G. Jung, 2014-12-18 For this second edition of Civilization in Transition essential corrections have been made in the text and the bibliographical references have been brought up to date This volume contains essays bearing on the contemporary scene and in particular on the relation of the individual to society In the earliest one 1918 Jung advanced the theory that the European conflict was basically a psychological crisis originating in the collective unconscious of individuals He pursued this theory in papers written during the 20s and 30s focusing on the upheaval in Germany and he gave it a much wider application in two major works of his last years DDL The Undiscovered Self concerned with the relation between the individual and a mass society and Flying Saucers on the birth of a myth which Jung regarded as compensating the scientific trends of our technological era An appendix contains documents relating to Jung s association with the International General Medical Society for Psychotherapy *The Roots of Jewish Consciousness, Volume One* Erich Neumann, 2019-04-24 The Roots of Jewish Consciousness Volume One Revelation and Apocalypse is the first volume fully annotated of a major previously unpublished two part work by Erich Neumann 1905 1960 It was written between 1934 and 1940 after Neumann then a young philosopher and physician and freshly trained as a disciple of Jung fled Berlin to settle in Tel Aviv He finished the second volume of this work at the end of World War II Although he never published either volume he kept them the rest of his life The challenge of Jewish survival frames Neumann s work existentially This survival he insists must be psychological

and spiritual as much as physical In Volume One Revelation and Apocalypse he argues that modern Jews must relearn what ancient Jews once understood but lost during the Babylonian Exile that is the individual capacity to meet the sacred directly to receive revelation and to prophesy Neumann interprets scriptural and intertestamental apocalyptic literature through the lens of Jung's teaching and his reliance on the work of Jung is supplemented with references to Buber Rosenzweig and Auerbach Including a foreword by Nancy Swift Furlotti and editorial introduction by Ann Conrad Lammers readers of this volume can hold for the first time the unpublished work of Neumann with useful annotations and insights throughout These volumes anticipate Neumann's later works including Depth Psychology and a New Ethic The Origins and History of Consciousness and The Great Mother His signature contribution to analytical psychology the concept of the ego Self axis arises indirectly in Volume One folded into Neumann's theme of the tension between earth and YHWH This unique work will appeal to Jungian analysts and psychotherapists in training and in practice historians of psychology Jewish scholars biblical historians teachers of comparative religion as well as academics and students *Collected Works of C.
