The British Press and the Greek Crisis, 1943-1949 Gioula Koutsopanagou,2020-02-01 This book provides the first detailed analysis of how interactions between government policy and Fleet Street affected the political coverage of the Greek civil war one of the first major confrontations of the Cold War During this period the exponential growth of media influence was an immensely potent weapon of psychological warfare Throughout the 1940s the press maintained its position as the most powerful medium and its influence remained unchallenged The documentary record shows that a British media consensus was more fabricated than spontaneous and the tools of media persuasion and manipulation were extremely important in building acceptance for British foreign policy Gioula Koutsopanagou examines how this media consensus was influenced and molded by the British government and how Foreign Office channels were key to molding public attitudes to British foreign policy These channels included system of briefings given by the News Department to the diplomatic correspondents and the contacts between embassies and the British foreign correspondents

The Greek Civil War David H. Close, 2014-01-14 The Greek Civil War 1943-50 was a major conflict in its own right developing out of the rivalry between communist and conservative partisans for control of Greece as the Axis forces retreated at the end of the Second World War Spanning the transition from World War to Cold War it also had major international consequences in keeping Greece alone of all the Balkan nations out of the Communist bloc and stopping the Soviets reaching the Mediterranean Yet it has received less attention than it deserves from historians In this striking and original study David Close does justice to both the domestic context of the conflict and also to its international significance
