Pacific Tapa:

Pacific Tapa Roger Neich, Mick Pendergrast, 2005-01-31 Auckland Museum's collection of tapa cloth from around the Pacific is one of the most extensive in the world and it forms the basis of this comprehensive survey **Once Were Pacific** Alice Te Punga Somerville, 2012 Explores the relationship between indigeneity and migration among Maori and Pacific peoples The Pacific Arts of Polynesia and Micronesia Adrienne L. Kaeppler, 2008-03-27 The Pacific Ocean covers one third of the earth's surface. Comprising thousands of islands and hundreds of cultural groups, Polynesia and Micronesia cover a large part of this vast ocean from the dramatic mountains of Hawaii to the small flat coral islands of Kiribati. Including both traditional and contemporary arts, this book introduces the rich artistic traditions of these two regions, traditions that have had a considerable impact on western art in the twentieth century through the influence of artists such as Gauguin. Instead of looking at Polynesia and Micronesia separately, the book focuses on the artistic types, styles, and concepts that they share, placing each in its wider cultural context. From the textiles of Tonga to the canoes of Tahiti, Adrienne Kaeppler looks at religious and sacred rituals and objects, carving, architecture, tattooing, personal ornaments, basket making, clothing, textiles, fashion, the oral arts, dance, music, and musical instruments, even canoe construction, to provide the ultimate introduction to the rich and vibrant artistic cultures of the Polynesian and Micronesian islands **Pacific Magazine**, 2005 **Tapa of the Pacific** Roger Neich, Mick Pendergrast, 2001 The manufacture of tapa barkcloth is an ancient art which has been practised for thousands of years. Auckland Museum's collection of tapa cloth from around the Pacific is one of the most extensive in the world and forms the basis of this comprehensive survey. Pacific Tapa presents a complete range of the art from cloth brought back from the first voyages by Europeans to the Pacific to contemporary examples A Banquet of Books National Library of Australia, 2007 Scattered throughout the astonishing collection of the National Library of Australia are countless gems: beautiful books, ancient books, one of only two in the world, books big, books slim, books published as pamphlets and miniscule books. This describes some of the rare, beautiful, or significant books in the Library's collection **The Pacific Islands** Paul Dichter, 2018-08 Welcome to the Pacific Islands. Join Moana, her friends, and her family as you explore the history, culture, and stories of these great islands **Pacific Ethnomathematics** Nicholas J. Goetzfridt, 2007-09-20 This ground-breaking bibliography by distinguished Pacific researcher Nicholas Goetzfridt examines mathematical concepts and practices in Polynesia, Melanesia, and Micronesia. It covers number systems, counting, measuring, classifying, spatial relationships, symmetry, geometry, and other aspects of ethnomathematics in relation to a wide range of activities such as trade, education, navigation, construction, rituals, and festivals, divination, weaving, tattooing, and music. In compiling nearly five hundred citations, Goetzfridt makes use of the vast resources of writing about the Pacific from the 1700s to the present. In addition to discussing Pacific knowledge systems in general, his introductory chapter includes a helpful overview of the relatively new field of ethnomathematics and important theoretical reflections on the discipline as a research program. Extensive subject and

geographic indexes provide numerous ways to experience the rich heritage and history of Pacific ethnomathematical concepts covered in this book including the 256 possible knotted fates enabled by the Carolinian sky god Supwunumen etak segmentation concepts in stellar based voyaging the highly diverse counting systems of Papua New Guinea the alignment of stone structures with stars to mark the appearance of the equinox and solstice and contemporary educational issues in the standardized teaching of Western mathematics
