Pacific Islands Food Composition Tables:

The Pacific Islands Food Composition Tables Cecily A. Dignan, Food and Agriculture Organization of the United Nations, 2004 Traditional Pacific Island diets were diverse and nutritionally appropriate In recent decades Pacific Islanders have experienced many changes in lifestyle and diet Most of the dietary changes have not been for the better and have contributed to the burden of malnutrition throughout the Pacific which manifests itself as undernourishment and vitamin deficiencies and also overweight and obesity diabetes and heart disease The vast natural biodiversity of food plants and animals represent an asset that is sadly neglected Food composition activities provide a focus on the nutrient content of individual cultivars wild and cultivated that will add to the impetus to preserve its rich diversity for the food security of the region The food composition data presented in this document are fundamental to food trade agriculture policy development nutrition education and setting and achieving nutrition goals and guidelines Food Composition Tables for Use in the Pacific Islands ,1983 *Food Composition Tables for Use in the Pacific Islands* South Pacific Commission. Nollet, Fidel Toldra, 2009-11-24 Seafood and seafood products represent some of the most important foods in almost all types of societies around the world More intensive production of fish and shellfish to meet high demand has raised some concerns related to the nutritional and sensory qualities of these cultured fish in comparison to their wild catch counterparts In addition to **Food Composition Data** H. Greenfield, 2013-03-09 About twenty years ago there was a recognition in Europe that real benefits would flow from

coordinating the manner in which food composition tables were produced in the various countries of Europe Subsequent development of computerised nutritional data bases has further highlighted the potential advantages of working together Such cooperation could lead to improved quality and compatibility of the various European nutrient data bases and the values within them This realisation was one of the driving forces behind the development of the Eurofoods initiative in the 1980 s when those people in Europe interested in data on food composition began working together This initiative received further impetus with the establishment of the Eurofoods Infant Concerted Action Project within the framework of the FLAIR Food Linked Agro Industrial Research Programme of the Commission of the European Communities It was quickly recognised that the draft guidelines for the production management and use of food composition data which had been prepared under the aegis of INFOODS International Network of Food Data Systems a project of the United Nations University would be especially applicable to the objectives of the Concerted Action The guidelines have been written by two recognised experts Many people associated with FLAIR Eurofoods Infant have added constructive criticism and advice to that offered previously by those associated with INFOODS Thus the guidelines are backed by a consensus in the community of those responsible for the production and use of food composition tables and nutrient data bases **Nutritional**
