Laurie Essig, 2019-02-05 The notion of happily ever after has been ingrained in many of us since childhood meet someone date have the big white wedding and enjoy your well deserved future But why do we buy into this idea Is love really all we need Author Laurie Essig invites us to flip this concept of romance on its head and see it for what it really is an ideology that we desperately cling to as a way to cope with the fact

that we believe we cannot control or affect the societal economic and political structures around us From climate change to nuclear war white nationalism to the worship of wealth and conspicuous consumption as the future becomes seemingly less secure Americans turn away from the public sphere and find shelter in the private Essig argues that when we do this we allow romance to blind us to the real work that needs to be done building global movements that inspire a change in government policies to address economic and social inequality

The Power of Mother Love Brenda Hunter, 2011-05-04 The Power of Mother Love highlights the incredible although sometimes unrealized influence that a mother has on her children and her society Decades of scientific and psychological study provide overwhelming evidence for the idea that mother love has an enormous permanent impact in shaping the character and life of a child In her compelling new work psychologist Brenda Hunter presents a convincing argument that indicates this love is even more powerful even more far reaching than our culture has yet realized not only for the child but for the mother and society as a whole Affirming the immeasurable value of the mothering role while realistically addressing women's greatest questions and concerns Hunter clearly reveals how mother love positively affects the way a woman defines herself All mothers and all those who care about the lives of women children and the future of our society will be dramatically impacted by this not to be missed book skillfully written to empower women to mother from the heart

The Hand of Compassion Kristen Renwick Monroe, 2013-10-31 A fascinating treatise on moral psychology in depth interviews with five people who risked their lives to rescue Jews during World War II Publishers Weekly Through moving interviews with five ordinary people who rescued Jews during the Holocaust Kristen Monroe casts new light on a question at the heart of ethics Why do people risk their lives for strangers and what drives such moral choice Monroe's analysis points not to traditional explanations such as religion or reason but to identity The rescuers' perceptions of themselves in relation to others made their extraordinary acts spontaneous and left the rescuers no choice but to act To turn away Jews was for them literally unimaginable In the words of one German Czech rescuer The hand of compassion was faster than the calculus of reason At the heart of this unusual book are interviews with the rescuers complex human beings from all

parts of the Third Reich and all walks of life Margot a wealthy German who saved Jews while in exile in Holland Otto a German living in Prague who saved more than 100 Jews and provides surprising information about the plot to kill Hitler John a Dutchman on the Gestapo's Most Wanted List Irene a Polish student who hid eighteen Jews in the home of the German major for whom she was keeping house and Knud a Danish wartime policeman who took part in the extraordinary rescue of 85 percent of his country's Jews Monroe's analysis of these stories is a dramatic illumination of the power of identity to shape our most basic political acts including our treatment of others
