Pacific Ocean Legends Marcus Blackwell, 2025-02-12 Pacific Ocean Legends explores the transformation of the Pacific Ocean from a perceived barrier into a pivotal arena of world history and geopolitics The book highlights the remarkable journeys of Polynesian explorers who used sophisticated navigation techniques to settle remote islands and examines the profound impact of European colonialism on island societies through trade and resource exploitation It further analyzes the Pacific's crucial role in 20th and 21st century conflicts including World War II and the Cold War shaping current international relations with an emphasis on the growing influence of the US and China This book uniquely presents the Pacific's history not as a tale of isolated islands or Western dominance but as a complex interplay of diverse cultures driven by exploration and power struggles It draws from archaeology oral histories and political analyses to offer a nuanced view of the Pacific's past and present Progressing through pre colonial history European arrival and modern geopolitics Pacific Ocean Legends provides a vital understanding of contemporary global dynamics in this economically and strategically important region

The Turbomotive: Stanier's Advanced Pacific Tim Hillier-Graves, 2017-03-30 Turbomotive was unique in Britain's railway history and an experimental engine that proved successful but came too late to effect the direction of steam development or deflect the onset of diesel and electric locomotives It was the brainchild of two of the most influential engineers of the twentieth century William Stanier of the LMS and Henry Guy of Metropolitan Vickers They hoped that turbine power which had already revolutionized ships propulsion and power stations would do the same for the railways When Turbomotive appeared in 1935 she became a PR phenomenon at a time when commercial rivalry between the LMS and the LNER was reaching its height Its launch at Euston in June was accompanied by a great fanfare and much publicity Such was the interest in this revolutionary idea that the engine would attract attention all her life Although producing good but not remarkable performances she remained in service plying her trade between London and Liverpool for longer than anyone predicted Most expected a quick rebuild to conventional form but the coming of war and lack of resources meant that she carried on until 1950 in turbine form Inevitably change came when maintenance costs seemed likely to escalate and rebuilding seemed unavoidable She reappeared in August 1952 part Princess and part Coronation but her new life was cut short by the disaster at Harrow in October Although many thought her repairable she was scrapped to make way for another experimental steam engine This book presents the compulsive and fascinating story of this remarkable locomotive drawn from a wide variety of sources many previously untapped and unpublished including memories of the designers the crew who drove her accountants and hardheaded business men PR teams the press the passengers and many

Robert Louis Stevenson in the Pacific Roslyn Jolly, 2016-12-05 Robert Louis Stevenson's departure from Europe in 1887 coincided with a vocational crisis prompted by his father's death Impatient with his established identity as a writer Stevenson was eager to explore different ways of writing at the same time that living in the Pacific stimulated a range of latent intellectual and political interests Roslyn Jolly examines the crucial period from 1887 to 1894 focusing on the self transformation wrought in Stevenson's Pacific travel writing and political texts Jolly shows how Stevenson's desire to understand unfamiliar Polynesian and Micronesian cultures and to record and intervene in the politics of Samoa gave him opportunities to use his legal education pursue his interest in historiography and experiment with anthropology and journalism Thus as his geographical and cultural horizons expanded Stevenson's professional sphere enlarged as well stretching the category of authorship in which his successes as a novelist had placed him Rather than enhancing his stature as a popular writer however Stevenson's experiments with new styles and genres and the Pacific subject matter of his later works were resisted by his readers Jolly's analysis of contemporary responses to Stevenson's writing gleaned from an extensive collection of reviews many of which are not readily available provides fascinating insights into the interests obsessions and resistances of Victorian readers As Stevenson sought to escape the vocational straightjacket that confined him his readers just as strenuously expressed their loyalty to outmoded images of Stevenson the author and their distrust of the new guises in which he presented himself
