LA PACIFICATION

Et les Nuits de ses années de guerre en Algérie

LA CITÉ - ÉDITEUR

CHAPITRE PREMIER

LA TORTURE

Le Nation française, occidentale et chrétienne, poursuit en Algérie depuis trois ans une entreprise de violence contre l'humanité dont l'ampleur a déjà atteint d'horreur les peuples du monde.

Infammeusement, caractérisée par une évidente dégradation morale et intellectuelle, les soldats et les civils français en Algérie incarnent les pages les plus sanglantes et aussi les plus honteuses de l'histoire du 20^e siècle.

L'armée ne sera pas indulgente pour la France qui avait jusqu'ici toujours sa grandeur dans l'effacement des tribus au drapeau technique illustre des tortures.

L'armée pourra aussi se demander avec une inquiète légitimité les raisons qui ont dû à nos autres nations se défaire complaisamment devant cette gangrène.

En possession de toutes les armes, modernes et archaïques, nous nous devons d'apprécier au jour le jour les prétentions aux tortures monstrueuses évènements français.

Les peuples exposés dans leurs langages et leurs.

Faisons-elles savoir les jours de ceux et de celles qui ne veulent pas voir et éprouver l'opinion internationale.

Human Rights in the Shadow of Colonial Violence Fabian Klose, 2013-04-22 Human Rights in the Shadow of Colonial Violence explores the relationship between the human rights movement emerging after 1945 and the increasing violence of decolonization. Based on material previously inaccessible in the archives of the International Committee of the Red Cross and the United Nations Human Rights Commission, this comparative study uses the Mau Mau War 1952-1956 and the Algerian War 1954-1962 to examine the policies of two major imperial powers, Britain and France. Historian Fabian Klose considers the significance of declared states of emergency, counterinsurgency strategy, and the significance of humanitarian international law in both conflicts. Klose's findings from these previously confidential archives reveal the escalating violence and oppressive tactics used by the British and French military during these anticolonial conflicts in North and East Africa, where Western powers that promoted human rights in other areas of the world were opposed to the growing global acceptance of freedom, equality, self-determination, and other postwar ideals. Practices such as collective punishment, torture, and extrajudicial killings did lasting damage to international human rights efforts until the end of decolonization. Clearly argued and meticulously researched, *Human Rights in the Shadow of Colonial Violence* demonstrates the mutually impacting histories of international human rights and decolonization, expanding our understanding of political violence in human rights discourse.

Political Terrorism A.J. Jongman, 2017-07-28 While there is no easy way to define terrorism, it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into submission by creating fear, demoralization, and political friction in the population under attack. At one time a marginal field of study in the social sciences, terrorism is now very much in center stage. The 1970s terrorist attacks by the PLO, the Provisional Irish Republican Army, the Popular Front for the Liberation of Palestine, the Japanese Red Army, the Unabomber, Aum Shinrikyo, Timothy McVeigh, the World Trade Center attacks, the assault on a school in Russia, and suicide bombers have all made the term terrorism an all too common part of our vocabulary. This edition of *Political Terrorism* was originally published in the 1980s, well before some of the horrific events noted above. This monumental collection of definitions, conceptual frameworks, paradigmatic formulations, and bibliographic sources is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism. This is a carefully constructed guide to one of the most urgent issues of the world today. When the first edition was originally published, Choice noted: "This extremely useful reference tool should be part of any serious social science collection." *Chronicles of Culture* called it a "tremendously comprehensive book about a subject that any who have anything to lose from property to liberty, life to limbs should be forewarned against."

