Supermarket Satoshi Azuchi, 2025-09-23 A modern classic of literature in Japan Supermarket is a novel of the human drama surrounding the management of a supermarket chain at a time when the phenomenon of the supermarket imported postwar from the US was just taking hold in Japan When Kojima an elite banker resigns his job to help a cousin manage Ishiei a supermarket in one of Japan's provincial cities a host of problems ensue Store employees are stealing products the books are in disarray and the workers seem stuck in old ways of thinking As Kojima begins to give all his time over to the relentless task of reforming the store's management a chance encounter with a woman from his childhood causes him to ask the age old question is the all encompassing pursuit of business success really worth it Sincere and naive in tone Supermarket takes us back to a simpler kinder time and skillfully presents the depictions of its characters alongside a wealth of information concerning Japanese post WWII recovery and industrialization *Business Communications Systems GCSE* Paula

That Will Never Work Marc Randolph,2019-09-17 In the tradition of Phil Knight s Shoe Dog comes the incredible untold story of how Netflix went from concept to company all revealed by co founder and first CEO Marc Randolph Once upon a time brick and mortar video stores were king Late fees were ubiquitous video streaming unheard of and widespread DVD adoption seemed about as imminent as flying cars Indeed these were the widely accepted laws of the land in 1997 when Marc Randolph had an idea It was a simple thought leveraging the internet to rent movies and was just one of many more and far worse proposals like personalized baseball bats and a shampoo delivery service that Randolph would pitch to his business partner Reed Hastings on their commute to work each morning But Hastings was intrigued and the pair with Hastings as the primary investor and Randolph as the CEO founded a company Now with over 150 million subscribers Netflix s triumph feels inevitable but the twenty first century s most disruptive start up began with few believers and calamity at every turn From having to pitch his own mother on being an early investor to the motel conference room that served as a first office to server crashes on launch day to the now infamous meeting when Netflix brass pitched Blockbuster to acquire them Marc Randolph s transformational journey exemplifies how anyone with grit gut instincts and determination can change the world even with an idea that many think will never work What emerges though isn t just the inside story of one of the world s most iconic companies Full of counter intuitive concepts and written in binge worthy prose it answers some of our most fundamental questions about taking that leap of faith in business or in life How do you begin How do you weather disappointment and failure How do you deal with success What even is success From idea generation to team building to knowing when it s time to let go That Will Never Work is not only the ultimate follow your dreams parable but also one of the most dramatic and insightful entrepreneurial stories of our time It's a World Thing Bob Digby,2001 Topics needed for GSCE Geography Edexcel specification B

The Logic of Life Tim Harford, 2009-02-24 In *The Logic of Life* bestselling author Tim Harford quite simply makes sense of this world. Life often seems to defy logic. The receptionist is clearly smarter than the boss who earns fifty times her salary. Arbitrary lines starkly divide the desirable districts of the city from the dangerous ones. Voters flock to the polling booths to elect candidates who'll rip them off to favour special interests. None of it makes logical sense or does it. Economist and acclaimed author Tim Harford thinks it does. By weaving stories from locations as diverse as a Vegas casino to a barroom speed date, Harford aims to persuade you that people are in fact surprisingly logical. When a street prostitute agrees to unprotected sex or a teenage criminal embarks on a burglary perhaps especially when a racist employer disregards a black job applicant we would seem to be a million miles from rational behaviour. Harford shows that discomfitingly we are not. It turns out that the unlikeliest of people are complying with the logic of economics and responding to future costs and benefits often without realizing it and socially tragic outcomes can have their roots in individually rational decisions. Brilliantly reasoned, always entertaining and often provocative, *The Logic of Life* is a book to help you understand yourself and the world around you.

Shopping at Giant Foods Alfred Yee, 2012-09-01 From the 1930s through the 1970s Chinese American owned supermarkets located outside of Chinatown catering to a non Chinese clientele and featuring mainstream American foods and other products and services rose to prominence and phenomenal success in Northern California only to decline as union regulations and competition from national chains made their operation unprofitable. Alfred Yee's study of this trajectory is an insider's view of a fascinating era in Asian American immigration and entrepreneurship. Drawing on oral interviews with individuals who worked in the business during its peak and decline he presents an accessible history that illustrates how this once thriving business fostered the social and economic integration of Chinese Americans into life in the United States. Yee demonstrates how Chinese American supermarkets were able to sell American groceries at reduced prices by using the cheap labor of family members and Chinese immigrants whose entry to the United States had been sponsored by their employers. This type of symbiotic relationship was eventually undermined by labor unions demands that employees be covered by labor laws and fully compensated for all hours worked. Also contributing to the ultimate demise of Chinese American supermarkets were increasing costs of capitalization and operation, the dominance of national chain stores and difficulties arising from traditional Chinese methods of business management.
