*Democracy in Small States* Jack Corbett,Wouter Veenendaal,2018-09-20 Populism and the personalization of politics appears to be threatening the existence of democracy as we know it all over the world It is now more important than ever to understand the history of this form of regime why it has thrives and fails But existing studies are limited by their focus on a few large and predominately rich states This book takes the opposite approach it investigates how politics is practiced in the smallest states where hyper personalization has always been a ubiquitous feature of political life It optimistically finds that hyper personalized democracy can actually persist against all odds but also cautions that political practices in small states are often markedly different to larger states Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Senior Research Fellow Nuffield College University of Oxford

Foreign Judges in the Pacific Anna Dziedzic,2021-11-04 This book explores the use of foreign judges on courts of constitutional jurisdiction in 9 Pacific states Fiji Kiribati Nauru Papua New Guinea Samoa Solomon Islands Tonga Tuvalu and Vanuatu We often assume that the judges sitting on domestic courts will be citizens However across the island states of the Pacific over three quarters of all judges are foreign judges who regularly hear cases of constitutional legal and social importance This has implications for constitutional adjudication judicial independence and the representative qualities of judges and judiciaries Drawing together detailed empirical research legal analysis and constitutional theory it traces how foreign judges bring different dimensions of knowledge to bear on adjudication face distinctive burdens on their independence and hold only an attenuated connection to the state and its people It shows how foreign judges have come to be understood as representatives of a transnational profession with its own transferrable judicial skills and values Foreign Judges in the Pacific sheds light on the widespread but often unarticulated assumptions about the significance of nationality to the functions and qualities of constitutional judges It shows how the nationality of judges matters not only for the legitimacy and effectiveness of the Pacific courts that use foreign judges but for legal and theoretical scholarship on courts and judging
