Miraculous Metamorphoses J. Demmers, A.E. Fernandez Jilberto, Barbara Hogenboom, 2001-03 This volume examines a central conundrum of Latin American politics How is it that the triumph of neoliberal inspired economic restructuring in the 1980s and 90s did not cause the political demise of populist movements What is remarkable as these scholars show is that Latin American populist parties which had long been associated with statist quasi Keynesian even demagogic economic policies have survived the transition to the much harsher era of free markets privatisation unemployment and increasing inequality And without apparently losing their political popularity in contrast both to the far left and traditional oligarchic parties Indeed Latin American populist forces seem to have made neoliberalism their own The Editors have carefully chosen from South and Central America a representative set of countries through which to explore this phenomenon Argentina Chile Brazil Peru Ecuador Mexico El Salvador and Nicaragua What emerges is an up to date nuanced modern political history of Latin America which does full justice to the distinctive political paths of each country while at the same time making clear the significant extent to which the region's populist tradition as a whole has adapted to the new economic realities This is in marked contrast to the very different political trajectories of Africa and Asia in the past two decades The Politics of Central American Integration Rafael A. Sánchez Sánchez, 2010-12-20 Since its inception in the 1960s to the regional negotiations in the 1990s and onwards Central American integration has been a process characterized by both dramatic advances and setbacks This book provides a theoretical explanation of this ebb and flow examining different stages including the military conflicts of the 1980s the subsequent Esquipulas peace process and the relaunch of integration during the 1990s under the System of Central American Integration SICA Sánchez Sánchez's analysis focuses on the policies and preferences of the larger states of the region Costa Rica El Salvador and Guatemala and argues that integration relies on intergovernmental

bargaining Interviews historical and comparative data are presented in a format invaluable for students and teachers concerned with comparative regional integration as well as for those seeking a greater understanding of contemporary Central American regional and international politics and development **Seeking Peace in El Salvador** D.

Movements in Times of Democratic Transition Bert Klandermans, Cornelis van Stralen, 2015-01-09 In regions that have undergone tumultuous transitions democratic social movements have often been the catalyst for great change However once those changes occur can these movements survive and if so how The editors and contributors to *Movements in Times of Democratic Transition* examine in comparative detail how social movements act within the context of the democratic transitions they have been fighting for and how they are affected by the changes they helped bring about Offering insights into the nature of how social movements decline radicalize revitalize or spark new cycles of activism *Movements in Times of Democratic Transition* provides a comprehensive analysis of these key questions of mobilization research Contributors include Paul Almeida Christopher J Colvin Stephen Ellis Grzegorz Ekiert Grzegorz Forsys Krzysztof Gorlach Camila Penna Sebastião Pereyra Steven Robbins Ton Salman Mate Szabo Ineke van Kessel Michal Wenzel

and the editors **The UN Security Council and Informal Groups of States** Jochen Prantl, 2006-04-27 This book provides the first comparative treatment of the roles of informal ad hoc groupings of states within selected conflict settings and their effects on governance in and out of the UN Security Council Since the 1990s informal institutions such as groups of friends and contact or core groups have proliferated as instruments for the management of risk and conflict due to the increasing demands on the UN Security Council to adapt to the new post cold war security environment The perception of both the capacity and limits of the Security Council has had a catalytic effect on the creation of these ad hoc mechanisms The substance of conflict resolution and the process of its legitimation tend to become increasingly detached with the former being delegated to informal groups or coalition of states while the Security Council provides the latter The successful merger of right process and substantive outcome may strengthen the legitimacy of the Council and make actions taken by informal institutions more acceptable This book seeks to establish the importance of informal ad hoc groupings of states in the making of peace The dynamics between informal institutions and the Security Council are closely examined in the context of conflict resolution in Namibia El Salvador and Kosovo The study illustrates the changing role of the Council in the maintenance of international peace and security The decentralization of tasks to informal groups allows the achievement of policy goals that would be unattainable in the centralized setting of formal international organizations In effect informal institutions are agents of incremental change
