McDaniel,2024-05-23 Servanthood of Song is a history of American church music from the colonial era to the present Its focus is on the institutional and societal pressures that have shaped church song and have led us directly to where we are today The gulf which separates advocates of traditional and contemporary worship Black and White Protestant and Catholic is not new History repeatedly shows us that ministry to be effective must meet the needs of the entire worshipping community not just one segment age group or class Servanthood of Song provides a historical context for trends in contemporary worship in the United States and suggests that the current polemical divisions between advocates of contemporary and traditional classically oriented church music are both unnecessary and

counterproductive It also draws from history to show that to be the powerful component of worship it can be music whatever the genre must be viewed as a ministry with training appropriate to that Servanthood of Song provides a critical resource for anyone considering a career in either musical or pastoral ministries in the American church as well as all who care passionately about vital and authentic worship for the church of today Making Friends in Music Land Lota May Harrigan Spell,1925 Book Review Digest ,1927 *The New Music Review and Church Music Review* ,1913 The Musical Monitor ,1914 The New College Encyclopedia of Music Jack Allan Westrup,1960 Music and Music-makers Constance Morse,1926 **The German Symphony between Beethoven and Brahms** Christopher Fifield,2016-03-03 It was Carl Dahlhaus who coined the phrase dead time to describe the state of the symphony between Schumann and Brahms Christopher Fifield argues that many of the symphonies dismissed by Dahlhaus made worthy contributions to the genre He traces the root of the problem further back to Beethoven s ninth symphony a work which then proceeded to intimidate symphonists who followed in its composer s footsteps including Schubert Mendelssohn and Schumann In 1824 Beethoven set a standard that then had to rise in response to more demanding expectations from both audiences and the musical press Christopher Fifield who has a conductor s intimacy with the repertory looks in turn at the five decades between the mid 1820s and mid 1870s He deals only with non programmatic works leaving the programme symphony to travel its own route to the symphonic poem Composers who lead to Brahms himself a reluctant symphonist until the age of 43 in 1876 are frequently dismissed as epigones of Beethoven Mendelssohn and Schumann but by investigating their symphonies Fifield reveals their respective brands of originality even their own possible influence upon Brahms himself and in so doing shines a light into a half century of neglected nineteenth century German symphonic music
