An interesting account, below, found on FamilySearch Memories an account of a “Lost Infant”
we find accounts and stories like this again and again on the [Family Bible Preservation Project](#).

May each one of you know the importance of the work you do - - and
the significance in the eternal perspective
as we ensure one of God’s little children is remembered now and in the eternities . .

[Name withheld]

I found a baby this week. He’d been lost for 161 years. And it’s only because of the Forman Family Bible that I’m confident he belongs in our family.

You’ll recall that we learned from the family names listed in the bible that the “L” in Samuel L. Forman’s name stood for “Longstreet.” So I wasn’t immediately surprised to happen upon a death record for Samuel Longstreet Foreman. Until I read that he died at age 14 months in 1857. Ancestry.com only had the indexed details, but FamilySearch.org had an image of the actual document (shown above.) No parents are listed for this baby. The original SLF is named after his mother’s father (Samuel Longstreet.)

So who would be likely to name a child Samuel Longstreet Forman in 1856?
Wouldn’t it be logical that the son of Samuel Longstreet Forman would give that name to his son, possibly his first-born son?

Samuel L. Forman had 2 sons: William Lake and Isaac E. In 1856, Isaac was only 15 years old, but William Lake had been married to Amanda Orilla McAllister since 1853. That date is fairly new since I only found their marriage date in a newspaper record in the past year or two.

Jr, 2023-10-31 We are presented with several million options during our life that we have to make a choice between The choices we make create the way we see the world and establish how we live in it This environment which we have created for

ourselves is called our world Everyone has a world that is unique and personal to them Of course our worlds are based on assumptions that for one reason or another we choose to believe and call facts We are sure that what we believe takes precedence over everyone else s beliefs and that can make our world a bit of a challenge to live in at times I have decided to share my world with the rest of the world Not to convince anyone that my world is better than theirs but to share some of the things that I found helpful for the world at large In my eighty eight years as a well educated wonderer many of my assumed facts have been proven wrong I see that as progress a good thing The challenge is to be able to accept that one of your lifelong facts just isn t true I have only a few things that I learned that have stayed true so far and have been stabilizers in my world I think they can be of use to almost everyone and need sharing I am not writing this book to encourage you to think like me but rather to just think There are things changing all around you So many new things to learn So many new places to visit So many edges out there you haven t walked on yet No matter how intelligent you are your areas of vast ignorance are greater than your areas of knowledge There is so much to learn that when you throw your arms up and say I know nothing it will be true but it is okay Every other human on earth is in the same situation they just don t know it We have robots with Artificial Intelligence AI far beyond any human right now that are working for us What will happen when they decide we are too dumb and of no use to them I believe this could be a far greater threat to human survival than global warming What do you think and why

Just Looking Back Michael Pilbro,2015-07-21 In the year 1943 I might have seen some progress in the fight against Nazi Germany but bombs were still falling on the city in which I lived Amidst this chaos I entered the world on April 29 1943 and began a life which offered much variety and a fair degree of excitement The work in a government agency the years volunteering as a special police officer the several failed marriages and the finding of my birth family following my early adoption kept me extremely occupied for most of my life I soon began to learn what life was all about There were never any easy answers and I resented the suggestion that I was just lucky All I needed in my early years was admittedly some sweets and comics and sufficient entertainment to keep me happy Later life became harder and often decidedly unhappier This is perhaps where I should begin My life was amusing and sad in equal proportions but above all it represents a genuine account of a very average life lived by many in a very ordinary environment that seemed to answer more questions than were ever posed

Nalley, A Southern Family Story Evelyn McCollum, 2002-12-26

Nalley A Southern Family Story is filled with stories that make the Nalley family come alive. This book is not a genealogical record although genealogy is included. The opening chapter portrays the illustrious life of the enigmatic patriarch George Burdine Nalley. An active minister in the Wesleyan church for eleven years, he fell from grace because of his involvement with another woman and he had the audacity to bring the other woman to live in the house with his wife Emma Burns and their children. The next twelve chapters depict the lives of the twelve children, nine boys and three girls. Since all of them are deceased, their stories were written by their children as they remember their parents and their own childhoods. These stories give a picture of life in a less sophisticated time in the rural south when people lived off the land and had none of the modern conveniences that we enjoy today. **Nalley A Southern Family Story** chronicles 170 years in the life of a family. In one chapter, the dates of births, marriages, and deaths of this line of the family are interwoven into national and world events. Another chapter gives statistical information on the numerous family members, including a chronological list of the births, marriages, and deaths of the twelve children and ninety-four grandchildren. Newspaper clippings are included of the obituaries of the twelve children and their spouses, as well as accounts of the tragic deaths which have occurred. Information on places and events pertinent to the family is recorded. The family reunion which began the year after George Burdine's untimely death in 1914 and continues to this day. Camp meeting where families lived for two weeks under conditions even more primitive than at home while they worshipped their God, got caught up on family news, and renewed acquaintance with old friends. Fairview Methodist Church where many baptisms, weddings, and funerals of the Nalley clan took place and where many of them are buried. Central Wesleyan College which the Rev. G. B. Nalley was instrumental in founding. This is a book that you can sit down and read, but it is more than that. It is a reference book that you can refer to over and over again when you are discussing family, trying to remember who was older, who married first, when someone died, and the endless number of other facts and fallacies that we Nalleys talk and argue about when we get together. In addition, this book is a social history of the way life was lived in those days, as Daddy used to say. When I think of how much change has occurred in the last one hundred years, I am grateful that we have this written record of how our forefathers and foremothers actually lived. Here it is as complete as I can make it: the history of the George Burdine and Emma Burns Nalley family. I hope you enjoy reading it and referring to it as much as I have enjoyed putting it together. If you have a drop of Nalley blood flowing through your veins, you will want to own a copy of this book for your library.
