Zondervan,2019-11-26 Thinking Clearly and Deeply about the Theology of God s Intervention in the World The claim that God acts in the world is surely a basic theological claim but it s one that has been understood in a wide variety of ways in the Christian theological tradition In some accounts God appears as the largest first and most powerful agent In others God is portrayed as the transcendent ground of all finite agency while never acting on the same plane as other agents Divine Action and Providence represents the proceedings of the seventh annual Los Angeles Theology Conference which invited theologians across Christian traditions to contribute their constructive accounts and proposals to the theology of God s

relation to and intervention in the world The eleven diverse essays in this collection include discussions on The particularity and detail of divine action Recovering the identity of the God of providence The theological meaning of the course of history The nature of omnipotence Each of the essays collected in this volume engage with Scripture as well as with others in the field theologians both past and present from different confessions in order to provide constructive resources for contemporary systematic theology and to forge a theology for the future

The Community of the Weak Hans-Peter Geiser, 2013-03-28 Social postmodernism and systematic theology can be considered the new pair in some of the most creative discussions on the future of theological method on a global scale Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism the social the postmodern and the theological intermingle in engaging and border crossing ways The Community of the Weak presents a new kind of jazzy fundamental theology with a postmodern touch using jazz as a metaphor writing ethnographically messy texts out of the personal windows of lived experiences combining fragments of autobiography with theological reconstruction A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts The author proposes a systematic and fundamental theology that is more jazzy global and narrative deeply embedded in pastoral ministry to tell its postmodern story

The Politics of Knowledge Patrick Baert, Fernando Domínguez Rubio, 2013-03 This volume explores how the relation between knowledge and the political is developing in the rapidly evolving context of knowledge societies By analysing how the traditional boundaries and categories of the political are being
