Digital Baroque Timothy Murray, In this intellectually groundbreaking work Timothy Murray investigates a paradox embodied in the book's title What is the relationship between digital in the form of new media art and baroque a highly developed early modern philosophy of art Making an exquisite and unexpected connection between the old and the new Digital Baroque analyzes the philosophical paradigms that inform contemporary screen arts Examining a wide range of art forms Murray reflects on the rhetorical emotive and social forces inherent in the screen arts dialog with early modern concepts Among the works discussed are digitally oriented films by Peter Greenaway Jean Luc Godard and Chris Marker video installations by Thierry Kuntzel Keith Piper and Renate Ferro and interactive media works by Toni Dove David Rokeby and Jill Scott Sophisticated readings reveal the electronic psychosocial webs and digital representations that link text film and computer Murray puts forth an innovative Deleuzian psychophilosophical approach one that argues that understanding new media art requires a fundamental conceptual shift from linear visual projection to nonlinear temporal fields intrinsic to the digital form
