Pacific America Lon Kurashige, 2017-07-31 In recent times the Asia Pacific region has far surpassed Europe in terms of reciprocal trade with the United States and since the 1980s immigrants from Asia entering the United States have exceeded their counterparts from Europe reversing a longstanding historical trend and making Asian Americans the country's fastest growing racial group What does transpacific history look like if the arc of the story is extended to the present The essays in this volume offer answers to this question challenging current assumptions about transpacific relations Many of these assumptions are expressed through fear that the ascendance of China threatens a U S led world system and undermines domestic economies that immigrants subvert national unity and that globalization for all its transcending of international cultural and racial differences generates its own forms of prejudice and social divisions that reproduce global and national inequalities The contributors make clear that these fears associated with and induced by pacific integration are not new Rather they are the most recent manifestation of international racial and cultural conflicts that have driven transpacific relations in its premodern and especially modern iterations *Pacific America* differs from other books that are beginning to flesh out the transnational history of the Pacific Ocean in that it is more self consciously a people's history While diplomatic and economic relations are addressed the chapters are particularly concerned with histories from the bottom up including attention to social relations and processes individual and group agency racial and cultural perception and collective memory These perspectives are embodied in the four sections focusing on China and the early modern world circuits of migration and trade racism and imperialism and the significance of Pacific islands The last section on Pacific Islanders avoids a common failing in popular perception that focuses on both sides of the Pacific Ocean while overlooking the many islands in between The chapters in this section take on one of the key challenges for transpacific history in connecting the migration and imperial histories of the United States Japan China Korea Vietnam and other nations with the history of Oceania *Weekly Compilation of Presidential Documents*, 1992 **Asian Pacific Americans and Baseball** Joel S. Franks, 2008-07-15 With the rise of stars such as Hideo Nomo Ichiro Suzuki and now Daisuke Matsuzaka fans today can easily name players from the island country of Japan Less widely known is that baseball has long been played on other Pacific islands in pre statehood Hawaii for instance and in Guam Samoa and the Philippines For the multiethnic peoples of these U S possessions the learning of baseball was actively encouraged some would argue as a means to an unabashedly colonialist end As early as the deadball era Pacific Islanders competed against each other and against mainlanders on the diamond with teams like the Hawaiian Travelers barnstorming the States winning more than they lost against college semi pro and even professional nines For those who moved to the mainland baseball eased the transition helping Asian Pacific Americans create a sense of community and purpose cross cultural borders and for a few achieve fame [Asia-Pacific Regional Security Assessment 2022](#) The International Institute for Strategic Studies (IISS), 2022-06-10 The Asia Pacific Regional Security Assessment

examines key regional security issues relevant to the policy focused discussions of the IISS Shangri La Dialogue Asia's premier defence summit convened by the International Institute for Strategic Studies. It is published each year in association with the Dialogue and the issues analysed within its covers are central to discussions at the event. Among the topics explored are US Indo Pacific strategy alliances and security partnerships, Chinese perspectives on regional security, Taiwan's security and the possibility of conflict, the continuing challenges posed by North Korea's nuclear and missile programmes, the nuclear dynamics of Sino American security relations, air and naval operations in the Asia Pacific, Sino American technology competition, Japan's competition and cooperation with China, India's role in the Quadrilateral Security Dialogue Quad, the evolving regional security engagement of European states and the European Union, China's role as an upstream state in the Mekong sub region and the climate crisis and Asia Pacific security. As this volume goes to press, the war in Ukraine overshadows the international security landscape and many chapters in this volume touch on the conflict's ramifications for security in the Asia Pacific.
