Pagan Mysticism Michael York, 2018-12-10 As a non dogmatic religion paganism is a spirituality that is variously interpreted in terms of nature worship this worldliness the valuing of the physical and multiple understandings of the sacred Like most religions pagan spirituality also entertains the experience of mystical ecstasy as an intense state of psycho spiritual consciousness that radically diverges from ordinary waking awareness This volume addresses two fundamental questions namely how do the world s religions understand the mystical and its pursuit and how and why does paganism offer something different Proverbially the mystical quest is an ultimate human endeavour The re emergence of pagan thought in contemporary times challenges the obsolete and unlocks both innovation and available forms of transpersonal emancipation

Experiencing the Shepherd of Hermas Angela Kim Harkins, Harry O. Maier, 2022-06-06 *The Shepherd of Hermas* is one of the oldest and most well attested Christian works Its popularity arguably exceeded that of the canonical Gospels Many early Christian thinkers regarded the Shepherd as authoritative and cited it in their own writings even though its status as Scripture was controversial The far reaching influence of the Shepherd during the first few centuries is attested in part by the many languages in which it was copied Latin Ethiopic Coptic Middle Persian and Georgian The early dating and wide dissemination of the Shepherd of Hermas offers us access to a period when canonical boundaries were elastic This volume treats religious experience in the Shepherd a topic that has received little scholarly attention It complements a growing body of literature that explores the text from social historical perspectives Leading scholars approach it from a variety of interdisciplinary perspectives including critical literary theory anthropology cognitive science affect theory gender studies intersectionality

and text reception In doing so they pose fresh questions to one of the most widely read texts in the early church offering new insights to scholars and students alike

Charity after Augustine Jonathan Teubner, 2024-12-07 Charity after Augustine explores why the Augustinian tradition's attempts to build solidarity in the societies of the Latin West have ended in disaster just as often as they have brought about justice Focusing on the concrete practices of love and charity almsgiving works of mercy good works Teubner demonstrates how religious leaders attempted simultaneously to bind and hold communities together while also in fits and starts to expand and include others in their communities The first part probes how Augustine's thought is put into practice informing a tradition of political action inspired by concepts of love and enacted through practices of charity In a second more expansive part Charity after Augustine turns to the ways in which the Benedictine tradition as received by Gregory the Great and Bernard of Clairvaux transforms this vision and puts it into practice in contexts radically different from those of Augustine's age At the heart of this book is an attempt to find a non idealized vision of love that can inform thick relations within a community that are not diluted but are rather strengthened by the incorporation of outsiders

India in the Italian Renaissance Meera Juncu,2015-07-30 India in the Italian Renaissance provides a systematic chronological survey of early Italian representations of India and Indians from the late medieval period to the end of the 16th century and their resonance within the cultural context of Renaissance Italy The study focuses in particular on Italian attitudes towards the inhabitants of the Indian subcontinent and questions how Renaissance Italians schooled in the admiration of classical antiquity responded to the challenge of this contemporary pagan world Meera Juncu draws from a wide ranging selection of contemporary travel

literature to trace the development of Italian ideas about Indians both before and after Vasco Da Gama's landing in Calicut. After an introduction to the key concepts and a survey of inherited notions about India, the works of a diverse range of writers and editors including Marco Polo, Petrarch, and Giovanni Battista Ramusio are analysed in detail. Through its discussion of these texts, this book examines whether India came in any way to represent a pagan civilization comparable to the classical antiquity celebrated in Italy during the Renaissance. India in the Italian Renaissance offers a new and exciting perspective on this fascinating period for students and scholars of the Italian Renaissance and the history of India.

Christian Identity amid Islam in Medieval Spain Charles L. Tieszen, 2013-05-30 In *Christian Identity amid Islam in Medieval Spain*, Charles L. Tieszen explores a small corpus of texts from medieval Spain in an effort to deduce how their authors defined their religious identity in light of Islam and in turn how they hoped their readers would distinguish themselves from the Muslims in their midst. It is argued that the use of reflected self image as a tool for interpreting Christian anti-Muslim polemic allows such texts to be read for the self image of their authors instead of the image of just those they attacked. As such polemic becomes a set of borders, authors offered to their communities, helping them to successfully navigate inter-religious living.

