The Cabot Voyages and Bristol Discovery under Henry VII R.A. Skelton, 2017-05-15 The voyages of John and Sebastian Cabot and their English contemporaries were made for the most part in search of a westward passage to Asia and they resulted in the revelation of North America The evidences are printed here with an indication of their origins Some are obscure in meaning incomplete in statement or mutually contradictory and we are left with the certainty that important documents have existed or may now exist which are still unknown Dr Williamson interprets the evidence we have Parts of his undertaking are in the nature of detective work and he does not claim that his solutions are final which would be impossible in the face of new evidence that may at any time occur Cabot study is a continuing mental adventure The maps are an important category of the evidence Mr R A Skelton of the British Museum has contributed a treatment of them authoritative in its explanations and a valuable admonition on what can and cannot be expected of the material This is a new print on demand hardback edition of the volume first published in 1962

Wright, 2014-10-01 If the origin of the colonial period was accidental the ending was not The representatives of the thirteen colonies who approved the Declaration of Independence in 1776 charted a collision course aware of the obstacles in their path and the risks they were taking The events that led to their decision took place over a period of nearly 300 years Looking back the wonder is that it culminated so quickly For a century after its discovery the New World was little more than a lode to be mined by adventurers seeking profits It wasn't until the end of the sixteenth century that serious efforts were made to establish permanent colonies Even then the perils of the journey and threats of starvation inhibited settlement But settlers gradually came spurred in part by the fear of religious persecution but above all drawn by the hope of owning land They were a mixed lot English Separatists from Leiden French Huguenots Dutch burghers Mennonite peasants from the Rhine Valley and a few gentleman Anglicans But they shared a quality of toughness Here is their story from award winning historian Louis B Wright
