and 20th Century experiments To say that there are other black budget projects involving Tesla based research would vastly underestimate the total amount of research and development being conducted right now by many countries worldwide And these are the projects that we know about Who knows how many deep dark secret projects are being conducted right now with science that could be decades even hundreds of years beyond what civilian science knows about today This work exposes such topics as Reverse Gravity Free Energy Contact With Hidden Dimensions Mysterious Radio Signals From Space Earth Changes Freak Weather Patterns Electric Death Rays UFOs Particle Beam Weapons and much much more
