The Brain and the Spirit Gena St. David, 2021-10-29 *The Brain and the Spirit* invites readers to embark on a practice of listening to the Christ story through the earpiece of neuroscience After many years steeped in brain science the author had an unexpected encounter with a theologian James Alison whose trust in God and forgiveness toward others appeared to defy neurobiological explanation How did his encounter with the Christ story produce in him the Christlike responses that it did This question launched the author on a thrilling quest to listen to the scriptures and take up questions of creation humanity sin Jesus salvation the Spirit and the body of Christ to hear what might get amplified by our ever expanding understanding of the human brain Readers are invited to eavesdrop on the twists and turns of the author's story and take up their own practice of listening to the Spirit scripture and theology through the earpiece of neuroscience and to become curious how the Christ story may spark trust which unlocks our brain's capacity to engage reality with relationality kindness creativity and access to joy

Painting the Cosmos Nia Imara, 2025-02-25 In *Painting the Cosmos* astrophysicist and visual artist Dr Nia Imara comprehensively illustrates the history of the universe and our position in it through the interwoven perspectives of astrophysics and art

Concerning the Spiritual—and the Concrete—in Kandinsky's Art Lisa Florman, 2014-03-26 This book examines the art and writings of Wassily Kandinsky who is widely regarded as one of the first artists to produce non representational paintings Crucial to an understanding of Kandinsky's intentions is *On the Spiritual in Art* the celebrated essay he published in 1911 Where most scholars have taken its repeated references to spirit as signaling quasi religious or mystical concerns Florman argues instead that Kandinsky's primary frame of reference was G W

F Hegel's Aesthetics in which art had similarly been presented as a vehicle for the developing self consciousness of spirit or Geist in German In addition to close readings of Kandinsky's writings the book also includes a discussion of a 1936 essay on the artist's paintings written by his own nephew philosopher Alexandre Kojve the foremost Hegel scholar in France at that time It also provides detailed analyses of individual paintings by Kandinsky demonstrating how the development of his oeuvre challenges Hegel's views on modern art yet operates in much the same manner as does Hegel's philosophical system Through the work of a single crucial artist Florman presents a radical new account of why painting turned to abstraction in the early years of the twentieth century

Jizi and His Art in Contemporary China David Adam Brubaker, Chunchen Wang, 2015-02-12 This interdisciplinary study promotes the thesis that some contemporary Chinese ink artists succeed in using principles of traditional Chinese aesthetics to convey the union of self with nature others and the universe The investigation is a case study of the writings and paintings of Jizi an ink wash artist in Beijing who combines images of icy mountains Tibetan landscapes cosmic vistas and enclosures of personal existence Jizi's success in expressing the unification of these dimensions is confirmed by developing and applying an interpretation of Jing Hao's classic description of the authentic image which resonates with the vitality of nature To find words for resonance with visible nature the inquiry extends to such writers as Li Zehou Arthur Danto and Maurice Merleau Ponty In short an account of authenticity in Chinese ink painting is offered experimentally as a means for assessing whether contemporary Chinese artworks are expressive of Chinese philosophy and culture The text includes stylistic comparisons with artists such as E C Escher Guo Xi Jia Youfu Liu Guosong Rene Magritte Piet Mondrian and Xu Bing The result is an appreciation of the healing influence of Chinese ink art in a global culture that is vibrant complex diverse and affirming of the present In this rigorous far reaching and original analysis of contemporary ink art painting Brubaker and Wang focus our attention on the work of one independent painter Jizi whose work exemplifies an uncanny marriage between ink art and contemporary concerns In the central chapters Brubaker persuasively argues that in this work Jizi captures principles essential to traditional Chinese aesthetics articulated in terms of wholeness emptiness and visibility that enable the works to express the unification of the self with nature and the universe as a whole It does this through forms that are innovative and part of artistic practices and discourses that are becoming increasingly global Mary Wiseman The City University of New York This important publication focuses on the evocative ink wash paintings of an artist who has over the course of decades demonstrated an unwavering commitment to exploring the technical formal philosophical and experiential dimensions of his chosen medium The essays commentaries and critical reflections collected in this volume present unique perspectives on Jizi's practice significantly contributing to the growing body of scholarship on the continuing vitality of the ink wash tradition in the global contemporary Dr Wenny Teo The Courtauld Institute of Art Through an in depth study of the ink painting practice of contemporary Chinese artist Jizi the authors discover Chinese ink painting's philosophical perspectives cosmic foundations and contemporary possibilities They

also uncovered a way to enter into the artist's rich and profound spiritual world through Jiazi's expansive visual patterning and refined spiritual imagery he activates a long and great cultural tradition Yu Yang Central Academy of Fine Arts

The Cosmos and the Creative Imagination Anna-Teresa Tymieniecka, Patricia Trutty-Coohill, 2016-02-03 The essays in this book respond to Anna Teresa Tymieniecka's recent call to explore the relationship between the evolution of the universe and the process of self-individuation in the ontopoietic unfolding of life The essays approach the sensory manifold in a number of ways They show that theories of modern science become a strategy for the phenomenological study of works of art and vice versa Works of phenomenology and of the arts examine how individual spontaneity connects with the design's of the logos of the whole and of the particulars while the design's rest not on some human concept but on life itself Life's pliable matrices allow us to consider the expansiveness of contemporary science and to help create a contemporary phenomenological sense of cosmos

A History of Contemporary Chinese Art Yan Zhou, 2020-07-14 Chinese art has experienced its most profound metamorphosis since the early 1950s transforming from humble realism to socialist realism from revolutionary art to critical realism then avant garde movement and globalized Chinese art With a hybrid mix of Chinese philosophy imported but revised Marxist ideology and western humanities Chinese artists have created an alternative approach after a great ideological and aesthetic transition in the 1980s toward its own contemporaneity though interacting and intertwining with the art of rest of the world This book will investigate from the perspective of an activist critic and historian who grew up prior to and participated in the great transition and then researched and taught the subject the evolution of Chinese art in modern and contemporary times The volume will be a comprehensive and insightful history of the one of the most sophisticated and unparalleled artistic and cultural phenomena in the modern world
