## **New Guinea A Novel Of War At Sea:**

Naval Warfare 1919-45 Malcolm H. Murfett, 2008-11-04 Naval Warfare 1919 45 is a comprehensive history of the war at sea from the end of the Great War to the end of World War Two Showing the bewildering nature and complexity of the war facing those charged with fighting it around the world this book ranges far and wide sweeping across all naval theatres and those powers performing major as well as minor roles within them Armed with the latest material from an extensive set of sources Malcolm H Murfett has written an absorbing as well as a comprehensive reference work He demonstrates that superior equipment and the best intelligence ominous power and systematic planning vast finance and suitable training are often simply not enough in themselves to guarantee the successful outcome of a particular encounter at sea Sometimes the narrow difference between victory and defeat hinges on those infinite variables the individual s performance under acute pressure and sheer luck Naval Warfare 1919 45 is an analytical and interpretive study which is an accessible and fascinating read both for students and for interested members of the general public *New Guinea 1942-43* Mark Stille, John Rogers, 2025-09-25 Lavishly illustrated this book studies the role of airpower in the New Guinea battles of 1942 43 as the Allies checked and halted Japan s last significant offensives Mark Stille and John Rogers offer a new history of a previously neglected part of the South Pacific air war the battles over New Guinea and the waters around it The first of two books on the subject drawing on Japanese American and Australian sources it details operations from February 1942 until April 1943 which saw the Allies stop the last Japanese efforts to expand their faltering empire Allied air operations focused on denying the Japanese the use of the sea to send reinforcements to New Guinea during the battles for Buna and Gona the unsuccessful and little known Japanese invasion at Milne Bay and the Battle of the Bismarck Sea in which a major Japanese effort to move troops to New Guinea was crushed by air power While the Japanese had over extended and lost operational focus the Allies were successful in interdicting sea movement of Japanese forces to New Guinea However immature tactics meant air power was largely ineffective supporting their ground campaign Packed with photos superb original battlescenes 3D diagrams and maps this book explains the roles of Japanese and Allied air power in the crucial battle of New Guinea **Forgotten Island** John J. Domagalski, 2024-07-16 The opening days of World War II in the Pacific found the island of Guam in the Mariana Islands to be an isolated American possession that was nearly surrounded by Japanese territory The island came under immediate attack with the start of hostilities The small garrison of marines navy personnel and Guamanians surrendered to Japanese invaders after offering only token resistance However not all of the American servicemen capitulated Navy radioman George Ray Tweed was one of six sailors who disappeared into the thick interior jungle The Japanese occupiers quickly solidified control over the island and began a ruthless search for the missing sailors Five of the Americans were eventually found and mercilessly killed The sole survivor Tweed spent the next thirty one months on the run sometimes literally running for his life staying just one step ahead of his hunters He continually eluded his pursuers through the use of

his survival skills some good luck and the generous help of Guamanian civilians often at great risk to their own safety During the two and a half years the sailor remained in hiding American forces were fighting their way across the Pacific The events reached a crescendo in the summer of 1944 with the arrival of the American fleet in Guam A major naval battle an amphibious invasion the rescue of George Tweed and a brutal fight to liberate Guam all combine to bring this epic story to a close
