Ronald Reagan James H. Broussard,2014-08-27 Few politicians in recent American history are as well known as Ronald Reagan the 40th U S president An iconic leader Reagan shifted the direction of American politics toward a newly vigorous conservatism Though he began his career as a New Deal liberal by the end of the 1950s Reagan had embraced conservative views His presidency saw the longest peacetime prosperity in American history as well as the fall of the Berlin Wall and the end of the Cold War but also skyrocketing deficits and the Iran Contra scandal In the twenty first century Reagan s legacy is both pervasive and contested with supporters and detractors often divided along partisan lines Yet Reagan s own actions did not always fit into partisan boxes In a clear eyed and insightful narrative James H Broussard cuts through the mythology of both sides to produce a nuanced portrait of Reagan in his historical context Supported by primary sources and a robust companion website this

Cooper,2012-10-10 A new exploration of the relationship between the Margaret Thatcher and Ronald Reagan administrations in domestic policy Using recently released documentary material and extensive research interviews James Cooper demonstrates how specific policy transfer between these political soul mates was more limited than is typically assumed

Ronald Reagan John P. Diggins,2007-02-06 This is a revealing portrait of great character a book that reveals the 40th president to be an exemplar of the truest conservative values and one of the America's greatest presidents 13 photographs **A Companion to Ronald Reagan** Andrew L. Johns,2015-02-10 A Companion to Ronald Reagan evaluates in unprecedented detail the events policies politics and people of Reagan's administration It assesses the scope and influence of his various careers within the context of the times providing wide ranging coverage of his administration and his legacy Assesses Reagan and his impact on the development of the United States based on new documentary evidence and engagement with the most recent secondary literature Offers a mix of historiographic chapters devoted to foreign and domestic policy with topics integrated thematically and chronologically Includes a section on key figures associated politically and personally with Reagan Planet Neptune and the Modern Us Presidents: Franklin Roosevelt to Barack Obama Suzanne Angioli,2016-04-05 While studying the astrological birth charts of all the US presidents I discovered that those of the thirteen modern US presidents from Franklin Roosevelt to Barack Obama all had the natal Sun the planet most associated with one's basic identity making an aspect certain designated degrees between two planets to their natal Neptune This was surprising since I would have thought that politicians particularly those aspiring to the presidency would have an overwhelming emphasis on the Sun Mars aspect but not on the Sun Neptune aspect What I discovered in my research was that good politicians are not warriors Sun Mars per se who use the techniques of warfare to muscle their way through adversity Rather they are good actors Sun Neptune who are essentially chameleons Sun Neptune operating in the foggy Neptune realm of subtlety Neptune and seduction using their sensitivity Neptune and charm Neptune to serve their intuitive Neptune sides to try to achieve their goals It became apparent that a good politician is excellent at assuming different roles in order to fit a given political situation and move his agenda forward The Sun in aspect to Neptune is not unusual but there is no aggregate population that has 100 percent of its members with this aspect like the modern presidents I was intrigued

with this occurrence and thus set out to research their individual biographies to see just how this aspect played out in their lives After all it seemed to be almost a prerequisite for being elected to the modern Oval Office
