Flam, Miriam Deutch, 2003 This is a much needed important collection a goldmine of sources for scholars and students The texts articulate the key Primitivist aesthetic discourses of the period offering crucial insight into the complex and always changing nexus between culture politics and representation Because of the breadth of the materials covered and the controversies they raise this anthology is one of the all too rare volumes that not only will provide reference materials for years to come but also will feature centrally in classroom discussions Suzanne Preston Blier author of *African Vodun Art Psychology and Power* For almost a century art historians have fretted about the notion of primitivism in the arts This comprehensive in both senses of the word anthology is a peerless source of the history of responses to works categorized as primitive In its range the book touches upon all the troubling questions formal anthropological political historical that have bedeviled the study of the arts of Oceania Africa and North and South America and provides the grounds at last for intelligent pursuit of keener distinctions I regard this book as a superb contribution to the study of Modern art in fact indispensable Dore Ashton author of *Noguchi East and West* An extraordinarily useful and complete collection of primary documents many translated for the first time into English and almost all unlikely to be encountered elsewhere without serious effort Its five sections each with a lively and scholarly introduction reveal the diverse views of artists and writers on primitive art from Matisse Picasso and Fry to many far less known and sometimes surprising figures The book also uncovers the politics and aesthetics of the major museum exhibitions that gained acceptance for art that had been both reviled and mythologized Recent texts included are all germane This book will be invaluable for any college course on the topic Shelly Errington author of *The Death of Authentic Primitive Art and Other Tales of Progress* An exceptionally valuable anthology of seventy documents most heretofore unavailable in English on the ongoing controversies surrounding Primitivism and Modern

art Insightfully chosen and annotated the collection is brilliantly introduced by Jack Flam's essay on the historical progression contexts and cultural complexities of more than one hundred years' ideas about Primitivism. Rich, timely illuminating Herbert M. Cole, author of *Icons, Ideals and Power in the Art of Africa*. Japanese Design Patricia J. Graham, 2014-09-30 Winner Choice Magazine Outstanding Academic Title 2015 This Japanese design book presents the arts, aesthetics and culture of Japan with over 160 stunning color photos and extensive historical and cultural commentary. The Japanese sensibility often possesses an intuitive emotional appeal, whether it's a silk kimono, a carefully raked garden path, an architectural marvel, a teapot or a contemporary work of art. This allure has come to permeate the entire culture of Japan; it is manifest in the most mundane utensil and snack food packaging as well as in Japanese architecture and fine art. In *Japanese Design*, Asian art expert and author Patricia J. Graham explains how Japanese aesthetics, based on fine craftsmanship and simplicity, developed. Her unusual full-color presentation reveals this design aesthetic in an absorbing way. Focusing on ten elements of Japanese design, Graham explores how visual qualities, the cultural parameters and the Japanese religious traditions of Buddhism and Shinto have impacted the appearance of its arts. *Japanese Design* is a handbook for the millions of us who have felt the special allure of Japanese art, culture and crafts. Art and design fans and professionals have been clamoring for this, a book that fills the need for an intelligent, culture-rich overview of what Japanese design is and means. Topics explored in *Japanese Design* include: The Aesthetics of Japanese Design; The Cultural Parameters of Japanese Design; Early Promoters of Artistic Japan, 1830s-1950s. **Departments of Commerce, Justice, and State, the Judiciary, and related agencies appropriations for 1989** United States. It focuses on the proliferation, network and operation of Japanese Film Festivals (JFFs) in the Asia-Pacific from the late 1970s until 2020. Through case examples in Australia, Malaysia and Thailand, the book explores how the formation and recent developments of JFFs in the region reflect wider changes in the function of Japanese cultural diplomacy through films, particularly with the intensification of economic, cultural and diplomatic opportunities presented in this geopolitical space.
