Moscow's relations with the US, China and the EU, Russia and the Question of World Order will be of great interest to scholars of international relations and Russian foreign policy. The chapters were originally published as a special issue of *European Politics and Society*.

Globalization and Regime Change Robin Alison Remington, Robert Kent Evanson, 2020
This timely book examines post communist developments in Russia, central Europe and the Balkans, emphasizing foreign and security policies and their domestic linkages. Framed around the concepts of globalization and regime change, the rich set of case studies traces the repercussions for politicians and institutions forced to adjust to the disappearance of the East from the cold war's East-West polarity. The contributors explore how each country has grappled with such questions as how to change from one party to many, how to create viable market economies and how to restructure security alliances. They conclude by considering the prospects for further regime change from democracies to hybrid systems and the implications for the future of the European Union.

Post-Soviet Conflict Potentials Cindy Wittke, 2022-08-18
Instead of resurrecting old images and nourishing new narratives about a New Cold War, *Post-Soviet Conflict Potentials* features politically and legally oriented critical investigations into conflict potentials and dynamics in the post-Soviet region and beyond. Contributions coming from the disciplinary perspectives of international relations, international law and comparative political science are linked to investigations dealing with international, transnational, regional and local levels of the dynamics between conflict and cooperation in the region. Despite the diversity of perspectives, the authors of this volume take a shared critical view on an alleged New Cold War as their point of departure, observing that contemporary post-Soviet conflict potentials are produced through various discursive practices ranging from intentional choices of belligerent language to unintentional misinterpretations. The chapters in this volume seek to shed light on conflict potentials from different angles as well as on processes that increase or decrease the probability of political and violent conflicts in the post-Soviet region. Together, the authors offer individual and shared, outside-the-box approaches to the study of conflict dynamics and potentials in the post-Soviet space. The book draws connections to conflict potentials on the cross-regional and global levels, providing varied perspectives on what can be learned in and from the post-Soviet region. The chapters in this book were originally published as a special issue of *Europe Asia Studies*.

Russia and the Third World in the Post-Soviet Era Mohiaddin Mesbahi, 1994
A fine job of placing the shifting Russian foreign policy paradigm in regional and global contexts. Just the right mix of theory and policy prescriptions. Nader Entessar, Spring Hill College, Mobile. What makes this volume unique and interesting is the rich diversity of its contributors. They clearly represent different ideological persuasions, come from different nations, belong to different generations and have varied experiences. Mohsen Milani, University of South Florida, Tampa. A superbly edited and well designed volume. The contributions are first rate. This book will benefit both scholars and students alike and it is ideal for classes in Russian foreign policy and international relations of the Third world in the post-Soviet period. Marie Bennigsen Broxup, editor of *Central Asian Survey*. The collapse of the Soviet Union and the end of the

Cold War mark a revolutionary watershed in Russia's relations with the Third World. With essays from leading experts, many of them policy makers in today's Russia, this timely book contributes to debate on some of the most important political, social, and economic developments in the field of international relations.

UPF *Post Cold War European Order and South Asia* Naveed Ahmad Tahir, 1996
[Russia, China and the West in the Post-Cold War Era](#) Suzanne Loftus, 2023-05-22

This book analyzes international affairs in the post-Cold War era by taking a special look at identity, norms, and interests, and the limits of liberal normative universalism. The book assesses the causes of the deterioration of Russian-Western relations, the management of the liberal international order, the challenges liberal democracies face today, the rise of China and its consequences on global governance, and the war in Ukraine as an outcome of the dynamics described throughout the book. China and Russia represent different normative frameworks; they have their own national interests, have increased their relative strength and influence, and represent alternative economic and diplomatic partners for the Global South. Meanwhile, rising populist sentiment in western liberal democracies reflects important dissatisfaction with establishment policies. This research is particularly important for crafting creative solutions to the dynamic changes of the 21st century and the rise of nonwestern powers with different identities, interests, and norms.
