historical cultural and political contexts that have shaped American writing Twentieth Century and Contemporary American Literature in Context provides wide coverage of authors works genres and movements that are emblematic of the diversity of modern America Not only are major literary movements represented such as the Beats but this work also highlights the emergence and development of modern Native American literature African American literature and other representative groups that showcase the diversity of American letters A rich selection of primary documents and background material provides indispensable information for student research *The Routledge Introduction to American War Literature* Jennifer Haytock,2018-05-11 War and violence have arguably been some of the strongest influences on literature but the relation is complex more than just a subject for story telling war tends to reshape literature and culture Modern war literature necessarily engages with national ideologies and this volume looks at the specificity of how American literature deals with the emotional intellectual social political and economic contradictions that evolve into and out of war Raising questions about how American ideals of independence and gender affect representations of war while also considering how specifically American experiences of race and class interweave with representations of combat this book is a rich and coherent introduction to these texts and critical debates **Contemporary American Fiction in the European Classroom**

Laurence W. Mazzeno,Sue Norton,2022-04-06 This book offers insight into the ways students enrolled in European classrooms in higher education come to understand American experience through its literary fiction which for decades has been a key component of English department offerings and American Studies curricula across the continent and in Great Britain and Ireland The essays provide an understanding of how post World War II American writers some already elevated to canonical status and some not are represented in European university classrooms and why they have been chosen for inclusion in coursework The book will be of interest to scholars and teachers of American literature and American studies and to students in American literature and American studies courses **Encyclopedia of the American Novel** Abby H. P. Werlock,2015-04-22 Praise for the print edition no other reference work on American fiction brings together such an array of authors and texts as this **The New Order of War** ,2010-01-01 Far from heralding a time of unprecedented peace the end of actually existing communism served to usher in new conflicts new wars and new reasons for war That much goes without saying What is controversial however is how we might understand and respond to these new wars This book offers a new approach Its distinctive and multidisciplinary range of perspectives offering quite different views is based on the conviction that if we are to begin to get to grips with this central feature of our 21st Century lives we have to go beyond an unhelpful moralism on the one hand and a defeatist appeal to human nature on the other **Naturalism in American Fiction** John J. Conder,2014-07-15 In this closely reasoned study John J Conder has created a new and more vital understanding of naturalism in American literature Moving from the Hobbesian dilemma between causation and free will down through Bergson s concept of dual selves Conder defines a view of determinism so rich in possibilities that it can serve as the

inspiration of literary works of astonishing variety and unite them in a single though developing naturalistic tradition in American letters At the heart of this book beyond its philosophic discussion is Conder s reading of key works in the naturalistic canon beginning with Stephen Crane s *The Open Boat* and *The Blue Hotel* The special character of determinism in Crane is Conder holds the source of his complexity and striking originality He finds a stricter determinism in Norris s *McTeague* In Dreiser however the naturalistic tradition develops toward a fusion of determinism and freedom in a single work and this fusion in a different guise operates in Dos Passos s view of self in *Manhattan Transfer* With Steinbeck s *The Grapes of Wrath* the uniting of determinism and freedom finds its fullest realization in the concept of dual selves one determined one free In Faulkner s *The Sound and the Fury* and *Absalom Absalom* the concept of the dual self appears in its most complex form The developments in the work of Steinbeck and Faulkner Conder believes bring the classic phase of American literary naturalism to a close *Naturalism in American Fiction* illuminates a group of major literary works and revives a theoretic consideration of naturalism It thus makes a fundamental contribution to American studies *The Modern American Urban Novel* Arnold L. Goldsmith,1991 Goldsmith challenges the view that nature is absent in the modern urban novel and interprets the phrase the interweaving of physical description and symbolism metaphor and characterization and theme and imagery that give internal form to external narrative He provides a textual analysis of seven 20th century American novels *Manhattan transfer* *Studs Lonigan* *Call it sleep* *The Dollmaker* *The Assistant* *The Pawnbroker* and *Mr Sammler s planet* Annotation copyrighted by Book News Inc Portland OR *Writers and Their Craft* Nicholas Delbanco,Laurence Goldstein,1991 Based on material that first appeared as a two volume issue of Michigan quarterly review *Distinguished writers of fiction* discuss the creative process and the direction of American fiction in original essays interviews memoirs and short fiction Acidic paper Annotation copyrighted by Book News Inc Portland OR *Arts & Decoration Combined with the Spur* ,1925 *Arts & Decoration* ,1926 *Sacrifice and Modern War Literature* Alex Houen,Jan-Melissa Schramm,2018-06-17 *Sacrifice and Modern War Literature* is the first book to explore how writers from the early nineteenth century to the present have addressed the intimacy of sacrifice and war It has been common for critics to argue that after the First World War many of the cultural and religious values associated with sacrifice have been increasingly rejected by writers and others However this volume shows that literature has continued to address how different conceptions of sacrifice have been invoked in times of war to convert losses into gains or ideals While those conceptions have sometimes been rooted in a secular rationalism that values lost lives in terms of political or national victories spiritual and religious conceptions of sacrifice are also still in evidence as with the martyrdom operations of jihadis fighting against the war on terror Each chapter presents fresh insights into the literature of a particular conflict and the contributions explore major war writers including Wordsworth Kipling Ford Madox Ford and Elizabeth Bowen as well as lesser known authors such as Dora Sigerson Richard Aldington Thomas Kinsella and Nadeem Aslam The volume covers multiple genres including novels

poetry particularly elegy and lyric memoirs and some films The contributions address a rich array of topics related to wartime sacrifice including scapegoating martyrdom religious faith tragedy heroism altruism bare life atonement and redemption **Reading Vietnam Amid the War on Terror** T. Hawkins,2012-02-27 Argues that the examination of contemporary American war narratives can lead to newfound understandings of American literature American history and American national purpose To prove such a contention the book blends literary rhetorical and cultural methods of analysis
