## **Pacific Journeys:**

Pacific Journeys John Dunmore, 2005 This volume of studies on the Pacific most of which relate to the French presence and influence in the region has been planned as a tribute to the invaluable role John Dunmore has had in advancing historical knowledge of the Pacific and encouraging scholarly interest in this field *The Pacific Islands* Brij V. Lal, Kate

Fortune, 2000-01-01 An encyclopaedia of information on major aspects of Pacific life including the physical environment peoples history politics economy society and culture The CD ROM contains hyperlinks between section titles and sections a library of all the maps in the encyclopaedia and a photo library **Pacific Histories** David Armitage, Alison

Bashford, 2014-01-23 The first comprehensive account to place the Pacific Islands the Pacific Rim and the Pacific Ocean into the perspective of world history A distinguished international team of historians provides a multidimensional account of the Pacific its inhabitants and the lands within and around it over 50 000 years with special attention to the peoples of Oceania It providing chronological coverage along with analyses of themes such as the environment migration and the economy religion law and science race gender and politics Iberian Visions of the Pacific Ocean, 1507-1899 R. Buschmann, 2014-10-28 In

this work Buschmann incorporates neglected Spanish visions into the European perceptions of the emerging Pacific world The book argues that Spanish diplomats and intellectuals attempted to create an intellectual link between the Americas and the Pacific Ocean **Middlebrow Modernism** Melinda J. Cooper, 2022-10-01 Eleanor Dark 1901 85 is one of Australia s most innovative 20th century writers Her extensive oeuvre includes ten novels published from the early 1930s to the late 1950s and represents a significant engagement with global modernity from a unique position within settler culture Yet Dark s contribution to 20th century literature has been undervalued in the fields of both Australian literary studies and world literature Although two biographies have been written about her life there has been no book length critical study of her writing published since 1976 Middlebrow Modernism counters this neglect by providing the first full length critical survey of Eleanor Dark s writing to be published in over four decades Focusing on the fiction that Dark produced during the interwar years and reading this in the context of her larger body of work this book positions Dark s writing as important to the study of Australian literature and global modernism Melinda Cooper argues that Dark s fiction exhibits a distinctive aesthetic of middlebrow modernism which blends attributes of literary modernism with popular fiction It seeks to mediate and reconcile apparent binaries modernism and mass culture liberal humanism and experimental aesthetics settler society and international modernity The term middlebrow modernism also captures the way Dark negotiated cosmopolitan commitments with more place based attachments to nation and local community within the mid 20th century Middlebrow Modernism posits that Dark s fiction and the broader phenomenon of Australian modernism offer essential case studies for larger debates operating within global modernist and world literature studies providing perspectives these fields might otherwise miss

**Producing the Pacific** Mercedes Maroto Camino, 2005 This volume offers the reader an interdisciplinary reading of the maps narratives and rituals related to the three Spanish voyages to the South Pacific that took place between 1567 and 1606 These journeys were led by Alvaro de Mendana Pedro Fernandez de Quiros and Isabel Barreto the first woman ever to become admiral of and command a fleet Mercedes Maroto Camino presents a cultural analysis of these journeys and takes issue with some established notions about the value of the past and the way it is always rewritten from the perspective of the present She highlights the social political and cultural environment in which maps and narratives circulate suggesting that their significance is always subject to negotiation and transformation

**Dark Paradise** Fuller Jennifer Fuller, 2016-05-31 Examines the way in which the British transformed the Pacific islands during the nineteenth century The discovery of the Pacific islands amplified the qualities of mystery and exoticism already associated with foreign islands Their savage peoples their isolation and their sheer beauty fascinated British visitors across the long nineteenth century Dark Paradise argues that while the British originally believed the islands to be commercial paradises or perfect sites for missionary endeavours as the century progressed their optimistic vision transformed to portray darker realities As a result these islands act as a breaking point for British theories of imperialism colonialism and identity The book traces the changing British attitudes towards imperial settlement as the early view of island as paradise gives way to a fear of the hostile islanders and examines how this revelation undermined a key tenant of British imperialism that they were the superior or civilized islanders

**Key Features** The first monograph to trace the Pacific islands as represented through the lens of British fiction and non fiction across the long nineteenth century Examines texts written by Pacific islanders and published in the British press Significantly broadens our understanding of the British Pacific by analysing understudied Pacific texts and authors alongside more canonical works

*Where the Waves Fall* K.R. Howe, 2023-05-03 *Where the Waves Fall* 1984 centres the stories of the Pacific Islanders and how they were affected by European explorers and colonisers in this unique account of human settlement and cultural interchange in the Pacific islands It follows the fortunes of the seafarers who discovered island after island in the world's largest ocean traces the development of their civilisations and examines in depth the interaction between them and the newcomers European explorers traders beachcombers missionaries merchants who from the sixteenth century came in an increasing series of waves The book's framework enables the author to throw new light on hitherto isolated events Novel suggestions are advanced as to why some islands became kingdoms in the earlier years of European contact and why others did not and of how and why missionaries were accepted on some islands but not on others Nor does Professor Howe shrink from provocative and at times controversial arguments concerning the ambitions and strategies of island leaders and indeed the overall nature and extent of the initiatives taken by the islanders

A. Yeoh, 2018-08-15 This edited collection interrogates the diversity of transnational migration experiences in the Asia Pacific through the lens of digital ethnography in order to explore the transformative effects digital media plays in these experiences While there has been work on the various ways in which internet communication technologies ICTs particularly mobile communication allows for various forms of connectivity between individuals and groups in this age of hyper transnational mobility there is a scarcity on the way digital media presents challenges creates agency and alters relationships within the broad umbrella of the transnational migration experience The authors in this collection who come from diverse disciplinary backgrounds across social cultural education and communication research present cutting edge cross and trans disciplinary analyses of transnational migration where digital media becomes a creative if not fundamental avenue for migrants to develop new strategies for dealing with their cross border mobilities **A Cultural Analysis of Mobile Communities on Board Cruise Ships** Colin Symes, 2021-09-23 Cruise ships are among the star performers of the tourist industry Their traditions stem back to the nineteenth century Though these traditions have undergone modernisation this book argues that the pleasures that the passengers of the past sought parallel those of their contemporary counterparts It examines the textual representation of cruises in tourist brochures and in the travel writing of among others Mark Twain and Paul Theroux before turning its attention to being a passenger on a cruise ship Much of the book draws on the author's own experiences of travelling on cruise ships and by way of comparison a container ship Of particular focus is what passengers do with their time aboard such ships and how that time is subject to many of same controls found elsewhere in modern institutions
