Russia & Eurasia Facts & Figures Annual, 1999      *The Russian Armed Forces at the Dawn of the Millennium*, 2000 This anthology is an outgrowth of a conference titled The Russian Armed Forces at the Dawn of the Millennium held at the Collins Center of the Army War College s Center for Strategic Leadership from 7 through 9 February 2000 The genesis for the conference was the realization by several members of the staff of the Collins Center and Army War College faculty that the U S led NATO operation in Kosovo resulted in a significant shift of Russian views on the United States and NATO The conference also complemented our general objective of examining the changing environment in which the United States including its armed forces finds itself The conference brought together over 50 individuals from academia and the policy and intelligence communities to examine the current state of the Russian military Focusing primarily on the socio political dimension of the military but not ignoring the military technical dimension the presentations delivered during the conference looked at Russia s domestic environment the state of the military perceived threats and Russia s capacity to generate responses to those threats DTIC web site      **Central Asia, 130 Years of Russian Dominance** Edward Allworth, 1994 For centuries Central Asia has been a leading civilization an Islamic heartland and a geographical link between West and East After a long traditional history it is now in a state of change With the breakup of the Soviet Union in 1991 five newborn Central Asian states have emerged in place of the former Soviet Central Asia and Afghanistan Central Asia provides the most comprehensive survey of the history of the impact of Russian rule upon the political economic social intellectual and cultural life of this diverse region Together these essays convey a sense of the region s community as well as the divisive policies that have affected it for so long Now in its third edition it was first published in 1967 and revised in 1989 this new edition of Central Asia has been updated to include a new preface a revised and updated bibliography and a final chapter that brings the book up to 1994 in considering the crucial problems that stem from a deprivation of sovereign indigenous leadership over the past 130 years This volume provides a broad and essential background for understanding what has led up to the late twentieth century configuration of Central Asia      *Politics of Language in the Ex-Soviet Muslim States* Jacob M. Landau, Barbara Kellner-Heinkele, 2001 A unique analysis of language policies in the central Asian states of the former Soviet Union      **Russian Policy towards China and Japan** Natasha Kuhrt, 2007-12-24 Drawing on the most up to date sources this book provides an in depth examination of Russia s relations with China and Japan the two Asia Pacific superpowers in waiting For Russia there has always been more than one Asia after the collapse of the Soviet Union there were those in the Russian elite who saw Asia as implying the economic dynamism of the Asia Pacific with Japan as the main player However there were others who saw the chance for Russia to reassert its claim to be a great power based on Russia s geopolitical and geoeconomic position as a Eurasian power For these China was the power to engage with together China and Russia could control both Heartland and Rim both Eurasia and Asia Pacific whereas accepting Japan s conception of Asia implied regional

fragmentation and shared sovereignty This book argues that this strand of thinking mainly confined to nationalists in the El tsin years has now under Putin become the dominant discourse among Russian policymakers Despite opportunities for convergence presented by energy resources even for trilateral cooperation traditional anxiety regarding loss of control over key resource areas in the Russian Far East is now used to inform regional policy leading to a new resource nationalism In light of Russia s new assertiveness in global affairs and its increasing use of the so called energy weapon in foreign policy this book will appeal not only to specialists on Russian politics and foreign policy but also to international relations scholars

