Pagoda Skull And Samurai:

Pagoda, Skull & Samurai Koda Rohan, 2011-12-20 This collection of Japanese literature features the works of noted Japanese novelist Koda Rohan. Japanese literary history usually classifies Koda Rohan as an idealist writer and the three stories included in this anthology belong to this genre. The Five Storied Pagoda, one of Koda's best known works, is the moving account of a misunderstood carpenter who has been inspired to undertake the construction of a pagoda by himself. It is not merely a story of individualism; however, for the religious implications of such a task are profound. Encounter with a Skull concerns a fortuitous meeting of two souls not necessarily ordained by karma. The multiple processes of enlightenment are perceptively depicted in this eerie tale. The last story, The Bearded Samurai, is an historical novella whose setting is the sixteenth century battle of Nagashino between the forces of Oda Nobunaga and Tokugawa Ieyasu and those of Takeda Katsuyori. Here the human side of the warrior and a realistic view of the samurai are delineated. Such stories, in addition to the essays and notes by the translator, will prove of interest to the general reader and especially to the reader already familiar with Japanese literature.

Pagoda, Skull, and Samurai Rohan Kōda, 1984 **Pagoda, Skull and Samurai** Rohan Kōda, 1982 **Pagoda, Skull, and Samurai** Koda Rohan, 1984 Pagoda, Skull & Samurai Rohan Kōda, 1985 Twentieth Century Literary Criticism Dennis Poupard, 1986-12 Contains alphabetically arranged entries that provide a selection of critical excerpts on the works of nineteen authors who died between 1900 and 1960, each including a biographical critical introduction, a list of principal works, and a bibliographical citation. **Shoshaman** Shinya Arai, 1991-04-18 Acknowledging no god but the corporate good, the shoshamen, high-powered professionals within Japan's integrated trading companies, serve as the unrelenting cogs of an economic machine. Or do they? This book takes the reader inside the world of Japan Inc. Written by a senior executive in a major sogo shosha, this novel reveals, as no textbook can, the strategies required to win the race to the top. It also makes painfully clear the ethical and psychological choices that such a race demands. Transformations of Sensibility Hideo Kamei, 2020-06-01 First published in Japan in 1983, this book is now a classic in modern Japanese literary studies. Covering an astonishing range of texts from the Meiji period (1868-1912), it presents sophisticated analyses of the ways that experiments in literary language produced multiple new and sometimes revolutionary forms of sensibility and subjectivity. Along the way, Kamei Hideo carries on an extended debate with Western theorists such as Saussure, Bakhtin, and Lotman, as well as with such contemporary Japanese critics as Karatani Kjin and Noguchi Takehiko. *Transformations of Sensibility* deliberately challenges conventional wisdom about the rise of modern literature in Japan and offers highly original, close readings of works by such writers as Futabatei Shimei, Tsubouchi Shyō, Higuchi Ichirō, and Izumi Kyōka, as well as writers previously ignored by most scholars. It also provides a new critical theorization of the relationship between language and sensibility, one

that links the specificity of Meiji literature to broader concerns that transcend the field of Japanese literary studies Available in English translation for the first time it includes a new preface by the author and an introduction by the translation editor that explain the theoretical and historical contexts in which the work first appeared **In the Company of Men** Jim Reichert,2006 In the Company of Men examines representations of male male sexuality in literature from the Meiji period when Japan launched an unprecedented modernization campaign **Twentieth-century Literary Criticism** Gale Research Company,1987 Excerpts from criticism of the works of novelists poets playwrights and other creative writers 1900 1960
