until when invited by the trustees to place my collection where it might subserve a useful end in Memorial Hall Philadelphia I turned to the great centres of eastern American thought seeking knowledge relating to the fine arts in New Spain Many thousands of volumes were rapidly sifted by means of catalogues indexes and the references of learned authors and to my surprise the search secured but a limited number of isolated facts These were placed in some order of sequence and assembled with others drawn from memory or gathered and recorded in note books during my Mexican sojourn About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Mexican Painting and Painters Robert Henry Lamborn,2018-05-18 **María Izquierdo and Frida Kahlo** Nancy Deffebach,2015-08-15

María Izquierdo 1902 1955 and Frida Kahlo 1907 1954 were the first two Mexican women artists to achieve international recognition During the height of the Mexican muralist movement they established successful careers as easel painters and created work that has become an integral part of Mexican modernism Although the iconic Kahlo is now more famous the two artists had comparable reputations during their lives Both were regularly included in major exhibitions of Mexican art and they were invariably the only women chosen for the most important professional activities and honors In a deeply informed study that prioritizes critical analysis over biographical interpretation Nancy Deffebach places Kahlo's and Izquierdo's oeuvres in their cultural context examining the ways in which the artists participated in the national and artistic discourses of postrevolutionary Mexico Through iconographic analysis of paintings and themes within each artist's oeuvre Deffebach discusses how the artists engaged intellectually with the issues and ideas of their era especially Mexican national identity and the role of women in society In a time when Mexican artistic and national discourses associated the nation with masculinity Izquierdo and Kahlo created images of women that deconstructed gender roles critiqued the status quo and presented more empowering alternatives for women Deffebach demonstrates that paradoxically Kahlo and Izquierdo became the most successful Mexican women artists of the modernist period while most directly challenging the prevailing ideas
