The contributors to this volume reconsider Engels theories and review evidence from those societies that have attempted to implement his belief that the key to the emancipation of women lies in their entry to social production *Norbert Elias's Lost Research* Mr John Goodwin, Dr Henrietta O'Connor, 2015-09-28 Based on the re discovery of a lost sociological project led by Norbert Elias at the University of Leicester this book re visits the project The Adjustment of Young Workers to Work Situations and Adult Roles Norbert Elias s Lost Research makes use of the interview booklets documenting the lives of nearly 900 Leicester school leavers at the time to give a unique account of Elias s only foray into large scale publicly funded research *Gender, Genre, and the Romantic Poets* Philip Cox, 1996 This book offers new insights into the ambiguous masculinity within male romantic poetry discussing the work of Byron Wordsworth Shelley Keats and Coleridge among others *Cultural Amnesia* Stephen Bertman, 2000-02-28 Applying the metaphor of Alzheimer s disease to our national state of mind Bertman offers a chilling prognosis for our country s future unless radical steps for recovery are taken He looks beyond the classroom to the larger social forces that conspire to alienate Americans from their past a materialistic creed that celebrates transience and disposability and an electronic faith that worships the present to the exclusion of all other dimensions of time Jacket **Army at Home** Judith Giesberg, 2009-09-01 Introducing readers to women whose Civil War experiences have long been ignored Judith Giesberg examines the lives of working class women in the North for whom the home front was a battlefield of its own Black and white working class women managed farms that had been left without a male head of household worked in munitions factories made uniforms and located and cared for injured or dead soldiers As they became more active in their new roles they became visible as political actors writing letters signing petitions moving or refusing to move from their homes and confronting civilian and military officials At the heart of the book are stories of women who fought the draft in New York and Pennsylvania protested segregated streetcars in San Francisco and Philadelphia and demanded a living wage in the needle trades and safer conditions at the Federal arsenals where they labored Giesberg challenges readers to think about women and children who were caught up in the military conflict but nonetheless refused to become its collateral damage She offers a dramatic reinterpretation of how America s Civil War reshaped the lived experience of race and gender and brought swift and lasting changes to working class family life

Love Canal Revisited Elizabeth D. Blum, 2008-03-19 Thirty years after the headlines Love Canal remains synonymous with toxic waste When this neighborhood of Niagara Falls New York burst upon the nation's consciousness the media focused on a working class white woman named Lois Gibbs who gained prominence as an activist fighting to save families from the poison buried beneath their homes Her organization the Love Canal Homeowners Association challenged big government and big business and ultimately won relocation But as Elizabeth Blum now shows the activists at Love Canal were a very diverse lot Blum reveals that more lurks beneath the surface of this story than most people realize and more than mere toxins She takes readers behind the headlines to show that others besides Gibbs played important roles and to examine how race class and gender influenced the way people from African American women to middle class white Christian groups experienced the crisis and became active at Love Canal Blum explores the often rocky interracial relationships of the community revealing how marginalized black women fought to be heard as they defined their environmental activism as an ongoing part of the civil rights struggle And she examines how the middle class Ecumenical Task Force consisting of progressive educated whites helped to negotiate legal obstacles and to secure the means to relocate and compensate black residents Blum also demonstrates how the crisis challenged gender lines far beyond casting mothers in activist roles Women of the LCHA may have rejected feminism because of its anti family stance but they staunchly believed in their rights And the incident changed the lives of working class men who found their wives in the front lines rather than in the kitchen In addition male bureaucrats and politicians ran into significant opposition from groups of both men and women who pressed for greater emphasis on health rather than economics for solutions to the crisis No previous account of Love Canal has considered the plight of these other segments of the population By doing so Blum shows that environmental activism opens a window on broader social movements and ideas such as civil rights and feminism Her book moves the story of Love Canal well beyond its iconic legacy the Superfund Act that makes polluters accountable to highlight another vital legacy one firmly rooted in race class and gender
