Harriet Ellen O'Brien

Lost Utopias:

Lost Utopias Harriet Ellen O'Brien, 1929 **Lost Utopias** Richard Pare, Jennifer Minner, 2016 The pictures in this book bring the argument about reuse and preservation into focus What is worthy of retaining and what is dispensable What are the criteria for considering whether a structure should be retained or demolished How do you define the parameters of taste and utility in making decisions to preserve or destroy How will future generations regard the destruction of certain structures will we be considered cultural vandals for not having retained more of the structures that seemed irrelevant at the time The preservation argument is heightened in the case of the exhibitions sites as by definition an exhibition is considered a temporary event Page 9 *AntiFascism and Memory in East Germany* Josie McLellan, 2004-10-07 *AntiFascism and Memory in East Germany* is a book about remembering and about forgetting about war and about the peace which eventually followed In the unlikely setting of the German Democratic Republic GDR the Spanish Civil War became the subject of a debate which both predated and outlasted the Cold War involving historians veterans politicians censors artists writers and Church activists Examining these multiple memories and interpretations of Spain casts new and unexpected light on the legacy of the Spanish Civil War and the relationship between history and memory under state socialism The ruling Socialist Unity Party made full use of the antifascist legacy as legitimation for a non democratic state But despite dogged attempts at control and censorship the state was unable to silence competing voices All over East Germany International Brigade veterans preserved their version of events in letters to each other in communications with the party in discussions with friends and family around the kitchen table and in memoirs written for the desk drawer For younger East Germans the war retained an undeniably romantic aura From their perspective Spain was a far away land to which they were forbidden to travel the stuff of camp fire singalongs and fantasies of adventure This book dissects the relationship between state sponsored history the lobbying of veterans cultural interpretations of war and the memory traces left behind by marginalised or politically oppositional groups and individuals It is a cultural history of memory under state socialism a social history of veteran groups and their relationship with the state and a political history of communist culture Above all it is the story of how post war Europeans came to terms with the heavy burden of their pre war past *Lost Utopias*, 19?? **Strains of Utopia** Caryl Flinn, 1992-06-15 When Dmitri Tiomkin thanked Johannes Brahms Johann Strauss Richard Strauss and Richard Wagner upon accepting the Academy Award for his score of *The High and the Mighty* in 1954 he was honoring a romantic style that had characterized Hollywood's golden age of film composition from the mid 1930s to the 1950s Exploring elements of romanticism in film scores of composers ranging from Erich Korngold to Bernard Herrmann Caryl Flinn argues that films tended to link music to the sense of an idealized lost past Just as the score of *Gone with the Wind* captured the grandeur of the antebellum South others prompted flashbacks or suggested moments of emotional intensity and sensuality Maintaining that many films treated this utopian impulse as a female trait Flinn investigates the ways Hollywood genre films particularly

film noir and melodrama sustained the connection between music and nostalgia utopia and femininity The author situates Hollywood film scores within a romantic aesthetic ideology noting compositional and theoretical affinities between the film composers and Wagner with emphasis on authorship creativity and femininity Pointing to the lasting impact of romanticism on film music Flinn draws from poststructuralist Marxist feminist and psychoanalytic criticism to offer fresh insights into the broad theme of music as an excessive utopian condition

Sustainable Urban Neighbourhood David Rudlin, Nicholas Falk, 2010-05-14 This successful title previously known as *Building the 21st Century Home* and now in its second edition explores and explains the trends and issues that underlie the renaissance of UK towns and cities and describes the sustainable urban neighbourhood as a model for rebuilding urban areas The book reviews the way that planning policies architectural trends and economic forces have undermined the viability of urban areas in Britain since the Industrial Revolution Now that much post war planning philosophy is being discredited we are left with few urban models other than garden city inspired suburbia Are these appropriate in the 21st century given environmental concerns demographic change social and economic pressures The authors suggest that these trends point to a very different urban future The authors argue that we must reform our towns and cities so that they become attractive humane places where people will choose to live The *Sustainable Urban Neighbourhood* is a model for such reform and the book describes what this would look like and how it might be brought about

The Black Speculative Arts Movement Reynaldo Anderson, Clinton R. Fluker, 2019-11-13 The *Black Speculative Arts Movement Black Futurity Art Design* is a 21st century statement on the intersection of the future of African people with art culture technology and politics This collection enters the global debate on the emerging field of Afrofuturism studies with an international array of scholars and artists contributing to the discussion of Black futurity in the 21st century The contributors analyze and respond to the invisibility or mischaracterization of Black people in the popular imagination in science fiction and in philosophies of history

New World Utopias Paul Kagan, 1975 Here is a surprising photographic survey of communal life in the American West from 1870 to the present Many of the nearly three hundred photographs assembled here have never before been published Some were discovered by Paul Kagan among the remains of vanished communities Others taken by Kagan himself depict the present day ruins of once thriving communes The communities that these photographs and the accompanying text bring so vividly to life include the political the religious and the occult from Fountaingrove and Icaria Speranza to Pisgah Grande and the Tassajara Zen Mountain Center All of them hold valuable lessons for the world of the future As Paul Kagan writes Much of the life and much of the story is in the photographs The photographs that I made represent my feelings about the communal remains and the historical photographs show a little of the daily life of the groups The accompanying text tells the communal history and hopefully raises some pertinent questions The search for community is generally directed toward someplace over there Can the vision of the utopians be pursued here in the context of life in the world

Time Travel David Wittenberg, 2016-01-01 This stimulating contribution to

literary theory reveals the deeply philosophical concerns and developments behind popular time travel sci fi London Review of Books In Time Travel literary theorist David Wittenberg argues that time travel fiction is not mere escapism but a narrative laboratory where theoretical questions about storytelling and by extension about the philosophy of temporality history and subjectivity are presented in story form Drawing on physics philosophy narrative theory psychoanalysis and film theory Wittenberg links innovations in time travel fiction to specific shifts in the popularization of science from nineteenth century evolutionary biology to twentieth century quantum physics and more recent multiverse cosmologies Wittenberg shows how popular awareness of new science led to surprising innovations in the literary time machine which evolved from a vehicle used for sociopolitical commentary into a psychological device capable of exploring the temporal structure and significance of subjects viewpoints and historical events Time Travel draws on classic works of science fiction by H G Wells Edward Bellamy Robert Heinlein Samuel Delany and Harlan Ellison television shows such as The Twilight Zone and Star Trek and other popular entertainments These are read alongside theoretical work ranging from Einstein Schrödinger Stephen Hawking to Gérard Genette David Lewis and Gilles Deleuze Wittenberg argues that even the most mainstream audiences of popular time travel fiction and cinema are vigorously engaged with many of the same questions about temporality identity and history that concern literary theorists media and film scholars and philosophers **Dirt** David R.
