Pacific Neighbours New Zealand's Relations With Other Pacific Islands:

Pacific Neighbours R. G. Crocombe, 1992 An amazing range of ties connects New Zealand with the rest of the Pacific Islands Few are aware of the complex networks created by the movement of visitors and settlers in both directions by the media by diplomatic activity the military the business community churches sporting fixtures voluntary agencies and service clubs youth and women's organizations Contents Part 1 Movement and interaction of people 1 Settling in each other's countries 2 Transients and non permanent residents Part 2 Resource flows 3 Commercial transactions 4 Non commercial resource transfers Part 3 The transfer of ideas 5 Educational interaction 6 Communication culture and sport Part 4 Power bargaining 7 Political relations 8 Community and conflict in security interests Part 5 Looking ahead 9 To the 21st century

New Zealand in World Affairs: 1972-1990 Bruce Brown, 1977 The eighteen years from 1972 to 1990 encompassed a near revolution in New Zealand's foreign relations In the early seventies New Zealand's approaches to Asia were piecemeal decolonisation in the Pacific had just begun apartheid remained firmly entrenched in South Africa and New Zealand's trade arrangement with Australia was distinguished as much by the bickering it produced as by its limited trading advantages By 1990 all of these things had changed all of them dramatically Back cover

The Pacific Islands and the USA R. G. Crocombe, 1995 The world's most powerful nation and more than a dozen of the world's smallest have been interacting for 200 years Beginning with whaling in the 1700s it has continued through many trades investment education churches media diplomacy and strategic issues As significant as the movement of Americans to the Pacific is that of 150 000 Pacific Islanders to the USA This important book documents the growing interaction with the USA to the pinnacle of involvement in World War II The importance of USA to the Pacific Islands remained high until the end of the 1980s but has declined since then on almost every dimension While USA will remain significant for the Pacific Islands its relative profile will continue to decline Back cover

New Zealand's Foreign Service Ian McGibbon, 2022-10-06 Since 1943 during war humanitarian and natural disasters and flashpoints of global tension one government department has been charged with the critical role of representing New Zealand's interests overseas In doing so the Ministry of Foreign Affairs and Trade and its predecessors has needed to respond to ever evolving political and military allegiances trade globalization economic threats natural disasters and military conflict on behalf of a small nation that seeks to engage on the global stage while maintaining the principles that underpin its political institutions For more than 75 years the ministry has been served by some remarkable people dedicated to an organization that has reflected New Zealand's developing sense of nationhood and place in world This history of the foreign service edited by one of New Zealand's foremost historians captures the high stakes skill and intelligence involved in the development of a unique organization

An Indigenous Ocean Damon Salesa, 2023-11-01 The Pacific's Indigenous times are not just smaller sections of larger histories but dimensions of their own Histories of our Pacific world are richly rendered in these essays by Damon Salesa From the first Indigenous civilisations that flourished in Oceania to the colonial encounters

of the nineteenth century and on to the complex contemporary relationships between New Zealand and the Pacific Salesa offers new perspectives on this vast ocean its people its cultures its pasts and its future Spanning a wide range of topics from race and migration to Pacific studies and empire these essays demonstrate Salesa s remarkable scholarship Bridging the gap between academic disciplines and cultural traditions Salesa locates Pacific peoples always at the centre of their stories An Indigenous Ocean is a pivotal contribution to understanding the history and culture of Oceania **New Zealand, Britain, and European Integration Since 1960** Hamish McDougall,2023-12-26 This book explores how New Zealand a small country almost as far from Western Europe as it is possible to be assumed political importance in Britain s accession to the European Community vastly out of proportion to its size proximity and strategic position At several points in accession negotiations the issue of New Zealand s continued trade with Britain threatened to derail UK Government attempts to join the Community This issue also interacted with the broader context of the Cold War economic shocks and decolonisation materially affecting the terms of entry into the European Community and altering Britain s relations with its European partners and the British public s perceptions of British membership After entry New Zealand continued to resurface as a continued source of tension between Britain and an integrating Europe The role that New Zealand played sheds light on Britain s attempts to retain global influence after the demise of its formal empire Contributing to a growing body of research which challenges the traditional historical narratives of British decline and colonial independence in the second half of the twentieth century this book fills an important gap in the historiography of Britain following the 1973 enlargement of the European Communities *The Cambridge Handbook of World Englishes* Daniel Schreier,Marianne Hundt,Edgar W. Schneider,2020-01-02 The plural form Englishes conveys the diversity of English as a global language pinpointing the growth and existence of a large number of national regional and social forms The global spread of English and the new varieties that have emerged around the world has grown to be a vast area of study and research which intersects multiple disciplines This Handbook provides a comprehensive and authoritative survey of World Englishes from 1600 to the present day Covering topics such as variationist sociolinguistics pragmatics contact linguistics linguistic anthropology corpus and applied linguistics and language history it combines discussion of traditional topics with a variety of innovative approaches The chapters all written by internationally acclaimed authorities provide up to date discussions of the evolution of different Englishes around the globe a comprehensive coverage of different models and approaches and some original perspectives on current challenges *The Pacific Islands* Moshe Rapaport,1999 Forty five contributors offer information on the physical environment history culture population economy and living environment of the Pacific islands **South Pacific Englishes** Carolin Biewer,2015-05-15 Second language varieties of English in the South Pacific have received scant attention until now This monograph offers the first book length analysis of the sociolinguistics and morphosyntax of three representatives of South Pacific L2 English in comparison two of which have never been described linguistically The book describes the spread

of English its current status and use in the three island states and compares the most frequent and salient morphosyntactic features to corresponding structures in Asian and African Englishes and the Oceanic substrate languages As part of a larger theoretical discussion on the multiple factors that determine the evolution and dynamics of L2 varieties in general Mufwene's feature pool model is extended to a new model that integrates cognitive aspects of language acquisition and use typological aspects of the languages varieties involved and socio cultural motivations of language use The book also examines the role of New Zealand English as a potential epicentre in the South Pacific and considers ethical and methodological issues of linguistic field research

