Santa Clara Valley California An Artists View Today Yesterday:

Italians in the Santa Clara Valley Frederick W. Marrazzo, 2007 Attracted by the mild climate and abundance of fertile land Italians came to the Santa Clara Valley from all regions of Italy including Sicily Calabria Basilicata Tuscany and Piedmont Beginning in the 1880s the Eden of the World beckoned Italian immigrants as farmers ranchers orchardists vegetable growers and winemakers Italian men women and children filled the numerous canneries and packinghouses supplying the rest of the nation with fresh produce Once the largest ethnic group in the valley Italians impact on the region has been profound yet is often overlooked The photographs in this book present a special glimpse into the lives of a people whose irrepressible optimism kindness and can do spirit overcame the challenges and obstacles put before them **New Arrivals in Californiana**, 1984 **Santa Clara Valley, California** Anthony Quartuccio, 1986 *Santa Clara Valley-California* Anthony Quartuccio, 1986-03-01 **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954** United States. Internal Revenue Service, 2002 *Garden of the World* Cecilia M. Tsu, 2013-06-01 Nearly a century before it became known as Silicon Valley the Santa Clara Valley was world renowned for something else the succulent fruits and vegetables grown in its fertile soil In *Garden of the World* Cecilia Tsu tells the overlooked intertwined histories of the Santa Clara Valley s agricultural past and the Asian immigrants who cultivated the land during the region s peak decades of horticultural production Weaving together the story of three overlapping waves of Asian migration from China Japan and the Philippines in the nineteenth and twentieth centuries Tsu offers a comparative history that sheds light on the ways in which Asian farmers and laborers fundamentally altered the agricultural economy and landscape of the Santa Clara Valley as well as white residents ideas about race gender and what it meant to be an American family farmer At the heart of American racial and national identity in the nineteenth and twentieth centuries was the family farm ideal the celebration of white European American families operating independent self sufficient farms that would contribute to the stability of the nation In California by the 1880s boosters promoted orchard fruit growing as one of the most idyllic incarnations of the family farm ideal and the lush Santa Clara Valley the finest location to live out this agrarian dream But in practice many white growers relied extensively on hired help which in the late nineteenth and early twentieth centuries was largely Asian Detailing how white farmers made racial and gendered claims to defend their dependence on nonwhite labor how those claims shifted with the settlement of each Asian immigrant group and how Chinese Japanese and Filipinos sought to create their own version of the American dream in farming Tsu excavates the social and economic history of agriculture in this famed rural community to reveal the intricate nature of race relations there **The Californians**, 1987 *Urban Spaces in Contemporary China* Deborah Davis, 1995-07-28 Explores the impact of post Mao reforms on the economic social and cultural dimensions of China s cities [The Annual Index to The Times](#), 1913 [Catalogue of the Gallery of Art and Archæology in the University of Michigan](#) University of Michigan. Architecture,2009 Features the latest trends in architecture showcasing the work of STUDIOS Architecture The Mobilized American West, 1940-2000 John M. Findlay,2023-07 In the years between 1940 and 2000 the American Far West went from being a relative backwater of the United States to a considerably more developed modern and prosperous region one capable of influencing not just the nation but the world By the dawn of the twenty first century the population of the West had multiplied more than four times since 1940 and western states had transitioned from rural to urban becoming the most urbanized section of the country Massive investment both private and public in the western economy had produced regional prosperity and the tourism industry had undergone massive expansion altering the ways Americans identified with the West In The Mobilized American West 1940 2000 John M Findlay presents a historical overview of the American West in its decades of modern development During the years of U S mobilization for World War II and the Cold War the West remained a significant distinct region even as its development accelerated rapidly and in many ways it became better integrated into the rest of the country By examining events and trends that occurred in the West Findlay argues that a distinctive region wide political culture developed in the western states from a commitment to direct democracy the role played by the federal government in owning and managing such a large amount of land and the way different groups of westerners identified with and defined the region While illustrating western distinctiveness Findlay also aims to show how in its sustaining mobilization for war the region became tethered to the entire nation more than ever before but on its own terms Findlay presents an innovative approach to viewing the American West as a region distinctive of the United States one that occasionally stood ahead of at odds with and even in defiance of the nation **Uninvited Neighbors** Herbert G. Ruffin,2014-03-28 In the late 1960s African American protests and Black Power demonstrations in California s Santa Clara County including what s now called Silicon Valley took many observers by surprise After all as far back as the 1890s the California constitution had legally abolished most forms of racial discrimination and subsequent legal reform had surely taken care of the rest White Americans might even have wondered where the black activists in the late sixties were coming from because beginning with the writings of Fredrick Jackson Turner the most influential histories of the American West simply left out African Americans or later portrayed them as a passive and insignificant presence Uninvited Neighbors puts black people back into the picture and dispels cherished myths about California s racial history Reaching from the Spanish era to the valley s emergence as a center of the high tech industry this is the first comprehensive history of the African American experience in the Santa Clara Valley Author Herbert G Ruffin II s study presents the black experience in a new way with a focus on how despite their smaller numbers and obscure presence African Americans in the South Bay forged

communities that had a regional and national impact disproportionate to their population. As the region industrialized and spawned suburbs during and after World War II, its black citizens built institutions such as churches, social clubs, and civil rights organizations and challenged socioeconomic restrictions. Ruffin explores the quest of the area's black people for the postwar American Dream. The book also addresses the scattering of the black community during the region's late yet rapid urban growth after 1950, which led to the creation of several distinct black suburban communities clustered in metropolitan San Jose. Ruffin treats people of color as agents of their own development and survival in a region that was always multiracial and where slavery and Jim Crow did not predominate but where the white embrace of racial justice and equality was often insincere. The result offers a new view of the intersection of African American history and the history of the American West.
