its north east fanning into Burma and China or modern India's north east and beyond is the focus of Pelagic Passageways. This regional unit including diverse topographic features plains forests estuaries deltas rivers mountains lakes plateaus and remote passes oscillates between unity and fragmentation between centrality and marginality in the larger space of the Bay of Bengal. To attempt a history of this space is indeed challenging. There is not one but two deltas here the western delta corresponding to present West Bengal in India and centred now on Kolkata and the south eastern delta in present Bangladesh centred on Dhaka and running into Arakan. Not merely in terms of location but on a historical axis too the two deltas are vastly different as they have followed disparate trajectories dictated in part by their geographies. Pelagic Passageways therefore questions the conventional fault line located on the south eastern Bengal delta between the historiography of South and South East Asia. Concentrating on commodity and currency flows travel trade routes and interactive networks Pelagic Passageways visualizes the cultural space of the northern Bay of Bengal as embracing upland landlocked areas Ava Yunnan the Tripuri Dimas and Ahom states not usually seen as part of maritime history. This collection of essays suggests that they too were a part of the social and commercial networks of the Indian Ocean. While these countries literally fell off the map this volume proposes that we see these areas instead as crossroads mediating flows between the land dwelling and aquatic worlds.

Empire of Poverty Julia McClure, 2024-11-11. Empire of Poverty examines how changing concepts of poverty in the long sixteenth century helped shape the deep structures of states and empires and the contours of imperial inequalities. While poverty is often understood to have become a political subject with the birth of political economy in the eighteenth century this book points to the longer history of poverty as a political subject and a more complicated relationship between moral and political economies. It focuses upon the critical transformations taking place in the long sixteenth century with the emergence of the world's first global empire and the development of colonial capitalism. The book explores how the moral political economy of poverty defined as a new and changing conceptualisation of and approach to poverty across laws institutions and acts of resistance played a critical role in the development and governance of the Spanish Empire. In so doing it offers insights into the negotiated nature of sovereignty the construction of inequalities and strategies of resistance. Empire of Poverty explains how the combined processes of the transition to global capitalism and imperialism in the long sixteenth century wrought a moral crisis which led to the transformation of poverty and reconceptualization of the poor and how the newly emerging beliefs laws and institutions of poverty helped structure the inequalities of the new global order.

The Book of Heaven Patricia Storace, 2014-02-18 From the author of the classic travel memoir *Dinner with Persephone* an accomplished poet and frequent contributor to *The New York Review of Books* here is an eagerly anticipated stunningly original novel of heartrending lyricism about four women a fierce mythopoeia that invites us to enter into a new and powerful imagination of the sublime What if a woman's point of view were God's As *The Book of Heaven* commences Eve speaks about what is alleged to have happened in the Garden of Eden a story she hardly recognizes She tells her version of events revealing that the constellations we are accustomed to seeing above conceal heavens with which we have yet to contend In the four parts of the novel *The Book of Souraya* *The Book of Savour* *The Book of Rain* *The Book of Sheba* and their accompanying proverbs Eve accounts for four new zodiacs and teaches us how to view each and comprehend its centrality to women a knife a cauldron for cooking a paradisiacal garden lovers embracing Each book keenly evokes the life of a woman newly freed from the old tales in which she was trapped a metamorphosis of Sarah Abraham's wife a polytheistic cook Job's wife and the Queen of Sheba In *The Book of Heaven* Patricia Storace has brilliantly and radically reimagined the worlds of these women putting them in the foreground of their stories and of the so called Old Testament itself
