Encyclopedia of Diasporas Melvin Ember, Carol R. Ember, Ian Skoggard, 2004-11-30 Immigration is a topic that is as important among anthropologists as it is the general public Almost every culture has experienced adaptation and assimilation when immigrating to a new country and culture usually leaving for what is perceived as a better life Not only does this diaspora change the country of adoption but also the country of origin Many large nations in the world have absorbed and continue to absorb large numbers of immigrants The foreseeable future will see a continuation of large scale immigration as many countries experience civil war and secessionist pressures Currently there is no reference work that describes the impact upon the immigrants and the immigrant societies relevant to the world s cultures and provides an overview of important topics in the world s diasporas The encyclopedia consists of two volumes covering three main sections Diaspora Overviews covers over 20 ethnic groups that have experienced voluntary or forced immigration These essays discuss the history behind the social economic and political reasons for leaving the original countries and the cultures in the new places Topics discusses the impact and assimilation that the immigrant cultures experience in their adopted cultures including the arts they bring the struggles they face and some of the cities that are in the forefront of receiving immigrant cultures Diaspora Communities include over 60 portraits of specific diaspora communities Each portrait follows a standard outline to facilitate comparisons The Encyclopedia of Diasporas can be used both to gain a general understanding of immigration and immigrants and to find out about particular cultures topics and communities It will prove of great value to researchers and students curriculum developers teachers and government officials It brings together the disciplines of anthropology social studies political studies international studies and immigrant and immigration studies

Landscape with Two Saints Lisa M. Bitel, 2009-05-19 Lisa Bitel uses the history of two unique holy women Genovefa of Paris ca 420 509 and Brigit of Kildare ca 452 524 to reveal how ordinary Europeans lived through Christianization at the dawn of the Middle Ages Most converts did not have a sudden epiphany Bitel argues Instead they learned and lived their new religion in continuous conversation with preachers saints rulers and neighbors Together they built their faith over many years brick by brick into their churches and shrines cemeteries houses and even their markets and farms The Contrast

Between Good and Bad Men Gardiner Spring, 1855 *City of God, City of Satan* Robert C. Linthicum, 2011-03-01 Why is the city a battleground of hostile principalities and powers What is the mission of the church in the city How can the church be supported in accomplishing that mission These are the questions that Robert Linthicum treats in his comprehensive and probing biblical theology of the city In the Bible the city is depicted both as a dwelling place of God and his people and as a center of power for Satan and his minions The city is one primary stage on which the drama of salvation is played out And that is no less the case at the end of this pivotal century as megacities become the focal point of most human activity and aspirations around the world This is a timely theology of the city that weaves the theological images of the Bible and the social realities of the contemporary world into a revealing tapestry of truths about the urban experience Its purpose is to define clearly the mission of the church in the midst of the urban realities and to support well the work of the church in the urban world