The Blood of the Colony Owen White, 2021-01-12 The surprising story of the wine industry's role in the rise of French Algeria and the fall of empire. We owe to wine a blessing far more precious than gold: the peopling of Algeria with Frenchmen. Stated agriculturist Pierre Berthault in the early 1930s: "In the last decades of the nineteenth century

Europeans had displaced Algerians from the colony's best agricultural land and planted grapevines. Soon enough wine was the primary export of a region whose mostly Muslim inhabitants didn't drink alcohol. Settlers made fortunes while drawing large numbers of Algerians into salaried work for the first time. But the success of Algerian wine resulted in friction with French producers challenging the traditional view that imperial possessions should complement not compete with the metropole. By the middle of the twentieth century amid the fight for independence Algerians had come to see the rows of vines as an especially hated symbol of French domination. After the war Algerians had to decide how far they would go to undo the transformations the colonists had wrought including the world's fourth biggest wine industry. Owen White examines Algeria's experiment with nationalized wine production in worker-run vineyards, the pressures that resulted in the failure of that experiment and the eventual uprooting of most of the country's vines. With a special focus on individual experiences of empire from the wealthiest Europeans to the poorest laborers in the fields, *The Blood of the Colony* shows the central role of wine in the economic life of French Algeria and in its settler culture. White makes clear that the industry left a long-term mark on the development of the nation. [Accessions List](#) United States. Department of State. Library Division, 1960

Totalitarismes et Oligarchismes du G8 entre 2014 et 2045 Christian Nots, 2015-07-16 Cet ouvrage est donc conçu comme un exercice d'insurrection informationnelle et ou comme un exercice de contre-propagande spécifiquement non militaire, non tactique et anti-impériale contre nos merveilleuses et publiques fondations toujours plus schizogéniques toujours plus autoritaires et surtout toujours plus sécuritaires où l'information est devenue info-guerre, l'État des pouvoirs tactiques contemporains des giga-fortunes actuelles d'une infime minorité subtilement fasciste de 7 millions d'Oligarques planétaires ou encore l'État des l'énigmatique soumission civique mondialisée actuelle. Mettre jour les forces obscures, l'œuvre dans nos sociétés de crypter les stratégies sournoises mises en place, l'encontre des masses révéler les objectifs des puissants et leur plan pour nous, voici ce qu'il s'emploie à l'essai terrible et intransigeant de C. Nots. Avec la verve qu'on lui connaît, il signe ainsi un texte apocalyptique plus d'un titre Apocalyptique car il repose sur un processus ici presque douloureux pour le lecteur de dévoilement Apocalyptique car c'est aussi la fin d'une certaine conception de l'humanité que met en évidence cette somme qui emprunte aussi bien la psychiatrie qu'à la politique, préloquant subversif un ouvrage une nouvelle fois d'annonçant.

Terrorismes d'Etat 2001-2025 Christian Nots, 2012-11-15 Le monde sera bientôt un village dit-on. Image rassurante et chaleureuse véhiculée aujourd'hui par des hommes et des institutions qui nous vendent un futur fraternel et souriant. Et si ce village était moins rassurant qu'il n'y paraît ? Et si il ne s'agissait que de nous faire adhérer un mirage ? Et si actuellement se jouait un certain nombre de processus de contrôle et de manipulation, de falsification et de mise au silence qui bâissent pierre par pierre un avenir moins radieux que promis ? Des dérives mais peut-on encore parler de simples dérives et non de planification en suivant ici Christian Nots que révéle cet essai d'insurrection informationnelle qui lève le voile sur la société de demain préparée par ceux qui se posent frôlement comme les défenseurs du monde libre, Nolibéralisme et néoconservatisme.

nocolonialisme et nopolisme d'information et instrumentalisation des masses Liste non exhaustive des mécanismes l'œuvre de par le monde que met jour et décrypte Christian Nots dans un ouvrage qui résonne comme un cri d'alarme adressé à tous ceux qui pensent que nous nous dirigeons vers plus de paix de liberté de démocratie Et l'auteur de pointer justement du doigt celui qui est censé nous protéger savoir un Etat qui apparaît ici dans tout son cynisme et sa fausseté Au terme de cette lecture aussi précise que terrifiante aussi glaissante que nécessaire nul doute que vous serez débarrassés de votre cruelle organisation et mieux armés intellectuellement pour vous opposer à la marche que l'on veut nous imposer