International Migration Douglas S. Massey, J. Edward Taylor, 2004-03-25 *International Migration Prospects and Policies* offers a comprehensive up to date survey of global patterns of international migration and the policies employed to manage the flows It shows that international migration is not rooted in poverty or rapid population growth but in the expansion and consolidation of global markets As nations are structurally transformed by their incorporation into global markets people are displaced from traditional livelihoods and become international migrants In seeking to work abroad they do not necessarily move to the closest or richest destination but to places already connected to their countries of origin socially economically and politically When they move migrants rely heavily on social networks created by earlier waves of immigrants and in recent years professional migration brokers have become increasingly common Developing countries generally benefit from international migration because migrant savings and remittances provide foreign earnings to finance balance of payments deficits and make productive investments Some developing nations have gone so far as to establish programs or ministries dedicated to the export of workers Developed nations in contrast focus more on the social and economic costs of immigrants and seek to reduce their numbers regulate their characteristics and limit their access to social services Over time receiving nations have gravitated toward a similar set of restrictive policies yielding undocumented migration as a worldwide phenomenon Globalization also creates infrastructures of transportation communication and social networks to put developed societies within reach In the latter ageing populations and segmenting markets create a persistent demand for immigrant workers All these trends are likely to intensify in the coming years to make immigration policy a key political issue in the twenty first century

New Zealand's empire Katie Pickles, Catharine Coleborne, 2015-11-01 Both colonial and postcolonial historical approaches often sideline New Zealand as a peripheral player This book redresses the balance and evaluates its role as an imperial power as both a powerful imperial envoy and a significant presence in the Pacific region

Pacific Diaspora Paul Spickard, Joanne L. Rondilla, Debbie Hippolite Wright, 2002-08-31 Pacific Islander Americans constitute one of the United States least understood ethnic groups As expected stereotypes abound Samoans are good at football Hawaiians make the best surfers all Tahitians dance Although Pacific history society and culture have been the subjects of much scholarly research and writing the lives of Pacific Islanders in the diaspora particularly in the U S have received far less attention The contributors to this volume of articles and essays compiled by the Pacific Islander Americans

in the South Pacific Richard Guy, Toshio Kosuge, Rieko Hayakawa, 2000 New Zealand And The World: Past, Present And Future Robert G Patman, Iati Iati, Balazs Kiglics, 2017-12-28 The aim of this book is to provide the reader with an overview of New Zealand's international relations. It is a country that has often shown an international presence that is out of proportion to the modest spectrum of national economic, military and diplomatic capabilities at its disposal. In this volume the editors have called upon a range of specialists representing a range of views drawn from the worlds of academia, policy making and civil society. It is an attempt to present a rounded picture of New Zealand's place in the world, one that does not rely exclusively on any particular perspective. The book does not claim to be exhaustive. But it does seek to present a more wide ranging treatment of New Zealand's foreign relations than has generally been the case in the past. Five broad themes help shape and organize the contributions to the text. Pacific Islands Monthly, 1978 **From Asia-Pacific to Indo-Pacific** Robert G. Patman, Patrick Köllner, Balazs Kiglics, 2021-11-24 This book brings together a unique team of academics and practitioners to analyse interests, institutions and issues affecting and affected by the transition from Asia Pacific to Indo Pacific. The Indo Pacific has emerged as the world's economic and strategic centre of gravity in which established and rising powers compete with each other. As a strategic space the Indo Pacific reflects the rise of geo-political and geo-economic designs and dynamics which have come to shape the region in the early twenty-first century. These new dynamics contrast with the neo-liberal ideas and the seemingly increasing globalisation for which the once dominant Asia Pacific regional label stood. **New Zealand and the Sea** Frances Steel, Atholl Anderson, Tony Ballantyne, Julie Benjamin, Douglas Booth, Chris Brickell, Peter Gilderdale, David Haines, Susan Liebich, Alison MacDiarmid, Ben Maddison, Angela McCarthy, Grace Millar, Damon Salesa, Jonathan Scott, Michael J. Stevens, Jonathan West, 2018 As a group of islands in the far south west Pacific Ocean, New Zealand has a history that is steeped in the sea. Its people have encountered the sea in many different ways along the coast, in port on ships, beneath the waves, behind a camera and in the realm of the imagination. While New Zealanders have continually altered their marine environments, the ocean too has influenced their lives. A multi-disciplinary work encompassing history, marine science, archaeology and visual culture, *New Zealand and the Sea* explores New Zealand's varied relationship with the sea, challenging the conventional view that history unfolds on land. Leading and emerging scholars highlight the dynamic, ocean-centred history of these islands and their inhabitants, offering fascinating new perspectives on New Zealand's pasts. The ocean has profoundly shaped culture across this narrow archipelago. The meeting of land and sea is central in historical accounts of Polynesian discovery and colonisation. European exploratory voyaging, sealing, whaling and the littoral communities that supported these plural occupations and the mass migrant passage from Britain. Frances Steel
