*Eakins Revealed* Henry Adams, 2005-05-01 Thomas Eakins is widely considered one of the great American painters an artist whose uncompromising realism helped move American art from the Victorian era into the modern age He is also acclaimed as a paragon of integrity one who stood up for his artistic beliefs even when they brought him personal and professional difficulty as when he was fired from the Pennsylvania Academy of Art for removing a model's loincloth in a drawing class Yet beneath the surface of Eakins's pictures is a sense of brooding unease and latent violence a discomfort voiced by one of his sitters who said his portrait decapitated her In *Eakins Revealed* art historian Henry Adams examines the dark side of Eakins's life and work in a startling new biography that will change our understanding of this American icon Based on close study of Eakins's work and new research in the Bregler papers a major collection never fully mined by scholars this volume shows Eakins was not merely uncompromising but harsh and brutal both in his personal life and in his painting Adams uncovers the bitter personal feuds and family tragedies surrounding Eakins his mother died insane and his niece committed suicide amid allegations that Eakins had seduced her and documents the artist's tendency toward psychological abuse and sexual harassment of those around him This provocative book not only unveils new facts about Eakins's life more important it makes sense for the first time of the enigmas of his work *Eakins Revealed* promises to be a controversial biography that will attract readers inside and outside the art world and fascinate anyone concerned with the mystery of artistic genius

**Ornamented Lives** Jaan Valsiner, 2018-10-01 *Ornamented Lives* is a theoretical synthesis of cultural psychology aesthetics and philosophy of meaning construction It is an extension of the author's theory of Semiotic Dynamics Culture in Minds and Societies 2007 to the field of ornaments Ornaments are not merely decorations but play the important role of guiding the affective depths of the human minds This is done by capturing the whole fields of perceivable peripheral spaces and filling them with highly recursive forms The book concentrates on the visual ornaments of various kinds indicating in them the tensions between basic forms linear and curvilinear This tension is present in human construction of environments natural growth involves curvilinear forms while human constructions introduce linearity The basic tension between linear and curvilinear infinities is expressed in the use of spiral forms in art and architecture The book builds a theoretical account of human beings constantly creating sublime life occasions that give them affective charge for

dramatizations of ordinary living Episodically the sublime acquires new quality becomes aesthetic The coverage in this book links the aesthetic the sublime and the mundane into one theoretical scheme within cultural psychology The Party and the Arty in China Richard Curt Kraus,2004-04-02 In this original exploration of the dynamic and potent interface between Chinese culture and politics Richard Kraus examines the impact of the market on the once comprehensive system of state patronage of the arts in the PRC The author uses all genres of art to explore the changing nature of politics seen through such phenomena as ideology propaganda censorship and the relationship of artists to the state Kraus makes three provocative arguments First the commercialization of China s cultural life has been intellectually liberating but also poses serious economic challenges that artists are sometimes slow to master Second despite conventional wisdom in the West that China s economic reforms have not been followed by serious political reform he shows that the shift from state patronage to a mixed system of private and public sponsorship is in fact a fundamental political change Third Western recognition of the reformation in China s cultural life has been obscured by a combination of ignorance ideological barriers and foreign policy rivalry Cogent witty and deeply informed this comprehensive overview of the Chinese arts scene will be an essential text for all observers of contemporary China The Female Nude Lynda Nead,2024-05-01 The history of Western art is saturated with images of the female body Lynda Nead s *The Female Nude* was the first book to critically examine this phenomenon from a feminist perspective and ask how and why did the female nude acquire this status In a deft and engaging manner Lynda Nead explores the ways in which acceptable and unacceptable images of the female body are produced issues which have been reignited by current controversies around the patriarchy objectification and pornography Nead brilliantly illustrates the two opposing poles occupied by the female nude in the history of art at one extreme the visual culmination of enlightenment aesthetics at the other spilling over into the degraded and the obscene What both have in common however is the aim of containing the female body Drawing on examples of art and artists from the classical period to the 1980s *The Female Nude* paints a devastating picture of the depiction of the female body and remains as fresh and invigorating today as it was at the time of its first publication This Routledge Classics edition includes a new Preface by the author Becoming Chinese Wen-hsin Yeh,2023-11-15 This volume evaluates the dual roles of war and modernity in the transformation of twentieth century Chinese identity The contributors all leading researchers argue that war no less than revolution deserves attention as a major force in the making of twentieth century Chinese history Further they show that modernity in material culture and changes in intellectual consciousness should serve as twin foci of a new wave of scholarly analysis Examining in particular the rise of modern Chinese cities and the making of the Chinese nation state the contributors to this interdisciplinary volume of cultural history provide new ways of thinking about China s modern transformation up to the 1950s Taken together the essays demonstrate that the combined effect of a modernizing state and an industrializing economy weakened the Chinese bourgeoisie and undercut the individual s quest for autonomy Drawing upon new archival sources

these theoretically informed thoroughly revisionist essays focus on topics such as Western inspired modernity urban cosmopolitanism consumer culture gender relationships interchanges between city and countryside and the growing impact of the state on the lives of individuals The volume makes an important contribution toward a postsocialist understanding of twentieth century China This volume evaluates the dual roles of war and modernity in the transformation of twentieth century Chinese identity The contributors all leading researchers argue that war no less than revolution deserves attention as a major force in the making of

**Memoir of an Artist** Amitabh SenGupta,2014-06-27 Memoir of an Artist is a compelling account of an unpredictable life that stretches through India Nigeria and Paris As a student he was a witness to the student revolt in Paris in 1968 in the seventies he was in Nigeria observing the post Biafra scenario as a teacher in the university As a product of institutional education that shaped and groomed the new artists he realizes the impact of Eurocentric dialogue on Indian art so imposing that it makes Indian art in perpetual transit Again in the process of creating dialogue within Kolkata life author discovers contemporary art indeed has no social connectivity thus the educated progressive is unable to dialogue with the progressing art Indian modernism has become a manufactured brand within art commerce aligned to global marketing Meanwhile life has many spectrums and the author has observed the modernistic agenda exists in contemporary art as in many activities of Indian life but each is like an island without connectivity
