The Sacrament of the Word Made Flesh Robert J. Stamps, 2013-08-01 Endorsements Robert Stamps offers us a compelling case for the significance of the theology of Thomas Torrance to current discussions about Trinitarian doctrine and worship He shows that Torrance's Christology and Eucharistic thought validates the Reformed confession of a profound real spiritual presence in the Eucharist This book serves as a helpful introduction to Torrance especially his framing of revelation Moreover it invigorates our understanding of the theological meaning of sacramental devotion Its readers will be stimulated provoked and dare I say inspired by its insights into and critiques of one of the most important and recent Reformed thinkers In sum this is a timely and exciting book It will well serve pastors theologians and thoughtful Christians of many theological perspectives MARK VALERI E T Thompson Professor of Church History Union Theological Seminary Virginia One of the values of this work is that it has deliberately sought not so much to discuss a particular problem or a collection of issues as to identify Torrance as an example of an archetypal Reformed theology of the Eucharist To say that Dr Stamps has been industrious is patently an understatement the truth is that he has been indefatigable in his search for the least morsel that Torrance offers Yet it is not so much as a study of Torrance that this book is to be commended its great value is that it offers a contextualization of Torrance's thinking on the Eucharist in ecclesiology the more general dimension of an incarnational theology as well as his understanding of cosmology and epistemology I hope that Dr Stamps book will not only find grateful readers but will be repaid by profound reflection on this symbol of the heart of faith JOHN HEYWOOD THOMAS Emeritus Professor of Theology University of Nottingham

Marian Poem-Prayers in the Modern Age Jean Ward, 2025-10-16 This book explores a range of twentieth and twenty first century poem prayers directed to or involving Mary In readings of works by T S Eliot David Jones Geoffrey Hill Elizabeth Jennings Hilary Davies Rowan Williams and others Ward traces the resurgence of interest in Mary from the late nineteenth century to the present day By the early twentieth century the once

widespread and fervent cult of the Virgin Mary had for more than three hundred years been largely absent from England's religious life. Similarly the figure of Mary had almost vanished from English poetry only to return gradually as Marian devotion began to revive in the nineteenth century. The perception of this devotion as somehow un-English dominant since the Reformation presented a challenge to poets engaged with the Marian theme in the modern day. *Marian Poem Prayers in the Modern Age* examines how male and female poets from both Roman Catholic and Anglican backgrounds responded to this situation. The book also argues that the figure of Mary is a type of John Henry Newman's category of real assent commitment that is not merely intellectual but involves the totality of a person's being in relation to God. Proverbs Ernest Lucas, 2015 In this commentary Ernest Lucas takes a unique cluster approach to the book of Proverbs studying it thematically and showing how it speaks to such issues as character formation gender relations wealth and poverty interpersonal communication science and religion and care for the environment. **The Routledge Handbook of Christianity and Culture**

Yaakov Ariel, Gregor Thuswaldner, Jens Zimmermann, 2024-11-15 The centrality and importance of the intersection of Christianity and culture when it comes to English speaking countries and particularly American culture history and politics is beyond doubt. *The Routledge Handbook of Christianity and Culture* is an outstanding reference source to the key topics problems and debates in this exciting subject. Comprising over 35 chapters by a team of international contributors the handbook is divided into five parts: Practicing Christianity Christianity and the Word Social and Political Aspects of Christianity and Culture Christianity and Culture in a Global Context Christianity and the Arts. Within these parts central issues debates and problems are examined including liturgy material Christianity education missions religion and science hermeneutics Bible translations Christian wars human rights law social action the secular ecumenicalism inter religious relations visual arts literature music theatre and film. *The Routledge Handbook of Christianity and Culture* is essential reading for students and researchers of religious studies and Christian studies. The handbook will also be very useful for those in related fields such as cultural studies area studies visual studies literature and material religion. The Arts and the Bible

Stanley E. Porter, Wendy J. Porter, 2024-01-04 Throughout its history the Christian church has had a troubled relationship with the arts whether literature poetry music visual arts or other forms of artistic expression. This volume is not designed to resolve the issues but it is designed to present a number of different statements about various dimensions of the arts in their relationship to the Bible. The Bible is the document that stands behind the Christian church as an inspiration to it and to its arts. As a result we have divided this volume into six parts: perspectives on the arts culture and art visual enactments contemporary interpretations music and the Bible and literature. Many of the issues that the history of the interaction of the arts and the Bible within the Christian church has uncovered are insightfully and artfully addressed by this book. The wide range of contributors runs the gamut from practicing artists of various media to scholars within varied academic fields. **Christian Physicalism?**, Joshua R. Farris, R. Keith Loftin, 2017-12-26 On the heels of the advance since

the twentieth century of wholly physicalist accounts of human persons the influence of materialist ontology is increasingly evident in Christian theologizing To date the contemporary literature has tended to focus on anthropological issues e g whether the traditional soul body distinction is viable with occasional articles treating physicalist accounts of such doctrines as the Incarnation and Resurrection of Jesus cropping up as well Interestingly the literature to date both for and against this influence is dominated by philosophers The present volume is a collection of philosophers and theologians who advance several novel criticisms of this growing trend toward physicalism in Christian theology The present collection definitively shows that Christian physicalism has some significant philosophical and theological problems No doubt all philosophical anthropologies have their challenges but the present volume shows that Christian physicalism is most likely not an adequate accounting for essential theological topics within Christian theism Christians then should consider alternative anthropologies