Power and the Powers Andrew R. Hardy, Richard Whitehouse, Dan Yarnell, 2015-10-12 *Missio Dei* by its very nature requires the church to come to terms with the exercise of power both internally and externally as it confronts the world. Tune in to any newscast or glance at the daily newspaper and it immediately becomes clear that the use and abuse of power is a live issue. The more we focus on the twists and turns of current events, the more it appears that uncorrupted exercise of power eludes the human race. All too often we become uneasily aware that there are powers lying behind the power that any of us wields, whether it is in the family, the classroom, on the shop floor, in the boardroom, or in churches. Effective missional leadership involves creative engagement with the powers at work in the world without being debased by them. This book sets out to address the issue of the use and misuse of power from biblical, theological, and practical perspectives. The authors bring their theological, pastoral, missionary, and personal experience to their task in order to inform, challenge, and invite readers into a responsible use of the powers that God has put into the hands of each one of us to achieve his purposes in the world.

Allegories of America Frederick M. Dolan, 2018-03-15 *Allegories of America* offers a bold idea of what, in terms of political theory, it means to be American. Beginning with the question, "What do we want from a theory of politics?" Dolan explores the metaphysics of American-ness and stops along the way to reflect on John Winthrop, the Constitution, 1950s behavioralist social science, James Merrill, and William Burroughs. The pressing problem in Dolan's view is how to find a vocabulary for politics in the absence of European metaphysics. American political thinkers, he suggests, might respond by approaching their own theories as allegories. The postmodern dilemma of the loss of traditional absolutes would thus assume the status of a national mythology. America's perennial identity crisis, in the absence of a tradition establishing the legitimacy of its founding. After examining the mid-Atlantic sermons of John Winthrop, the spiritual founding father, Dolan reflects on the authority of the

Constitution and the Federalist He then takes on questions of representation in Cold War ideology focusing on the language of David Easton and other liberal political behaviorists as well as on cold War cinema and the coverage of international affairs by American journalists Additional discussions are inspired by Hannah Arendt s recasting of political theory in a narrative framework here Dolan considers two starkly contrasting postwar literary figures William S Burroughs and James Merrill both of whom have a troubled relationship to politics but nonetheless register an urgent need to articulate its dangers and opportunities Alongside Merrill s unraveling of the distinction between the serious and the fictive Dolan assesses the attempt in Arendt s On Revolution to reclaim fictional devices for political reflection

Pagans & Christians Gus DiZerega,2001 Although Christianity is still a major religious force there are growing numbers of people in other faiths including the various Pagan traditions Some Christians have responded to this trend with fear and derision while some Pagans have reacted to that fear with anger and mistrust Much of the problem is due to misunderstandings and lack of communication This can change with Gus diZerega s Pagans Christians Here you will find a penetrating and illuminating comparison showing that neither path has the single correct approach to the Divine Rather either or both can be authentic and legitimate expressions of the appreciation of the Ultimate Source of All Pagans Christians is an ideal way to help bridge what at time seems a wide chasm between Christian and Pagan beliefs By sharing core ideas of both paths this book provides a way to give deeper mutual understanding and unity among the religions of the world Although Pagans Christians accepts both paths as valid the book provides a more in depth explanation of Paganism the minority religion because in some ways Paganism demands a greater defense and explanation of its beliefs and ideas to dispel misunderstandings The author is a Third Degree Gardenerian Elder and in Pagans Christians has presented nothing less than a brilliant defense of Paganism clearly showing how it should stand beside all of the major religions of the world as an equal As part of this defense diZerega gives a listing of biblical contradictions and Christian philosophical difficulties which can help any Pagan responding to a negative attack and will help any Christian to view his or her religion as a way not the way Winner of the 2001 Coalition of Visionary Resources COVR Award for Best Non fiction Book
