Lost Lands Mythical Kingdoms And Unknown Worlds:

Lost Lands, Mythical Kingdoms, and Unknown Worlds Val Warren, 1979 **REFLECTIONS OF A "B"- MOVIE JUNKIE** Jim Driscoll, 2008-12-30 Reflections Of A B Movie Junkie is a tribute to the old B Movies of the Saturday Matinees of yesteryear. Actually it is more of a homage to them or at least 6 genres of those film types that were so prevalent back in primarily the 40s and 50s. Their research and discussion however in some instances dates all the way back to the beginning of the talkies of motion picture content and can extend in the other direction into the early 70s. These 6 genres include the popular B Western, The Comedy Teams, The Jungle Adventures, Sci Fi, Fantasy, Horror, and the Serial or Chapter Plays so popular with the week end Matinee crowds back then. These film types filled up our Saturday afternoons and evenings with exciting, adventure, curious, wonder, spine tingling, horror, and non stop action. Often filmed on a shoe string budget and in a limited time frame, many of these classics came to be looked upon by many fans as being so truly bad that they were good in a bad sort of way. They are thus categorized, reviewed, and discussed for the most part in a lovingly personal style, especially when compared to the film types we are subjected to in today's market. They had their place in film history and that time is long since gone. But for some of us, they have never been equaled, which for others may indeed be a good thing. **Sport and Film** Seán Crosson, 2013-07-18 The sports film has become one of commercial cinema's most recognizable genres. From classic boxing films such as *Raging Bull* 1980 to soccer themed box office successes like *Bend It Like Beckham* 2002, the sports film stands at the interface of two of our most important cultural forms. This book examines the social, historical, and ideological significance of representations of sport in film internationally, an essential guide for all students and enthusiasts of sport film, media, and culture. *Sport and Film* traces the history of the sports film from the beginnings of cinema in the 1890s, its consolidation as a distinct fiction genre in the mid 1920s in Hollywood films such as Harold Lloyd's *The Freshman* 1925 to its contemporary manifestation in Oscar winning films such as *Million Dollar Baby* 2004 and *The Fighter* 2010. Drawing on an extensive range of films as source material, the book explores key issues in the study of sport film and wider society, including race, social class, gender, and the legacy of 9/11. It also offers an invaluable guide to reading a film to help students fully engage with their source material. Comprehensive, authoritative, and accessible, this book is an important addition to the literature in both film and media studies, sport studies, and cultural studies more generally. **Lost Worlds** John Howe, 2009-11-10 Cover has a circular plastic covered opening. *Ellery Queen's Mystery Magazine*, 1980 *Science Fiction and Fantasy Literature, 1975-1991* R. Reginald, Mary Wickizer Burgess, Daryl Furumi Mallett, 1992 Science fiction constitutes one of the largest and most widely read genres in literature, and this reference provides bibliographical data on some 20,000 science fiction, fantasy, and horror fiction books, as well as nonfiction monographs about the literature. A companion to Reginald's *Science Fiction and Fantasy Literature 1700-1974* Gale 1979, the present volume is alphabetically arranged by approximately 10,000 author names. The entry for each individual work includes title, publisher, date, and place.

An Unnatural History of Religions Leonardo Ambasciano, 2018-12-27 An Unnatural History of Religions examines the origins development and critical issues concerning the history of religion and its relationship with science The book explores the ideological biases logical fallacies and unwarranted beliefs that surround the scientific foundations or lack thereof in the academic discipline of the history of religions positioning them in today's post truth culture Leonardo Ambasciano provides the necessary critical background to evaluate the most important theories and working concepts dedicated to the explanation of the historical developments of religion He covers the most important topics and paradigm shifts in the field such as phenomenology postmodernism and cognitive science These are taken into consideration chronologically each time with case studies on topics such as shamanism gender biases ethnocentrism and biological evolution Ambasciano argues that the roots of post truth may be deep in human biases but that historical justifications change each time resulting in different combinations The surprising rise of once fringe beliefs such as conspiracy theories pseudoscientific claims and so called scientific creationism demonstrates the alarming influence that post truth ideas may exert on both politics and society Recognising them before they spread anew may be the first step towards a scientifically renewed study of religion
