Pacific Affairs Volume 46 No 1:

Pacific Affairs, 1968 Includes book reviews and bibliographies *Weak States, Vulnerable Governments, and Regional Cooperation* Atena Ștefania Feraru, 2021-10-31 War famine poverty organized crime environmental catastrophes refugees epidemics and pandemics modern slavery all these affect people in the non Western world to an increasingly disproportionate extent It is also where wealthy governments wield economic leverage and military force to renegotiate existing norms of international relations Under these circumstances it is difficult to overestimate the importance and urgency of comprehending the mechanisms and motivations driving these phenomena This book is the outcome of a decade long effort to advance both theoretical and empirical understanding of what motivates non Western governments decisions to cooperate not cooperate regionally It starts by acknowledging the Western centrism of prevailing international relations theories abandoning deeply entrenched assumptions regarding the nature and roles of states and redefining state weakness The inquiry continues by elaborating this new concept and applying it to Southeast Asian polities while positing that it creates governments vulnerable to internal and external threats in line with Joel S Migdal s well known findings on the topic A set of regional cooperation strategies is then inferred based on the survival needs of insecure governing elites and its empirical validity is tested against the experience of regional organizations in Africa Asia and the Americas The second part of the book provides an in depth examination of how Southeast Asian governments shared security needs and interests shaped the emergence of the identified regional cooperation pattern and its evolution over 50 years of cooperation within the Association of Southeast Asian Nations ASEAN Overall this book is a call to international relations scholars to do our part in understanding non Western experiences and making a substantive contribution to addressing humanity s most intractable security threats **Kyrgyzstan and the Legacies of Collectivisation** Christopher McDowell, 2023-10-24 This book argues that the early twentieth century Soviet Russian occupation and rule of the Central Asian territory that became Kyrgyzstan was made possible by collectivisation and forcible population displacement The rural transformation brought about by the seizure of private and community owned assets the ending of pastoralism as a livelihood system and the corralling of people on to collective and state farms were pivotal strategies of colonisation Evictions involuntary resettlement and immigration reconfigured the population and enabled largely non Kyrgyz rule As the book describes the dramatic changes wrought by Sovietisation required force and coercion which were met with resistance and non compliance More than three decades after the collapse of the Soviet Union independent Kyrgyzstan continues to struggle with the legacies of Soviet rule The book explores how the dismantling of collectivisation and the command economy failed to resist the rise of authoritarian populist and nationalist politics combined with economic stagnation and ethnic conflict *Shōwa Japan: 1926-1941* Stephen S. Large, 1998 **Triangles, Symbols, and Constraints** Charles M. Dobbs, 2010 In his five plus years as president of the United States Lyndon Johnson witnessed dramatic power struggles within and between the Soviet Union the People s

Republic of China and the United States of America New Soviet leaders were determined to build Soviet power and extend Soviet influence Mao's revolutionary ideology so dominated China that there were few levers to move Sino American relations ahead Johnson wanted to ease Cold War tensions by reaching a range of agreements with the Soviet Union on nuclear weapons and establishing relations with the People's Republic of China in order to end its isolation in the world community However multiple events frustrated Johnson's good intentions The Soviet leadership that overthrew Nikita Khrushchev was committed to expanding its military might before negotiating with Washington it also began focusing more and more on the worsening Sino Soviet split Mao Zedong entered into the Great Proletarian Cultural Revolution and China seemed to devour itself Meanwhile the Vietnam War made negotiations among all three great powers more difficult limiting room to maneuver But Johnson persevered and by 1968 the apparent American retreat symbolized by the North Korean seizure of the USS Pueblo and the Communist Tet Offensive in Vietnam along with the Soviet invasion of Czechoslovakia seemed to change the construct between the great powers Beijing emerging from the worst of the Cultural Revolution increasingly feared Soviet intentions and Moscow wanted to prevent a Sino American rapprochement Although Johnson did not achieve his lofty goals he created the pre conditions that Richard Nixon later harvested for the détente with Moscow and rapprochement with Beijing Johnson's best intentions fell prey to triangles symbols and constraints

Indonesia and China Rizal Sukma, 2003-09-02 Indonesia broke off relations with China in 1967 and resumed them only in 1990 Rizal Sukma asks why His answers shed light on Indonesia's foreign policy the nature of the New Order's domestic politics the mixed functions of diplomatic ties the legitimacy of the new regime and the role of President Suharto Rizal Sukma argues that the matter of Indonesia restoring diplomatic ties with China is best understood in terms of the efforts made by the military based New Order government to sustain its political legitimacy The analysis in this book proves that an absence as well as a presence of diplomatic relations may advance not only the external but the domestic interests of an incumbent government This is the first major study on Indonesia and China's diplomatic relations under the New Order government It will be illuminating for research students and lecturers in international politics international relations policy making and

diplomacy A Theory of Disfunctionality: The European Micro-states as Disfunctional States in the International System
Archie W. Simpson, 2021-06-01 A Theory of Disfunctionality The European Micro states as Disfunctional States in the International System explains the continuing survival of European micro states as members of the international system Micro states are small sovereign states with populations of 1 million or less of which there are 10 in Europe The existence of micro states raises a number of questions about the nature of statehood the recognition of sovereignty and the ability of such states to maintain a presence in international politics This book establishes the theory of disfunctionality in which a functional account of statehood is proposed It is argued that the state has six functions but the micro states are so small that they contract out some state functions to others in the international system By doing this the micro states ensure their continuing survival in international politics The book which focuses on two case studies Monaco and Luxembourg will be of particular interest to those involved in small state studies including scholars students practitioners and policy makers as well as those researching International Relations and state theory *Russia as an Aspiring Great Power in East Asia* P.
