alphabetized according to the Latin or English term it cannot be consulted for Hebrew terms The Historical Dictionary of the Hebrew Language which is currently being created by the Academy of the Hebrew Language has not been taken into account consistently as it is not a dictionary in the proper sense of the word Moreover consultation of this resource suggests that it is generally deficient in medieval medical terminology The Bar Ilan Responsa Project has also been excluded as a source despite the fact that it contains a larger number of medieval medical terms than the Historical Dictionary The present dictionary has two major objectives 1 to map the medical terminology featured in medieval Hebrew medical works in order to facilitate study of medical terms especially those terms that do not appear in the existing dictionaries and terms that are inadequately represented 2 to identify the medical terminology used by specific authors and translators to enable the identification of anonymous medical material *Dorland's Illustrated Medical Dictionary, Including Modern Drugs and Dosage* William Alexander Newman Dorland, 1957 **Stephani Blancardi Lexicon Medicum**
