Los Otros Columbus And The Three Who Made His Enterprise Of The:

Columbus and His First Voyage James E. Wadsworth, 2016-10-06 What happened on Columbus's first voyage across the Atlantic Who was responsible for the success of that voyage How do we know These questions were debated in the courts of Spain for decades after 1492 Some of those who sailed with Columbus left very different accounts as recorded in those trial records Their competing voices have long been silenced by the deafening crescendo of Columbus's own narrative a narrative riddled with contradictions and inconsistencies that beg to be explained This documentary history allows the reader to encounter the founding documents of the Columbus story as well as the voices that dared to challenge it even in his own day What these documents reveal forces us to re-imagine Columbus and his voyage in surprising ways Columbus and His First Voyage brings together for the first time the two contemporary versions of what happened on the first voyage the Columbian narrative and the Pinzón narrative and embeds them in a thorough introduction to Columbus his first voyage and the myths that surround this pivotal event in the history of the modern world

Los Otros John Frye, 1992 This is an account of three men without whose influence and resources Columbus's enterprise of the Indies would not have occurred Martin Alonso Pinzón was a shipowner navigator His young brother Vicente Yañez was also a navigator Juan de la Cosa was owner of the merchantman Marigalante to be chartered and renamed by Columbus the Santa Maria The three of them had adventures together or separately poaching in Portuguese preserves of Atlantic Africa as far south as Guinea These are their stories

Dogs of God James Reston, Jr., 2006-10-10 From the acclaimed author of Warriors of God comes a riveting account of the pivotal events of 1492 when towering political ambitions horrific religious excesses and a drive toward international conquest changed the world forever James Reston Jr brings to life the epic story of Spain's effort to consolidate its own burgeoning power by throwing off the yoke of the Vatican By waging war on the remaining Moors in Granada and unleashing the Inquisitor Torquemada on Spain's Jewish and converso population King Ferdinand and Queen Isabella attained enough power and wealth to fund Columbus's expedition to America and to chart a Spanish destiny separate from that of Italy With rich characterizations of the central players this engrossing narrative captures all the political and religious ferment of this crucial moment on the eve of the discovery of the New World

Columbus Laurence Bergreen, 2012-09-25 He knew nothing of celestial navigation or of the existence of the Pacific Ocean He was a self-promoting and ambitious entrepreneur His maps were a hybrid of fantasy and delusion When he did make land he enslaved the populace he found encouraged genocide and polluted relations between peoples He ended his career in near lunacy But Columbus had one asset that made all the difference an inborn sense of the sea of wind and weather and of selecting the optimal course to get from A to B Laurence Bergreen's energetic and bracing book gives the whole Columbus and most importantly the whole of his career not just the highlight of 1492 Columbus undertook three more voyages between 1494 and 1504 each designed to demonstrate that he could sail to China within a matter of weeks and convert those he found there to Christianity By their

conclusion Columbus was broken in body and spirit a hero undone by the tragic flaw of pride If the first voyage illustrates the rewards of exploration this book shows how the subsequent voyages illustrate the costs political moral and economic

A New World of Animals Miguel de Asúa,Roger French,2017-03-02 Many Early Modern Europeans who during the sixteenth and seventeenth centuries travelled to the New World left written or pictorial records of their encounters with a surprising fauna The story told in this book is woven out of the threads of those texts and pictures A New World of Animals shows how the initial wonder at the new beasts gave way to a more utilitarian approach assessing their economic and medical potential It elucidates how shifts in European perceptions brought the animals from the realm of the fantastic into the mainstream of early modern natural history while at the same time changing the way in which Europeans saw their own world Indeed the chronicles and treatises of those who in the wake of the discovery arrived in the new lands tell as much about the particular interests and mental worlds of the writers as about the new animals This book traces the amazement of the first explorers and colonizers the chronicles of soldiers and Indians the natural histories of the New World the place of animals in the network of economic interests driving the early expansion of Europe the views of the missionaries and those of natural philosophers and physicians Taking the reader from the Brazilian forests to the erudite cabinets of the Old World from Patagonia to the centres of empire the story of the discovery of the unexpected menagerie of the New World is also an exploration of Early Modern European imagination and learning

South America Hollis Micheal Tarver Denova,Carlos E. Márquez Petit,2025 This two volume encyclopedia provides entries on the key peoples events industries and landmarks essential to the history of South American countries from European contact to their independence
