Lost Chance In China The World War Ii Despatches Of John S Service

Carolle J. Carter

Lost Chance In China The World War II Despatches Of John S Service:

Lost Chance in China John Stewart Service, 1974 Note on sources p xxv xxvi The China Mission Daniel Kurtz-Phelan, 2018-04-10 An Economist Best Book of 2018 New York Times Book Review Editor's Pick Gripping and splendid An enormous contribution to our understanding of Marshall Washington Post At the end of World War II General George Marshall took on what he thought was a final mission this time not to win a war but to stop one In China conflict between Communists and Nationalists threatened to suck in the United States and escalate into revolution Marshall's charge was to cross the Pacific broker a peace and prevent a Communist takeover all while staving off World War III At first the results seemed miraculous But as they started to come apart Marshall was faced with a wrenching choice one that would alter the course of the Cold War define the US China relationship and spark one of the darkest ever turns in American political life The China Mission offers a gripping close up view of the central figures of the time from Marshall Mao and Chiang Kai shek to Eisenhower Truman and MacArthur as they stood face to face and struggled to make history with consequences and lessons that echo today Selections from Joseph Esherick, Ed., Lost Chance in China John Stewart Service, Joseph Esherick, Brett Sheehan, 2002 **America's Cultural Experiment in China, 1942-1949** Wilma Fairbank, 1976 *The Nationalist Era in China, 1927-1949* Lloyd E. Eastman, 1991-08-30 In recent years historians of China have focused increased attention on the critical decades of National rule on the mainland This recent scholarship has substantially modified our understanding of the political events of this momentous period shedding light on the character of Nationalist rule and on the sources of the Communist victory in 1949 Yet no existing textbook on modern China presents the events of the period according to these new findings The five essays in this volume were written by leading authorities on the period and they synthesize the new research Drawn from Volume 13 of The Cambridge History of China they represent the most complete and stimulating political history of the period available in the literature The essays selected deal with Nationalist rule during the Nanking decade the Communist movement from 1927 to 1937 Nationalist rule during the Sino Japanese War the Communist movement during the Sino Japanese war and the Kuomintang Communist struggle from 1945 to 1949 The Soviet Union and Communist China 1945-1950: The Arduous Road to the Alliance Dieter Heinzig, 2015-06-18 Drawing on a wealth of new sources this work documents the evolving relationship between Moscow and Peking in the twentieth century Using newly available Russian and Chinese archival documents memoirs written in the 1980s and 1990s and interviews with high ranking Soviet and Chinese eyewitnesses the book provides the basis for a new interpretation of this relationship and a glimpse of previously unknown events that shaped the Sino Soviet alliance An appendix contains translated Chinese and Soviet documents many of which are being published for the first time The book focuses mainly on Communist China's relationship with Moscow after the conclusion of the treaty between the Soviet Union and Kuomintang China in 1945 up until the signing of the treaty between Moscow and the Chinese Communist Party in 1950 It also looks at China's relationship with

Moscow from 1920 to 1945 as well as developments from 1950 to the present The author reevaluates existing sources and literature on the topic and demonstrates that the alliance was reached despite disagreements and distrust on both sides and was not an inevitable conclusion He also shows that the relationship between the two Communist parties was based on national interest politics and not on similar ideological convictions

Mission to Yen-an Carolle J. Carter, 2021-05-11 A deep dive into the Dixie Mission Aficionados of American political and diplomatic history may be pleasantly surprised at the riches in this book American Historical Review Conventional wisdom informs us that only Nixon could go to China In fact in 1944 nearly thirty years before his historic trip the American military established the first liaison and intelligence gathering mission with the Chinese Communists in Yen-an Commonly referred to as the Dixie Mission the detached military unit sent to Yen-an was responsible for transmitting weather information assisting the Communists in their rescue of downed American flyers and laying the groundwork for an eventual rapprochement between the Communists and Nationalists the two sides struggling in the ongoing Chinese Civil War Following extensive use of archival sources and numerous interviews with the men who traveled and served in Yen-an Carolle Carter argues that while Dixie fulfilled its assignment the members steered the mission in different directions from its original albeit loosely described intent As the months and years passed the Dixie Mission increasingly emphasized intelligence gathering over evaluating their Communist hosts contribution to the war effort against Japan Some American politicians in the 1950s portrayed the participants in the Dixie Mission as too sympathetic to the Chinese Communists But during the 1970s many looked back at these individuals as wise but ignored oracles who could have prevented the loss of China Carter strips away these simplistic portrayals to reveal a diverse and dedicated collection of soldiers diplomats and technicians who had ongoing contact with the Chinese Communists longer than any other group during World War II but who were destined to be a largely unused resource during the Cold War

Women and China's Revolutions Gail Hershatter, 2018-09-04 If we place women at the center of our account of China's last two centuries how does this change our understanding of what happened This deeply knowledgeable book illuminates the places where the Big History of recognizable events intersects with the daily lives of ordinary people using gender as its analytic lens Leading scholar Gail Hershatter asks how these events affected women in particular and how women affected the course of these events For instance did women have a 1911 revolution A socialist revolution If so what did those revolutions look like Which women had them Hershatter uses two key themes to frame her analysis The first is the importance of women's visible and invisible labor The labor of women in domestic and public spaces shaped China's move from empire to republic to socialist nation to rising capitalist power The second is the symbolic work performed by gender itself What women should do and be was a constant topic of debate during China's transformation from empire to weak state to partially occupied territory to nascent socialist republic to reform era powerhouse What sorts of concerns did people express through the language of gender How did that language work and why was it so powerful Drawing on decades of Hershatter's groundbreaking

scholarship and mastery of a range of literatures this beautifully written book will be essential reading for all students of China's modern history **Special Bibliography Series** ,1957 *The China Order* Fei-Ling Wang,2017-08-07 Examines the rising power of China and Chinese foreign policy through a revisionist analysis of Chinese civilization What does the rise of China represent and how should the international community respond With a holistic rereading of Chinese longue durée history Fei Ling Wang provides a simple but powerful framework for understanding the nature of persistent and rising Chinese power and its implications for the current global order He argues that the Chinese ideation and tradition of political governance and world order the China Order is based on an imperial state of Confucian Legalism as historically exemplified by the Qin Han polity Claiming a Mandate of Heaven to unify and govern the whole known world or tianxia all under heaven the China Order dominated Eastern Eurasia as a world empire for more than two millennia until the late nineteenth century Since 1949 the People's Republic of China has been a reincarnated Qin Han polity without the traditional China Order finding itself stuck in the endless struggle against the current world order and the ever changing Chinese society for its regime survival and security Wang also offers new discoveries and assessments about the true golden eras of Chinese civilization explains the great East West divergence between China and Europe and analyzes the China Dream that drives much of current Chinese foreign policy An original important well researched and powerfully argued exploration of the virtues and vices of the Chinese state from its ancient past to its likely future Edward Friedman University of Wisconsin Madison A masterpiece Wang provides a grand sweeping even epic review of two thousand years of Chinese history His argument is compelling and well documented the richness and variety of sources Chinese and English he cites is breathtaking The book is likely to end up on the reading list of every serious student of China's position in the world for many years to come Daniel C Lynch author of China's Futures PRC Elites Debate Economics Politics and Foreign Policy This imaginative and provocative grand tour of Chinese cosmological order and geopolitical strategy past and present is destined to become a classic Ming Xia author of *The People's Congresses and Governance in China Toward a Network Mode of Governance*
