Practical Theology and Majority World Epistemologies Alfred Brunsdon,Calida Chu,2024-11-08 This book offers insights into the thinking of majority world practical theologians and introduces the reader to faith realities previously unknown in a quest to create a more inclusive and welcoming practical theological network Practical theologians are situated in all corners of the globe attempting to make sense of their lived experiences and of those around them from a faith perspective Historically practical theology tended to be constructed from academics situated in the West and indirectly marginalized those in and from the majority world Against this backdrop this book is a deliberate attempt to empower practical theological voices from the further corners of the global village based upon the conviction that sharing epistemologies creates an opportunity not only to

learn about others and the contexts in which they live but from them enhancing the meaning making of practical theology in the present Cognisant that epistemology as a formal discipline does not always centre lived experience practical theology has historically prioritised the importance of wisdom worldview and a way of life for individual and collective knowing The diverse issues addressed in this work offers insights into the thinking of mainly Asian and African practical theologians and introduces readers to the faith realities previously unknown to create a more inclusive and welcoming practical theological network This book was originally published as a special issue of the journal Practical Theology

Responding to Chaos David N Buck,2014-04-04 A celebration of a unique culture and its experience of design this sensitive text is a timely examination of Japanese design at the start of a new century The country s economic boom in the 1980s produced a surge of interest in land and building and consequently in design in all its forms From restaurant interiors to products from private housing to recreational spaces design received an unprecedented degree of attention However the bursting in the early 1990s of this so called bubble economy has prompted a re examination of design and its role in urban society **Intersect** ,1991 Truth from a Lie Margaret Key,2011-05-05 Critics typically regard Abe Kobo 1924-93 as writing against realism due to his avant garde aesthetics that challenged the Naturalist realism dominating the literary mainstream and the Socialist realism of the orthodox Left in postwar Japan He considered his work thoroughly realist however and starting in the early 1950s in a series of avant garde art and literary groups he championed the possibility of a vital contemporary realism that challenged the reader to question the reality represented in the text through increasingly self conscious writing strategies Through a reassessment of the texts in which he worked out his theory of realism this study traces the development of his commitment to making truth from a lie to fiction drama and reportage that openly display their artifice Key argues that the reflexivity of Abe s texts which lay bare their own processes of artificial construction in order to reflect how our everyday sense of reality is constructed and maintained created a critical space for metatextual ideas that were not acknowledged by the literary establishment of his time and have yet to be recognized by critics today Undergirding his theory and practice of realism was a critique of conventional documentary and of the classic detective story The texts examined here expose the degree to which the documentarian and the detective are active fabricators of meaning rather than neutral observers of fact By paying close attention to the tension between the documentary and the fictive in Abe s works Key draws out the ethical implications of his documentary approach arguing persuasively that the documentary qualities of his writing such as its valorization of objectivity over psychologism and the realm of concrete things over abstraction are strategies for challenging the dominant assumptions about what constitutes good ethics and good art as well as the relationship between these two spheres Truth from a Lie explores the ways in which Abe put documentary and the de
