groundbreaking timely book examines expressions of the utopian imagination with a focus on the pressing challenge of how to inhabit a climate changed world Forms of social dreaming are tracked across two domains political theory and speculative fiction The analysis aims to both uncover the key utopian and dystopian tendencies in contemporary debates around the Anthropocene as well as to develop a political theory of radical transformation that avoids not only debilitating fatalism but also wishful thinking This book juxtaposes theoretical interventions from Bruno Latour to the members of the Dark Mountain collective with fantasy and science fiction texts by N K Jemisin Kim Stanley Robinson and Margaret Atwood debating viable futures for a world that will look and feel very different from the one we live in right now **Fantastic Cities** Stefan

Flynn, Arturo Giráldez, James Sobredo, 2018-01-18 This title was first published in 2002 In recent years scholars have begun to conceptualize the history of the Pacific Ocean as a subset of world history This question is taken up in the introductory chapter of this volume which sets out four periods of modern Pacific history a silver period 1570s 1750 a period of early integration 1750 1850 a gold period 1850 c 1900 and a period of imperial strategies after the gold rushes The next chapter looks at the fur trade of the Pacific coast of America and its dependence on markets in China and Russia followed by a set which focus on the era of the gold rushes in California Australia and New Zealand when the pace of Pacific integration

grew rapidly and new markets opened across the ocean The last chapters examine aspects of the subsequent evolution of the Pacific Ocean into an American lake looking in particular at the interlocking of politics and migration This volume carries forward study of the Pacific Centuries promoting the conceptualization of the Pacific Ocean as a coherent unit of analysis and providing further important steps toward provision of the multi century framework that is required for proper understanding of today s Pacific Century
