mind he traces the region's history from the Stone Age to the present emphasizing the unique blend of wit and will developed by inhabitants to survive one of the most brutal environments in the world a land that has been part colony part prison and part frontier Mote

also explores the geography ethnography economics and politics of Siberia and its people providing a multidisciplinary perspective for scholars and general readers alike interested in Eurasia's forgotten quarter

**The End of Peasantry?** Grigory Ioffe, Tatyana Nefedova, Ilya Zaslavsky, 2006-10-19 The End of Peasantry examines the dramatic recent decline of agriculture in post Soviet Russia Historically Russian farmers have encountered difficulties relating to the sheer abundance of land the vast distances between population centers and harsh environmental conditions More recently the drastic depopulation of rural spaces decreases in sown acreage and overall inefficiency of land usage have resulted in the disruption and spatial fragmentation of the countryside For many decades rural migration has been a selective process resulting in the most enterprising and self motivated people leaving the rural periphery The new agricultural operators representing nascent but aggressive Russian agribusiness have difficulty co-opting traditional rural communities afflicted by profound social dysfunction The contrast between agriculture in proximity to large cities and in their hinterlands is as sharp as ever and some vacant niches are increasingly occupied by ethnically non Russian migrants All of these conditions existed to some degree in pre Soviet times but they have been exacerbated since Russia took steps toward a market economy Understudied and often underestimated in the West the crisis facing Russian agriculture has profound implications for the political and economic stability of Russia The authors see hope in the significant increase in land use intensity on vastly diminished farmland The lessons gathered from this thoroughly researched study are far reaching and relevant to the disciplines of Slavic and European studies agriculture political science economics and human geography

The Routledge Atlas of Central Eurasian Affairs Stanley D. Brunn, Stanley W. Toops, Richard Gilbreath, 2012 Providing concisely written entries on the most important current issues in Central Asia and Eurasia this atlas offers relevant background information on the region's place in the contemporary political and economic world Features include Profiles of the constituent countries of Central Asia namely Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan Profiles of Mongolia western China Tibet and the three Caucasus states of Armenia Azerbaijan and Georgia Timely and significant original maps and data for each entry A comprehensive glossary places index and subject index of major concepts terms and regional issues Bibliography and useful websites section Designed for use in teaching undergraduate and graduate classes and seminars in geography history economics anthropology international relations political science and the environment as well as regional courses on the Former Soviet Union Central Asia and Eurasia this atlas is also a comprehensive reference source for libraries and scholars interested in these fields

A Geography of Russia and Its Neighbors Mikhail S. Blinnikov, 2021-01-22 Authoritative yet accessible the definitive undergraduate text on Russian geography and culture has now been thoroughly revised with current data and timely topics such as the annexation of Crimea and Sevastopol and other background for understanding Russia's 2022 invasion of Ukraine Thematic chapters provide up to date coverage of Russia's physical political cultural and economic geography Regional chapters focus on the country's major regions and the other 14 former Soviet republics Written in a lucid

conversational style by a Russian born international expert the concise chapters interweave vivid descriptions of urban and rural landscapes examinations of Soviet and post Soviet life deep knowledge of environmental and conservation issues geopolitical insights engaging anecdotes and rigorous empirical data Over 200 original maps photographs and other figures are also available as PowerPoint slides at the companion website many in color New to This Edition Separate chapter on Ukraine and Crimea covering events through 2019 Timely topics the political crisis in Ukraine and annexation of Crimea and Sevastopol the return of Putin as president climate change and environmental degradation economic slowdown political shifts in the republics the role of Russian backed forces in Syria Libya and Central African Republic changes in Russia United States relations and more Thoroughly updated population economic and political data 80 new or updated figures tables and maps Pedagogical Features End of chapter review questions suggested assignments and in class exercises Within chapter vignettes about Russian places culture and history End of chapter internet resources and suggestions for further reading Companion website with all figures and maps from the book many in full color

**The Standard of Living and Revolutions in Russia, 1700-1917** Boris Nikolaevich Mironov, 2012 This is the first full scale anthropometric history of Imperial Russia 1700 1917 It mobilizes an immense volume of archival material to chart the growth weight and other anthropometric indicators of the male and female populations in order to chart how the standard of living in Russia changed over slightly more than two centuries It draws on a wide range of data statistics on agricultural production taxation prices and wages nutrition and demography to draw conclusions on the dynamics in the standard of living over this long period of time The economic social and political interpretation of these findings make it possible to reconsider the prevailing views in the historiography and to offer a new perspective on Imperial Russia

**Socialist and Post-Socialist Urbanisms** Lisa B.W. Drummond, Douglas Young, 2020-03-03 Considering the endurance of socialist spaces in contemporary political and cultural environments this book investigates key aspects of socialist urbanism

**Russian Nature** Jonathan D. Oldfield, 2017-03-02 Jonathan D Oldfield provides a detailed assessment of the changing relationship between Russian society and the wider environment since the fall of the Soviet Union Through this he highlights the need to critically evaluate assumptions regarding the post Soviet environment in order to move beyond generalization and engage meaningfully with the particularities of Russia s contemporary environmental situation The book begins by focusing on the nature of Soviet environmental legacies as a necessary backdrop to the remainder of the study This is followed by a general examination of the relationship between economic change and pollution output during the course of the 1990s Further chapters provide in depth analysis of recent legislative and policy developments in the area of environmental protection and an exploration of emerging pollution and environmental quality trends at both the national and regional level In addition the book highlights pressures that are related to Russia s engagement with the global economy

**Human Geography** Erin Hogan Fouberg, Alexander B. Murphy, Harm J. De Blij, 2015

**Small-Town Russia** Anne White, 2004-08-12 This book examines a number of key questions about social

change in contemporary Russia issues such as how people survive when they are not paid for months on end the New Poor the falling birth rate why so many Russian men die in middle age whether regional identities are becoming stronger and how people's sense of Russianness has developed since the creation of the Russian Federation in 1992 It examines these issues by looking at actual experiences in three small Russian towns It includes a great deal of original ethnographic research and by looking at real places overall provides a good sense of how different aspects of social change are interlinked and how they actually affect real people's lives

Geography Harm J. de Blij, Peter O. Muller, 2002 Physical geography is presented more consistently from chapter to chapter with major revisions to several chapters A foldout map of the world in 1900 is included so that comparisons can be made from the beginning to the end of the 20th century Website highlights approximately 13 Virtual Field Trips which provide the opportunity for readers to travel virtually to other areas of the world while also developing analytical skills

**Why Geography Matters** Harm de Blij, 2005-09 Making an urgent call to restore geography to America's educational curriculum a renowned geographer shows how and why the U S has become the world's most geographically illiterate society of consequence and explains how this illiteracy is a direct risk to America's national security

How Russia Is Not Ruled Allen C. Lynch, 2005-01-10 The state remains as important to Russia's prospects as ever This is so not only because as in any society an effectively functioning state administration is necessary to the proper functioning of a complex economy and legal system but also because in Russian circumstances factors of economic geography tend to increase costs of production compared to the rest of the world These mutually reinforcing factors include the extreme severity of the climate the immense distances to be covered the dislocation between European population centers and Siberian natural resource centers and the inevitable predominance of relatively costly land transportation over sea borne transportation As a result it is questionable whether Russia can exist as a world civilization under predominantly liberal economic circumstances in a unified liberal global capital market large scale private direct capital investment will not be directed to massive outdoor infrastructure projects typical of state investment in the Soviet period
