Lost Voices of the Battle of Britain Max Arthur, 2025-02-13 Never has so much been owed by so many to so few This is the story of those few in their own words In the summer of 1940 the British frontlines were the skies above southern England Spitfires and Hurricanes took on the might of the Luftwaffe and its feared Messerschmitt fighters dogfighting high above civilians watching on in awe Hitler was determined to invade Britain and close down the Western Front for good But his plan Operation Sea Lion could not begin while the RAF could still harry an invasion fleet It had to be broken Up to five times a day the pilots of RAF Fighter Command scrambled to meet the inbound Luftwaffe At one point every available British fighter plane was airborne Britain threw literally everything into the fight and was tested to the very limits Against all odds The Few as they came to be known bought Britain's freedom many with their lives These are the personal accounts of the pilots who fought and survived that battle We will not see their like again

The Lost Battles Jonathan Jones, 2012-10-23 From one of Britain's most respected and acclaimed art historians art critic of *The Guardian* the galvanizing story of a sixteenth century clash of titans the two greatest minds of the Renaissance working side by side in the same room in a fierce competition the master Leonardo da Vinci commissioned by the Florentine Republic to paint a narrative fresco depicting a famous military victory on a wall of the newly built Great Council Hall in the Palazzo Vecchio and his implacable young rival the thirty year old Michelangelo We see Leonardo having just completed *The Last Supper* and being celebrated by all of Florence for his miraculous portrait of the wife of a textile manufacturer That painting the *Mona Lisa* being called the most lifelike anyone had ever seen yet more divine than human was captivating the entire Florentine Republic And Michelangelo completing a commissioned statue of David the first colossus of the Renaissance the archetype hero for the Republic epitomizing the triumph of the weak over the strong helping to reshape the public identity of the city of Florence and conquer its heart In *The Lost Battles* published in England to great acclaim Superb *The Observer* Beguilingly written *The Guardian* Jonathan Jones brilliantly sets the scene of the time the politics the world of art and artisans and the shifting agitated cultural landscape We see Florence a city freed from the oppressive reach of the Medicis lurching from one crisis to another trying to protect its liberty in an Italy descending into chaos with the new head of the Republic in search of a metaphor that will make clear the glory that is Florence and seeing in the commissioned paintings the expression of his vision Jones reconstructs the paintings that Leonardo and Michelangelo undertook Leonardo's *Battle of Anghiari* a nightmare seen in the eyes of the warrior it became the first modern depiction of the disenchantment of war and Michelangelo's *Battle of Cascina* a call to arms and the first great transfiguration of the erotic into art Jones writes about the competition how it unfolded and became the defining moment in the transformation of craftsman to artist why the Florentine government began to fall out of love with one artist in favor of the other and how and why in a competition that had no formal prize to clearly resolve the outcome the battle became one for the hearts and minds of the Florentine Republic with Michelangelo setting out to prove that his work not Leonardo's embodied the future of art Finally we see how the result of the competition went on to shape a generation of narrative paintings beginning with those of Raphael A riveting exploration into one of history's most resonant exchanges of ideas a rich fascinating book that gives us a whole new understanding of an

age and those at its center **A lost battle [by A. Price].** Alice Price,1878 A Merciless Place: The Lost Story of Britain's Convict Disaster in Africa Emma Christopher,2011-08-11 This is a story lost to history for over two hundred years a dirty secret of failure fatal misjudgement and desperate measures which the British Empire chose to forget almost as soon as it was over In the wake of its most crushing defeat the America War of Independence the British Government began shipping its criminals to West Africa Some were transported aboard ships going to pick up their other human cargo African slaves When they arrived at their destination soldiers and even convicts were forced to work in the region s slave trading forts guarding the human merchandise In a few short years the scheme brought death wholesale desertions mutiny piracy and even murder Some of the most egregious crimes were not committed by the exported criminals but by those sent out to guard them Acts of wanton desperation added to rash transgressions as those whom society had already thrown out realised that they had nothing left to lose As jail and prison hulks overflowed and as every other alternative settlement proved unsuitable the British Government gambled and decided to send its criminals as far away as possible to the great south land sighted years before by Captain James Cook Out of the embers of the African debacle came the modern nation of Australia The extraordinary tale is now being told for the first time how a small band of good for nothing members of the British Empire spanned the world from America to Africa and on to Australia profoundly if utterly unwittingly changing history