Modern Catholicism Adrian Hastings, 1991 When Pope John XXIII convened the Second Vatican Council in 1963 he could not have predicted the dramatic transformation of modern Roman Catholicism that would result from its deliberations Its influence has reached into every aspect of Catholic life and continues to be felt and hotly debated to the present day In this sweeping new study edited by the eminent British Catholic theologian Adrian Hastings a distinguished team of international scholars provides a complete history of the Council and assesses its impact on the last quarter century of Catholic thought and practice The contributors consider the reign of John XXIII and his immediate predecessors and successors the history of the Council and each of the sixteen documents it issued which together represent perhaps the most authoritative church teaching of this century embodying radical changes in the liturgy and greater participation in services by lay members But Vatican II also left behind many unresolved controversies such as celibacy of priests and birth control and the contributors also examine these and other issues including the role of women in the Church homosexuality divorce and war and the nuclear predicament In addition the impact of the Council on different parts of the world is discussed giving full weight to the emergence of liberation theology in Latin America and the Philippines and the desire of African and Asian Catholics to assimilate aspects of their traditional culture into Church life Modern Catholicism offers us a new map for understanding the challenges faced by the Church as we approach the end of the second millennium of Christianity Commemorating the twenty fifth anniversary of Vatican II this book is destined to become the standard resource on the Council and its influence

Apocalyptic Good News R. Dean Drayton, 2019-07-12 Remarkable studies in the New Testament have recovered the fact that the gospel the good news of Jesus Christ was apocalyptic good news God's redemptive action within history Today for more and more people the sheer scope of an evolutionary universe renders life on Earth as utterly insignificant religion as nothing more than superstition And now in the Anthropocene we on the pale blue dot live in an apocalyptic age in which cataclysmic issue after cataclysmic issue threaten the future of the planet The faith of the early church was in an apocalyptic cosmic Christ unleashing within history God's good news of a new creation Set within the world

as we now know it this gives meaning to the cosmos and life wherever it is found around any star Screened from view for over a millennium during mission to non apocalyptic cultures now is the time for a new paradigm for church the apocalyptic church for an apocalyptic age to replace the denominational church What a difference this makes to faith worship and the role of the church in an apocalyptic future **New-Church Messenger** ,1914 **Encyclopedia of the Anthropocene** ,2017-11-27 Encyclopedia of the Anthropocene Five Volume Set presents a currency based global synthesis cataloguing the impact of humanity s global ecological footprint Covering a multitude of aspects related to Climate Change Biodiversity Contaminants Geological Energy and Ethics leading scientists provide foundational essays that enable researchers to define and scrutinize information ideas relationships meanings and ideas within the Anthropocene concept Questions widely debated among scientists humanists conservationists politicians and others are included providing discussion on when the Anthropocene began what to call it whether it should be considered an official geological epoch whether it can be contained in time and how it will affect future generations Although the idea that humanity has driven the planet into a new geological epoch has been around since the dawn of the 20th century the term Anthropocene was only first used by ecologist Eugene Stoermer in the 1980s and hence popularized in its current meaning by atmospheric chemist Paul Crutzen in 2000 Presents comprehensive and systematic coverage of topics related to the Anthropocene with a focus on the Geosciences and Environmental science Includes point counterpoint articles debating key aspects of the Anthropocene giving users an even handed navigation of this complex area Provides historic seminal papers and essays from leading scientists and philosophers who demonstrate changes in the Anthropocene concept over time **Evangelical Dictionary of Theology** Daniel J. Studebaker,2021-01-14 Steven M Studebaker proposes a Pentecostal approach to a major Christian doctrine the atonement The book moves Pentecostal theology of the atonement from a primarily Christocentric and crucicentric register to one that articulates the pneumatological and holistic nature of Pentecostal praxis Studebaker examines the irony of Classical Pentecostalism relying on the Christocentrism of Protestantism evangelical atonement theology to articulate its experience of the Holy Spirit as well as the Pneumatological nature of Pentecostal praxis He then develops a Pentecostal theology of atonement based on the biblical narrative of the Spirit of Pentecost and returns to re imagine an expanded vision of Pentecostal praxis based on the theological formation of

the biblical narrative The result is a Pentecostal atonement theology that shows the integrated nature of pneumatology creation and Christology in the biblical narrative of redemption It gives theological expression to not only the pneumatological nature of Pentecostal praxis but also the fundamental role of the Holy Spirit in the biblical narrative of redemption The book challenges popular western atonement theologies to re think their Christocentrism and crucicentrism as well as their atomistic tendency to separate soteriology into objective Christological and subjective pneumatolgical categories Body and Soul Percy Dearmer, 1909 **Salvation Applied by the Spirit** Robert A.
