Lost Universe

James O'Ehley, Erin Willard

Lost Universe:

The Lost Universe Gene Weltfish, 1977-01-01 A fascinating insight into the life and culture of the Pawnee people is achieved here by the author's presentation of carefully gathered information in the form of a narrative of one year in Pawnee village. The first few chapters lay the groundwork of kinship lines followed by a narration of the life of one person in the village. Customs, ceremonies, beliefs, and hard work become apparent as the author leads one through the intricacies of the activities. Although it presents a great deal of detailed anthropological material, the manner of presentation turns the book into a readable account. The book is based on years of first hand study as well as scholarly research and is recommended as an in depth study of Plains Indian life. Reprint Bulletin Book Reviews. Gene Weltfish is coauthor with Ruth Benedict of *The Races of Mankind*. She is also the author of *The Origins of Art* and other books.

The Universal Vampire Barbara Brodman, James E. Doan, 2013-03-08 Since the publication of John Polidori's *The Vampyre* 1819, the vampire has been a mainstay of Western culture, appearing consistently in literature, art, music, notably opera, film, television, graphic novels, and popular culture in general. Even before its entrance into the realm of arts and letters in the early nineteenth century, the vampire was a feared creature of Eastern European folklore and legend, rising from the grave at

night to consume its living loved ones and neighbors often converting them at the same time into fellow vampires A major question exists within vampire scholarship to what extent is this creature a product of European cultural forms or is the vampire indeed a universal perhaps even archetypal figure In this collection of sixteen original essays the contributors shed light on this question One essay traces the origins of the legend to the early medieval Norse draugr an undead creature who reflects the underpinnings of Dracula the latter first appearing as a vampire in Anglo Irish Bram Stoker's 1897 novel Dracula In addition to these investigations of the Western mythic literary and historic traditions other essays in this volume move outside Europe to explore vampire figures in Native American and Mesoamerican myth and ritual as well as the existence of similar vampiric traditions in Japanese Russian and Latin American art theatre literature film and other cultural productions The female vampire looms large beginning with the Sumerian goddess Lilith including the nineteenth century Carmilla and moving to vampiresses in twentieth century film literature and television series Scientific explanations for vampires and werewolves constitute another section of the book including eighteenth century accounts of unearthing decapitation and cremation of suspected vampires in Eastern Europe The vampire's beauty attainment of immortality and eternal youth are all suggested as reasons for its continued success in contemporary popular culture **Elric: The Balance Lost Volume 2**

Chris Roberson, 2025-09-09 The concluding chapter of the Elric The Balance Lost saga Eternal Champions Elric Corum and Dorian Hawkmoon unite with newcomer Eric Beck in a climactic battle to save the Great Balance at the center of the Multiverse The true architects behind the war between Law and Chaos have been revealed and nothing could have prepared the Eternal Champions for the shocking truth Now they must battle against the combined might of Eric Beck's twin brother the sinister Garrison Bow and the immortal masterminds behind the Cosmic Wars for the fate of the balance itself Written by New York Times bestseller Chris Roberson and drawn by fan favorite Italian artist Francesco Biagini There is about these stories a quality of opiate dreaming Walter Simonson Thor Fantastic Four Detective Comics Unforgettable action and intrigue a must read for any fans of science fiction or sword and sorcery epics Comics Bulletin Storyworlds Across Media

Marie-Laure Ryan, Jan-Noël Thon, 2014-07-01 The proliferation of media and their ever increasing role in our daily life has produced a strong sense that understanding media everything from oral storytelling literary narrative newspapers and comics to radio film TV and video games is key to understanding the dynamics of culture and society Storyworlds across Media explores how media old and new give birth to various types of storyworlds and provide different ways of experiencing them inviting readers to join an ongoing theoretical conversation focused on the question how can narratology achieve media consciousness The first part of the volume critically assesses the cross and transmedial validity of narratological concepts such as storyworld narrator representation of subjectivity and fictionality The second part deals with issues of multimodality and intermediality across media The third part explores the relation between media convergence and transmedial storyworlds examining emergent forms of storytelling based on multiple media platforms Taken together these essays build