*Piano Makers in Russia in the Nineteenth Century* Anne Swartz, 2014-08-01 Piano Makers in Russia in the Nineteenth Century is a richly detailed thematic study of the history of the piano in Russian society from its beginnings with the European artisans who settled in St Petersburg in the early decades of the century through the transition to Russian owned family firms The piano played a defining role in the shaping of Russia s musical culture in the nineteenth century as artisans and entrepreneurs provided the foundation for the great tradition of the Russian virtuoso in the performance and the composition of piano music It also helped bring about a transformative change in the material culture as the piano expanded its reach from the court and the nobility to include music enthusiasts from all social classes and Russian families in their homes This historical study brings to light the impact of neglected piano artisans in nineteenth century Russia and presents a fresh view of the social and economic ties between the state and the piano manufacturing artisans in an era largely defined by handcrafting and entrepreneurship It contributes significantly to current issues surrounding the role of the piano and the entrepreneur artisans in the urban centers of imperial Russia and represents an expansion of what is currently known about the piano builders who established workshops in Russia beginning in the late 1830s and 1840s well before the heyday of the virtuoso in that country Rare documents including letters memoirs gazettes exhibition catalogs music journals and administrative reports form the nucleus of this book and provide fascinating insights about state and private patronage and the class economic issues related to the affordability and prestige of the piano in Russia Issues surrounding the transformation of the music industry in Russia the role of women as patrons and performers the exportation of instruments to the Russian Far East and the complex system of tariffs and trade protection that benefited domestic piano manufacturers provide this book s thematic links Conclusions indicate that while favorable tariff laws and state imposed economic policies benefited the family owned firms in the nineteenth century they remained in effect in the decades after the nationalization of the piano industry in 1917 *Catalogue Des Publications en Série* United Nations Library (Geneva, Switzerland), 2001

*Eurasia's Regional Powers Compared - China, India, Russia* Shinichiro Tabata, 2014-12-17 Taking a long view and a wide perspective this book by Japan s leading scholars on Asia and Eurasia provides a comprehensive and systematic comparison of the three greatest powers in the region and assesses how far the recent growth trajectories of these countries are sustainable in the long run The book demonstrates the huge impact on the region of these countries It examines the

population resource and economic basis for the countries rise considers political social and cultural factors and sets recent developments in a long historical context Throughout the different development paths of the three countries are compared and contrasted and the new models for the future of the world order which they represent are analysed *Energy Security in Asia and Eurasia* Mike M. Mochizuki, Deepa M. Ollapally, 2016-12-01 Many states appear to have strong sentiment on energy security and energy transit vulnerability Some analysts see the rapidly increasing demand for energy and competition for energy resources leading to nationalistic energy policies Others argue that global trends with efficient energy markets and growing options on renewables suggest more relaxed energy outlooks This book focuses on Asia where global demand for energy is now concentrated in the aspiring and rising powers of the region China India Japan and South Korea and also recognises the importance of Russia as a growing energy supplier Contributions by experts in the field provide detailed and parallel case studies Shedding light on the ongoing debate in the literature regarding energy outlooks of major Asian states they analyse whether energy policies are expected to evolve along market oriented cooperative lines or more competitive and even destructive mercantile nationalist lines The book argues that states are not unitary actors even in the key energy security arena and there are competing and contrasting viewpoints in Asian states on energy security It suggests that domestic debates structure thinking on energy security making energy policy more contingent than assumed by purely market or geopolitical logics Providing a strong contribution to comparative energy security studies the book fills an important gap in the literature on energy and national security and offers a basis for conducting further inter state interactive analysis It will be of interest to researchers on Asian Studies energy politics and international relations

Fecko-Curtis, 1998 Imperial Ends Alexander J. Motyl, 2001-08-01 Despite their historical importance empires have received scant attention from social scientists Now Alexander J Motyl examines the structure dynamics and continuing relevance of empire and asks Why do empires decline Why do some empires collapse And why do some collapsed empires revive Rejecting choice centered theories of imperial decline Motyl maintains that the very structure of empires promotes decay and that decay in turn facilitates the progressive loss of territory Although most major empires have in fact declined in this manner some such as the Soviet Union have collapsed suddenly and comprehensively Motyl explains how and why

collapse occurs why such an outcome is hard to foresee and why some collapsed empires revive While broad ranging historically and empirically Imperial Ends focuses on five modern empires the Soviet Romanov Ottoman Habsburg and Wilhelmine Examining the possibility of a revival of the Soviet empire Motyl points out that the expansion of NATO and the European Union along with increasing globalization will isolate Russia and its neighbors promoting their dependence upon one another and perhaps facilitating the rise of the former core With boldly stated conclusions and concise analytical interpretations Imperial Ends cohesively illustrates to policymakers and social scientists alike the importance of possible imperial revivals and the rise of future empires
